

28 FEB 08

Hail Joseph! Thanks for writing your gulag mail seizure status on your envelope. Otherwise, I'd figure I'd just be sending my letter to ZOG thieves who are entitled to steal First Class Mail, for "might makes right & political power comes from the barrel of a gun," to quote Teddy Roosevelt & Mao Tse Tung. The censorship policies prove, in practice, that we live in a hypocrisy, not a democracy after all, for in theory, imprisoned U.S. citizens are still citizens & the First Amendment still applies, to the extent that one does not plot criminal activities in his correspondence. Under ZOG, however, pro-White statements are being deemed "hate," & the Anti-Defamation League of B'nai B'rith is pushing to federalize its Canadian style "hate laws," in which "hate" is anything Zionists hate. Been there. Experienced that. I include copies of my most recent letters to you in the hope that you can read what I wrote, rather than what your zoggie may claim I wrote. It seems grotesque to attempt correspondence when one has a ZOG censor & disinformers sitting on his shoulders. Anyone who seeks knowledge & a free exchange of ideas should avoid such a situation, at all costs, as I have attempted to do all my life.

Loyalty to our principles & our values imposes hard choices on us, as you say, in regard to your wigger sister. I recall Black Panther Eldridge Cleaver proclaiming that "White Guilt & Black Rage make great sex!" That's it, folks. So who is promoting White Guilt & Black Rage? Guess. Our war begins very early in our lives. Christianity is our enemies' usual means of imposing "guilt," for Christians are indoctrinated to believe that they are "born in sin", that they are "sheep in need of a shepherd," & that they should "believe as little children." Those who imposed this cult upon us believe the contrary: They proclaim their people to be God & they are his agents, so they are not "sinners" but soldiers of their people/god. At puberty, their children are declared to be "men" & "women," not herd animals or children. In short, our people are being taught to lose. To this initial disinformation is added false history in our schools toward the increase of White Guilt & Black Rage. Naturally, many of our folk fall in this unequal battle, in which they are not even offering resistance. Then, our ZOG combines drugs & alien culture to befuddle our ability to think & comprehend our victimization by such warfare, of which we are unconscious. Our parents unwittingly play the role of Judas Goat, which leads animals to be slaughtered. That has been my experience in this Land of ZOG. We are taught to "forgive" & those who indoctrinate us proclaim their credo: "Never forgive! Never forget!" I've heard them chant it in their anti-White demonstrations.

Where is the best place to appeal to our people? Logically, it would seem to be where most of them are: In major population centers, in which they experience firsthand the anti-White nature of our Zionist society. One writer noted that "Whites' love for non-Whites is usually proportional to distance: 'The greater the distance, the more the love.' This explains the Christians' success in scamming Whites for 'aid to Africa.' Hence, smalltown Whites are usually ignorant of demographic realities, so they are influenced by the ZOG agents in place: The churches & Freemasons. These agents & adherents will put up opposition to pro-White messages in small towns. Of course, small towns I've lived in were often populated by mestizos, not Whites, so our message falls on wooden ears & reptilian eyes. Brownest Yakima is a waste of leaflets in my experience, for it is populated by non-Whites & anti-White Whites. As I say, your best bet is the Internet in terms of efficiency & economy. I shall send copies of this letter to my correspondents in regard to the publication of your artwork & writings in the meantime. Your website can also serve as your call center. Why print & distribute thousands of leaflets, as I've done, merely to find zero White inquiries & one Jew? The Internet can do this job better, cheaper & faster. It also attracts young people, which is our key to survival.

Our job is salesmanship. If I were selling a vacuum cleaner, my approach to the prospective buyer is presented in terms of his own interest: How will the item benefit him? My propaganda is also presented in terms of cost/benefit to the receiver: What is ZOG's policy? How does it benefit or harm the receiver? I don't attempt to 'sell' my point of view with blightwing-type messages of "me-me-me" & "gimme, gimme, gimme," for my ideal of a leader is one who teaches, so his followers can say, "See, we did it ourselves!" Good teachers are also good students who benefit by learning from others.

As I see it, our job is to plan for Eternity & work as if there's no tomorrow, so keep up the good work & turn your stumbling blocks into steppingstones. ORION!
