

22 FEB 08. Hail Chris! Many thanks for your letter of 18 FEB 08 & the USS Liberty photos + the "New Panther" newsletter. The lack of pro-Eurofolk material is not so much due to a lack thereof, but to ZOG's censorship, in favor of non-Euros. That, in itself, is most informative. I participated in a video feature entitled "Genocide by Propaganda." The thesis was that malicious lies serve to discredit the targets' worth in others' eyes, as well as in the eyes of the target group. To go further, censorship of the mere mention of a group's existence is the prelude to policies aimed at the elimination of the group itself. These policies are addressed in The Genocide Convention, which has been applied strictly in terms of favoritism by our rulers.

If I recall my German correctly, I think your otherwise correct German greeting is: "Ich begrüße Ihnen," meaning, literally, "I greet you." You can also say, "Gruss, Kamerad!"

Yes, I write articles, but I doubt your zoggies would permit you to receive them. I look forward to receiving your article, which I shall not only review for you, but I'll see if it can be published in some newsletter &/or on the Internet. Speeches make for good articles, & personal views & experiences are better than things which one merely read in books, whose authors have their own biases. It's good to have thoughts on lots of things, for that indicates you not only see & hear, but also think! "Such a deal for a Goy," as some would say.

Re your gulag's Mail Mysteries: I acknowledge receipt of everything I receive from you, including anything your zoggies return to me, which is nothing. This is why you should write the date on your letters every time. That way, I can acknowledge it, & also know how long it took ZOG to deliver it to me, within the State of Washington.

Since the USA was never a nation, but a republic of the rich, similar to ancient Rome, our fate is becoming similar to that of Rome, which perished from imperial expansion & a consequent lack of Romans. Historians have opined that empires must expand or die, but it is just as true that empires expand AND die. This is what the USA is doing at an accelerated pace. The U.S. population has always been ruled by alien interests, so whichever Goy frontman or Jew is 'emperor'-president 'elected', he must serve Zionist-bankster imperial policies, or meet the fate of the Kennedys.

I recall seeing a portion of a TV interview of Gore Vidal, who lives in Rome, Italy, & spoke about the USA's imperial decline, with Roman ruins in the background, such as Rome's amphitheater or Superbowl. Vidal is a relative of Al Gore, who said in a campaign appearance, "We mustn't say it's every man for himself." But it is. It is. "Me first," is The American Way, & for that we shall fall, like Rome. Similar behavior in similar circumstances tends to produce similar results.

I guess you did not receive my previous letter dated 9 JAN 08, so your zoggies may be stealing my letters, as you suspect. If you do receive this letter & that of 9 JAN 08 which is reproduced on the back, please let me know.

The Internet & jewsmedia have reported crises of political, demographic & economic nature, but the major crises emanate from Washington, District of Corruption, under the ZOG's Bush regime. Bush is an avowed Israel-firster, & also an Armageddonist, who allegedly longs for "the end of the world," so if he can provoke World War III, he figures he'll leave a historical 'legacy,' of hell. Such a deal! Under existing emergency laws, he can declare a state of emergency & cancel the forthcoming presidential election, like a typical banana republican dictator. Some correspondents think that we shall have another "Pearl Harbor" alias 9-11 incident to trigger the proclamation of emergency executive powers, but such a proclamation may be a "pre-emptive" state of emergency to "prevent" a 9-11 type incident. Again, we see the old Roman formula: Terrorism on behalf of tyranny.

Strength through Joy! ORION!
