

Israeli Professor Says 'We Could Destroy All European Capitals'

Jerusalem: February 1, 2003
(IAP News)

An Israeli professor and military historian hinted that Israel could avenge the holocaust by annihilating millions of Germans and other Europeans.

Speaking during an interview which was published in Jerusalem Friday, Professor Martin Van Creveld said Israel had the capability of hitting most European capitals with nuclear weapons.

"We possess several hundred atomic warheads and rockets and can launch them at targets in all directions, perhaps even at Rome. Most European capitals are targets of our air force."

Creveld, a professor of military history at the Hebrew University in Jerusalem, pointed out that "collective deportation" was Israel's only meaningful strategy towards the Palestinian people.

"The Palestinians should all be deported. The people who strive for this (the Israeli government) are waiting only for the right man and the right time. Two years ago, only seven

or eight percent of Israelis were of the opinion that this would be the best solution, two months ago it was 33 percent, and now, according to a Gallup poll, the figure is 44 percent."

Creveld said he was sure that Israeli Prime Minister Ariel Sharon wanted to deport the Palestinians.

"I think it's quite possible that he wants to do that. He wants to escalate the conflict. He knows that nothing else we do will succeed."

Asked if he was worried about Israel becoming a rouge state if it carried out a genocidal deportation against Palestinians, Creveld quoted former Israeli Defense Minister Moshe Dayan who said "Israel must be like a mad dog, too dangerous to bother."

Creveld argued that Israel wouldn't care much about becoming a rogue state.

"Our armed forces are not the thirtieth strongest in the world, but rather the second or third. We have the capability to take the world down with us. And I can assure you that this will happen before Israel goes under."

Hail Gregory! Many thanks for your inspiring letter of 24 FEB 08. Thanks for your interest in the survival of Our People. As you requested, I enclose a copy of The Cabalistic Curse of Christianity, which explains some of the mechanisms of our Zionist exploitation.

As you say, any place can serve as a school setting for our self-education, for we are all self-educated, as one of my professors told our freshman class in college. Education requires that we keep our eyes & ears open & our brains in gear. One song I heard back in the 1970s described the life of a Rolling Stones type who couldn't recall his own life, because he "was stoned at the time." Is a life without memory a life at all? I think not. U.S. writer Henry David Thoreau wrote that "the unexamined life is not worth living." Our best way of educating ourselves is by our own experience, so how can one learn anything without a memory?

I guess your current residence provides you with the same lesson, over & over, but you also have the opportunity of increasing your knowledge by means of the written word, ZOG willing. I shall hasten to send you this note & other items of interest. As they say in Mexifornia: "Victorville or Vegas!" Strength through Joy. ORION! 

THE VAMPIRE ECONOMY: THE JEW WORLD ORDER'S 'GLOBALIZATION' RACKET by E. Thomson

Newhall, California, is a long way from Transylvania, but at least one member of the vampire tribe passed through the small town when I was a school kid. Little did I know that I was witness to economic vampirism on a small scale. A wandering jew came to town and took over the town's waterwell drilling company with a leveraged purchase of controlling interest. This takeover meant acquiring 51% of the company's shares on borrowed money. The jew grabbed the liquid assets and sold the company's real estate and equipment, then departed, leaving the town without an essential service. Had 'privatization' been in effect, he could have done the same to the fire department!

Bigger vampires like Milken, Boesky and Soros used similar methods to loot pension funds and destroy jobs, whenever they sank their fangs into a company. Their appetites were such that they adversely affected national economies. Soros is blamed for precipitating the Asian economic crisis by his gigantic transfer of wealth, some of which fell into the hands of his sheenie bandit tribe in Russia, alias, "the Russian (sic) Mafia".

The massive diversion of money from the productive sectors of the economy, into the speculative, parasitic sector, alias the stock market is reflected in the rise of share prices and the concurrent rise in unemployment. In short, what's good for the jews is bad for the Goyim. We should be neither surprised nor ignorant of this constant fact of life.

"Free trade" is a much touted mantra of the Jew World Order. In Argentina, such free trade policies led to the demise of domestic manufacturing. Some factories were converted into shopping malls. Productive jobs in the primary and secondary economic sectors diminished. Store clerks did not earn as much as factory workers and Argentina began to use the equivalent of IOUs to acquire foreign goods for its largely mercantile, consumer economy. No country can live off the tertiary or service sector alone, as U.S. bipeds will soon discover. Argentines are suffering the dire consequences of abandoning a diversified economy, which can manufacture its necessities and exports from its own raw materials. The first two sectors of a country's economy are the locomotives which pull the third or service sector along. Without one or both of them, the service sector coasts to a halt. The U.S.A. is going the way of Argentina.

Leveraged buyouts, mergers and takeovers of essential and productive enterprises usually result in the reduction of jobs and output, on behalf of boosting share prices in the short run, through the sale of 'surplus' assets and the 'savings' from reduced salaries. It is the economic equivalent of arson-for-profit, the profit of a few vampires and the loss to the productive many. The victims are the former employees and the public at large.

Deregulation is deemed magical, for like magic, the barriers are torn down so the vampires can swarm in, to perpetrate the very abuses which brought about regulation in the first place! If the parasites have their way, there will be nothing left to regulate.

Privatization allows the vampires to deal with former government agencies as they deal with their non-government victims, with the additional benefit that government becomes their servant, as they bleed the country's economy dry.

Globalization is vampirism on a global scale. Its major characteristics are the export of jobs and the importation of the jobless from other countries. This policy is imposed by World ZOG's guns and usury, with increased oppression for all us non-vampires. Our lives depend on the speedy demise of the ZOG, so let's get those wooden stakes good and sharp. ORION!
