

26 FEB 08

Hail Jason! Thanks for your 2 letters of 2 & 7 FEB 08. I^{am} glad you got Holly's letter back from me, & I hope she finally receives it from you. One low-tech, but effective way to avoid mix ups is to write one letter & put it into its very own envelope. The way to have mix ups is to write several letters & address several envelopes, so the wrong letters can get into the wrong envelopes. I worked in an office where that happened. Fortunately, it was only embarrassing, not expensive, as it could have been. The boss must have been a Creator, for those are the only people I know who mix up their mail. Ha!

I have no problem writing to Guru Wilcox, unless he attempts to pay his own postage, which seems entirely beyond his intelligence. On his last letter, he put a \$1 stamp. The postal clerk was very happy that he paid \$1 for a 1 ounce letter. I said Wilcox was in love with the U.S. Postal Service, so he gave you a tip. Ha! The clerk just shook her head as she does whenever she encounters a nutcase. Wilcox assures me that he throws my stuff away, as being 'unkosher.' That's why I don't bother sending him anything more than 1 oz.

It's great that you have relatives to help you on the outside. That's when you need them. ZOG never imprisoned me, but kicked me out of the USA. Other zoggies kicked me out of 4 other countries, so I was very much on my own, & I had only the clothes I could carry with me, but I wouldn't care to trade places with anybody, after all my good luck.

Thanks for the kosher girly mag. I've seen plenty of them over the decades. We used to call them "pin up girls," for that's what men did with their favorite female model photos. Nowadays, I see "pin up boys" included with the girl models. I wonder what that means in regard to the magazine viewers. I guess the jew publishers want to attract a larger market. Instead of attracting heterosexual males who want female models, they now may attract heterosexual females as well as fags & lesbos. Such a deal: Something for everybody!

What Whites need to concentrate their energies on is: (1) The elimination of "White Guilt" conveyed by the jewsmedia & the churches, & (2) White Nation-Building.

So far, Whites fall for Hebrewood's image of pro-White Whites as 'losers.' Two radio rabbis even mentioned that Hebrewood has succeeded in passing off losers as National Socialist 'leaders,' so Gentiles figure if they are losers & misfits they must have the qualifications to become "Führers." Skinheads are depicted as drunks & druggies, so they often fall for the image purveyed by Zionist propaganda. Drunks & druggies cannot make good warriors. The Toronto skinheads I knew could not even show up for a meeting at the right time & place, nor could many show up in any shape to participate. Such a deal!

Of course, ^{be} not everyone has the potential for leadership, & it is true that no effective group can all be captains & no crew, or as we say in Mestizo America, "All chiefs & no Indians." The important thing is to steer the groupies into pro-White ways, rather than degenerate consumerism. People generally want to be with people who have things in common, but our leaders must make sure that what we have in common is not harmful to ourselves & to our race. I've known many drunks & stumble-bums, since I've been broke & jobless in many places. If I were a groupie, I might adopt the garb & gait of alcoholic street bums. There are lots of them here in Brownest Yakima, but I cannot afford the booze necessary to become a real alcoholic, so I'd just have to copy their speech, smell & behavior. If I were 'successful,' I might even be arrested as "drunk & disorderly," so I could enjoy some jail food & lodging. Why would I want to look like a loser? You'd be right to ask, just as I ask why anyone wants to look like a prison-preppie & behave like one. You have lots of work ahead to clean up certain groups' image, which is part of their 'job-description,' according to Hebrewood & society. Good luck!

But most of all, you need to find a job which will allow you to exist in this period of economic "stagflation," with fewer jobs, lower wages & much higher costs of living. ZOG claims that "inflation is low, except for food & fuel." So, as long as we don't worry about food & fuel costs, we'll be just fine.

It will be interesting how Karl Hand fares at the Statue of Liberty Dump Israel rally on Jewlie 4th. I hope ZOG does not deem his demo to be an act of "terrorism," which can be construed as anything ZOG hates.

Here's wishing you Strength through Joy. ORION!

Eric
