

18 MAR 08

Hail Tom! Many thanks for your letter of 13 MAR 08, on which it was posted. Thanks for the \$15. I have arranged your pages in order so as to keep my reply straight, & I first want to address the David Irving matter you mentioned in your P.S. As far as I know, Irving is a Jew, which may account for his waffling on the "gas chamber" lie. In some versions, Jews were "gassed." In others not. He did the same with the bogus "Hitler Diaries." I think he finally agreed that they were, indeed, bogus, after the truth came out. I wonder what relation, if any, Irving had to Clifford Irving who was convicted of forging the "Howard Hughes Diary." My question is: Does David Irving seek to promote Truth or just David Irving? I suspect the latter. His last claim, that I heard, was that Hitler had no part in "The Holocaust." "Himmler did, however." Sure, & the moon is made of green cheese. The British knew there were no lethal gas chambers for people in August 1943, according to their Foreign Office memos which I have copies of. The alleged Polish "death camps" were evacuated in 1944, so that gives Himmler et al. damned little time to "gas" & cremate at least "11 million people," including "6 million Jews." The Holocaust is important, as I said, because it is used to instill "White Guilt," worldwide. You will surely hear on the Jew media that pro-Irish-Irish who want an Irish Ireland are "Nazis," & "We all know what they did to '6 million' Jews." We have heard that kosher crap for decades in the USA, which allegedly fought the Nazis. I heard one Jew denouncing the Jew Roosevelt government as "being worse than Hitler!" I could only believe he'd said it, because I attended the meeting. Do a Jew a favor & he will 'thank you' with the word: "sucker!"

Ireland is firmly under the rule of the Jew banksters, ever since the British invasion & occupation, as proven by the Zionist policies being implemented in present day Ireland. "By their fruits ye shall know them," as the Jew book says. As I say, Ireland's future is quite clear in Western Europe, Australia, Canada, Britain & New Zealand. Sheeple tend to think in the immediate, only. If I see no Nigger in my neighborhood, I can believe that there are none in Ireland. Your Zionist rulers were clever in first invading Ireland with ostensibly White aliens. That cultural attack made it much easier to let in the darker aliens.

As an aside: I take it Ireland still drives on the left, as in Britain, Japan & Africa. I'm surprised that the European Union did not standardise the driving rules. I was in Sweden shortly after their change to righthand road traffic, which allegedly caused one death by a Swede who looked the 'wrong' way for oncoming traffic. That change gave their Zionist bankster government the excuse to discard all their streetcars in favor of oil-burning buses. Maybe some Goyim with memories will regret that change.

The latest Yakima Harlot-Repulsive recommends "Irish Chinese" cookery for "health." I predict that you will soon see many more Chinese in Ireland, since they have lots of bankster bucks with which to bribe their way in. "No problem," as they say. Former White living space is up for sale, cheap. Canada makes much of The Year of the Rat, with huge postage stamps in commemoration of the event. So now we have several New Year's celebrations: Greek Orthodox, Catholic, Moslem, Jewish, Hindu, Buddhist & even Bahai. Diversity is here, & it resembles The Tower of Babel Fable, as no surprise. Well, have some saki (Japanese rice wine) & drown your sorrows.

You are experiencing how people become racists: The imposition of the alien in looks & behavior, plus his occupation of your former living space & society. All races & nations react the same: Blacks saw White imperialism as an alien imposition, which it was. Chinese resented the White presence in China. Amerasian mestizos alias "Indians," express their resentment of "the Crazy White Man & his evil ways." I can appreciate their viewpoint, for the White invaders were not superior in morality, culture, religion, &c., but only in technology. We were just savages with superior weapons & transportation. The "Indians" are dependents upon our Zionist bankster empire, & they are victims of miscegenation, as are many, if not most ostensible Whites on this continent. "America" is Eurasia under Jew rule. The Blacks seem to suspect what is in store for them, now that they are being displaced by the invading hispano-mestizos. The White Minority are targets for robbery, rape & murder, just as they are now in South Africa. The same fate can befall the Irish in a much shorter time, for the White Man's aircraft permit much faster invasions. I would not recommend an alien land from which you could be deported, which would apply to such darkening lands as Australia & New Zealand. Canada is now called "China-duh," in view of its massive Chinese influx, & Washington State's central areas resemble Mexico, as do the central portions of Oregon, California & the southwestern USA. The ability to speak Spanish is an asset.

No wonder The North American Union is in the works. The jew-banksters see this political entity as the equivalent of The European Union, toward the building of The Jew World Ordure: The Empire of ZOG. The Dollar Crisis would be a likely prelude to the formation of The North American Union, since its currency will be "the amero." The economic & demographic foundations are already in place, so there remains only the political confirmation of ZOG's intentions. You may remember how Germany became a country in 1870: This was the formal declaration of political unification AFTER its economic (customs) union. The Franco-Prussian War was the 'crisis' which created Germany, so another crisis could goad the Goyim into acceptance of The North American Union. There are so many possibilities: Another 9-11 attack on the USA by the USA/Mossad; war with Iran & World War III, plus a worsening economic crisis.

As you have noted, the USA's version of 'politics' is just an extension of Hebrewood show-biz. Candidates act 'sincere,' like the actor Ronald Reagan, who had lots of practice. The money required to run for office puts every candidate into the pockets of the rich, which is why we have the best government money can buy."

Obama (Black Irish name?) is of a Kenyan father & ostensibly White, possibly Jewish mother, born in Hawaii, if I recall correctly. He is deemed "Black," but he could be deemed "White" for equally invalid reasons. As you say, he has youth & charisma in today's White Guilt society. Over the decades, my view of USA politics is that we have various politicians, but only one policy, selected by our bankster rulers. Consider our "peace candidates," such as Woodrow Wilson, FDR, Lyndon Johnson, &c. When we voted for peace, we got war. Later investigation reveals just how those "peace candidates" were plotting for war all along. The Goyim vote for the candidate they want, but they get the policy the banksters want. In my opinion, our Zionist Occupation Government (ZOG) wants war. McCain, The Manchurian Candidate, wants war on behalf of Israel, as does Hillary Clinton. Thus it looks as if we'll have the war the Zionist banksters want, regardless of who gets elected. Bush can get us into World War III any time before the election, so I have the uneasy sense that we live in a prewar era which may become even more serious, within a short time. The Protestants largely back war, on behalf of Israel & the alleged "Second Coming (actually the third)" of Jesus ben Yahweh. As one writer noted: "The USA is an open-air insane asylum run by the inmates." History has proved that fact beyond a doubt.

The KKK was the bastard terrorist offspring of the Judeo-Freemasons. They are "White Supremacist," but not pro-White, for they exist only to "keep the nigger in his place." They are Protestants of the neo-jew variety which worship Israel, so they back the USA ZOG's imperial wars in The Middle East, & a World War III. White Nationalists are not "White Supremacists," although the jewsmedia refuse to use that term. The jewsmedia stick their "White Supremacist" label on all Whites who are Nationalists. Watch for jewsmedia use of that smear on Irish Nationalists who want an Irish Ireland.

As you note, & you are by no means alone in thinking that Obama may be assassinated, I think that ZOG will make the most of it, since ZOG will be responsible for it, as it was for the Kennedy assassinations et al. My guess is that an Obama assassination might be blamed on "Al Qaida," or the Iranians, possibly in connection with a 9-11 incident, for I do not see it in ZOG's benefit to create more divisions in the USA than already exist. If ZOG wants war in The Middle East, it does not want civil war in the USA, in my way of thinking. But I'm just a Goy, so I may not see what ZOG sees in its benefit. Other writers see that ZOG is about to 'pull the plug' on the USA, on behalf of its Jew World Ordure. All minions of the jews are expendable, so our time may be nigh, to be flushed down the Toilet of History. Stay tuned!

Of course, an Obama assassination could be used to suppress all pro-White people & activities, including what remains of our freedom of expression & inquiry. ZOG has declared a war of genocide on Whites, so that would be no surprise. My only question is what ZOG wants first: its anti-Moslem war, or the death of the White Race. Perhaps both may be combined, as long as ZOG cons Whites to fight in Moslem countries, while bringing in more Moslems into our former countries. It seems that Whites are their own worst enemies, for ZOG uses our strength & ignorance to defeat us. In "MacBeth," the 3 witches predict that the woods will come to the castle. Nowadays they could predict that China will come to Ireland & vice versa. Our jewsmedia promote "Afro-Celtic" music, so why not "Sino-Celtic" culture? How 'clever' to dub non-Irish as "New Irish." That's known as 'jew-jitsu' with language.

Obviously, you are not used to life under ZOG as I am, with non-Whites in the government offices, businesses & medical services. This is empire, for which my life overseas has been good preparation. I can speak to my Mexican bank teller in Spanish, if he prefers, just as I do to members of the local police who are also Mexican. Where are MY people? I don't know, but I don't believe they were ever in America. I am basically a castaway, deemed a 'foreigner' in the land of my birth by the brown invaders. As a U.S. citizen, I have duties. As aliens, the non-Whites have RIGHTS, for which the citizens must pay. We thus live under a subsidized alien occupation. I'm sure Irish Whites will have to 'apologise' to the Black invaders for failing to make Ireland more congenial to their African tastes. White Guilt knows no limits.

The USA has always been an anti-White empire, so it is logical that we've had jew Presidents; why not a Black one? I have no qualms, since our previous anti-White policies have been implemented by Ostensible Whites in political office. After all, Abraham Lincoln presided at the genocidal killing of Whites in the Civil War, more than died in all subsequent wars in which the USA fought. If your enemies can get you to plead: "Excuse me for living," then they have won. The Catholic Church was never pro-White, so it's time it dropped its papal white mask & revealed its true nature. Christinsanity is the original source of White Guilt. Just contrast the tenets of Judaism with the Original Sin of Christianity, & we can understand how jews created this slave religion for Goyim.

As you say, it is indeed 'romantic' that swans regularly knock out your electricity. Our local power outages are usually caused by Mexican drivers who crash into light poles with transformers, &/or larger electrical transmission facilities. In states with untamed weather, such as blizzards, tornadoes & hurricanes, power outages are usual & cover large areas. Man-caused power outages also occur, as did a recent one in Florida, due to a mysterious substation fire. The infrastructure of the USA is overloaded & much in need of repair, so bridge-collapses & power outages are going to become more frequent & worse. Of course, we can all blame "Whitey," as they do when the lights go out in South Africa. As you wrote, you'd probably be wise to arrange an alternative light & cooking source in the likely event that your electricity will fail, on a 'when', not 'if' basis. I keep my candle & matches where I can find them with my eyes closed. As a city-dweller, I can rely upon a streetlamp or two for light any time of night, but I've also experienced that source of light to fail, so I do not take it for granted.

I'm flattered that you found some of my letters & articles of use. If you wish to distribute them anonymously, please do so. Re the lack of space for punching holes:

There are many types of stationery items which can store looseleaf items, so you may find some such available in your area.

B.W. seems to have sabotaged his ability to receive "snail-mail," as he calls it. I guess he deems speed of delivery superior to content. I cannot be sure if he receives my letters at his schizo-comrade's address, so I just send him the minimum, but I receive no acknowledgement of receipt. He receives lots of nasty E-mails from detractors, so I guess they keep him entertained.

I understand your misgivings toward "reincarnation," but most people believe in it, even some jews. I have no expertise in the reality thereof, but Carl Jung posited a form of reincarnation in Racial Memory. The "woman" with whom I used military terminology is not a woman, but the name was changed to protect his identity. The idea of fighting for our survival is now condemned by ZOG, so I merely point out what needs to be done, & then let the reader draw his own conclusions & take action which he deems practical & necessary. Covington is an agent-provocateur whose words violate current ZOG laws against "terrorism." I've warned B.W. to shun him, for ZOG pounces on E-mail, as it does on 'snail-mail.' If he refuses to learn from my unfortunate experience with Covington, then he is welcome to learn from his own experience. In my American experience, only fools & liars talk about shooting their perceived enemies. Real men do not talk. They shoot, but when is action prudent & desirable? As I wrote to one fool, action without thought usually plays into ZOG's hands, as in judo, in which the opponent's strength is used against him.

AZA is an alliance of anti-Zionists, not pro-Whites. Consider that we have the same enemy, but not the same friends. That's as far as it goes. You will have to use Polish allies in your fight against the non-White invaders, as I can foresee. That's why I formed AZA at the outset, for I will have no non-White "White Nationalists." AZA works best at a

distance, for we co-ordinate information & support anti-Zionist activities. Our fight must be worldwide, like the Zionists we oppose. Yes, it is also said of the hypocrite that he forgets where he hides the truth & so falls for his own lies. Right now, so-called Whites in North America include non-Whites for the reasons you mention: If they tout our beliefs, they must be "White." I'm familiar with the type. I shall forward your suggestion for an "Irish Survival Handbook" to an Irish correspondent who lives in Quincy, Massachusetts, a formerly Irish area now teeming with Asians.

As you say, the jews of Ireland are not out in the open, so the dumb Irish can't see whom they serve, just as White South Africans refused to see the jew in charge of their former country. The jews control the Freemasons for the Protestants & the Jesuits for the Catholics, so they are the jews' frontmen or shabez Goyim. The pro-Irish Irish must learn about the banking system, which is Rotschild through & through. If such research does not reveal the role of the jew in Ireland, then I recommend they see an eye doctor. No, I do not recommend that we invade Israel, but that we keep the Israelis & their influence out of our societies, but this cannot be achieved piecemeal, in one country. It must be achieved globally, that is, racially. In regard to Ireland's visible alien invasion, it is indeed lack of balls, as well as lack of brains on the part of the Irish victims. Who tells Irish to accept the aliens as "New Irish?" If you know them, then you know the Irish people's foremost enemies. The USA has ALWAYS been alien turf to me, so I can care less what face is leading it to destruction on behalf of the jews, who've ruled this land of ZOG since the 1700s. As you say, it would be appropriate to fight, but for whom? My people, such as they are, sleep on in their jew-daze. Politics, people-power, is the art of the possible, so I can only do the possible, with the means at my disposal. What would you do?

It seems obvious that I must return to the obvious, to refresh your memory. All human activity takes 5 Steps. (1) The Idea; (2) The Information; (3) The Organization; (4) The Action, & (5) The Realization of the Idea. Leafletting is an informational activity, but whom are you leafletting? Here, you'd be leafletting non-Whites & anti-Whites. I know the people in this area, so I'd be wasting paper. My information goes out to people who will accept it or consider it, even if they are in Ireland. My Idea is White Nationalism. So far I'm on Step 2, in regard to informing others about it. Leafletting in Irish parts of Ireland is appropriate, but it would not be appropriate in Nigeria or Hong Kong, nor Mexico. If I live in a place with majority non-Whites, why would I waste time, effort & money to leaflet them? All actions, even leafletting, have their time & place, but we must know when neither time nor place is appropriate. Just because something CAN be done is no argument that it SHOULD be done.

As I understand, drugs are a major problem in Ireland, along with alien invasion. The drug-dealers are enemies of the Irish, so they must be fought. I recommend the film, "The Battle of Algiers," which illustrates the role of drug-dealers in the imperialist nexus. Drugs are a major & growing problem in Judeo-America, as my prison correspondence reveals. As I say, White Nationalism will likely supersede Irish Nationalism, since the Irish are losing their country geographically & genetically. That is why I do not promote "Anglo-Nationalism", if I qualified as an "Anglo," with my Scottish-Norwegian background from the Orkneys & Hebrides. At least 1/3 of Ostensible Whites in North America are of German origin, so there is no point in appealing to Anglos, nor merely to Germans in Mestizo America. In Judeo-America wealth is the major distinction, not so much family background. There are also many Irish here, but I'm not Irish, so I appeal to Whites.

Please do not confuse my material status with my anguish over the fate of My People. Now that I'm freed from abject shekel-grubbing for my grub, I can concern myself with the most important issue: the survival of the White Race. No, I am not a contented, happy man. I am a man concerned for my White People.

You can belittle the jews, as you say, for you don't see them. But where does your money come from? As Meyer Amschel Rothschild declared: "Give me the power to issue money, & I care not who makes the laws." History proves him to be absolutely right. When jews create a people's money, then that people is not sovereign, & thus not free. The ancient Spartans knew that. Yes, the divided & dispossessed Palestinians can stand up to the jews, but we can't, for the idea hasn't occurred to us. The Moslems are striving to resist the jews' usury money power, just as John F. Kennedy tried when he was in office. He & Lincoln offended the jews by their interest-free money, so you are overlooking the proverbial elephant in the telephone booth by ignoring the jewish role in your money.

5)

It was you who supplied me with the most informative flier from TESCO, the jew market chain, which backs the alien influx. Yet, you say that the jews cannot be seen as responsible for this alien influx. The aliens are symptoms of the disease, but the jews are the cause, so how do you defeat the one without the other? B.W. is correct in seeing the enemies of Ireland as one, in several manifestations, just as the jew Mafia is responsible for more than one type of crime. You can inveigh against drugs, theft, racketeering, &c., but if you omit the Mafia, you are jousting with phantoms.

We Goyim are told (falsely) that there is nothing serious intended by masonic oaths, nor by the ritual murders of The Babylonian Talmud, so how do we account for bodies drained of blood; Gentile bodies? How would you account for Vatican Bank's Roberto Calvi whose body was hanged from Blackfriars' Bridge in London? Someone takes these oaths & rites seriously. The Amish are a farming community who are taxed & tolerated by ZOG, so far. The Mormons are a wealthy race-mixing religious group which are politically powerful in the state of Utah, & they favor the Zionist war in The Middle East.

Covington advocates violent secession from the USA. This is illegal. One cannot do so without ZOG approval, which makes him a ZOG agent. Those who receive communications from him & do not denounce him to the ZOG are 'guilty' by omission, as in the case of The Liberty City 7 of Florida. I do know U.S. laws & I also know what FEDZOGUSA does in practice. Your silly comments that I should advocate illegal violence is just that: silly, for you do not know the price of such statements. I do. So far, I've been lucky, & I shall not permit Covington to spoil my luck.

No, I do not joke about Black deportation. Why would you think so?

You fail to understand the difference between Nation & Native. Rudolf Hess was a native of Egypt, but his Nation was German, since his parents were German. Nation is race; nativity is place. Nation goes with its people. Place does not move. Native does not mean Nation. Got that? The 'flaw' is not in my argument, but in your false definitions.

Whites have had their nationstates in the past, so the loss of Ireland to the Irish is one more tragedy, but as long as our gene pool & our national consciousness survive, we shall also survive, to take a land of our own. I understand that Covington lived in Ireland, but he couldn't stand the "black beer," as he called it. That must have been a real holocaust for him. But Covington is only about Covington, whatever that may mean in any given moment. Aside from that, why did he not stay in Ireland? You raise a valid point. Maybe you could ask him. I understand he also impregnated an Irish woman, with whom he left a brat. I guess that's one more 'mystery.' With a 'leader' like Covington, you never need a nigger.

The people in disarray who are most vulnerable to enemy attack are Whites, no one else. Sun Tzu defines war as the displacement of one people by another. If this goal can be attained by means other than marching soldiers, then war may be waged by other means, as it is in Ireland & other former White living space. Yes, Whites must fight, but fight involves struggle, & we must fight on all fronts: racial, cultural & economic. What's ailing you?

Basically, your problem is not your interpretations of E.T., but your obvious failure to address Irish problems as an Irishman in Ireland. You have all you need to solve your problems, with your own people. There is no need for you to quibble with my alleged inconsistencies, since you & your people obviously have so many inconsistencies of your own. Honestly, I find the Chinese no more inscrutable than I find the Irish. The Chinese want more land for their people, & the Irish want to give their land away to all comers. To me, that behavior is quite inscrutable. No, Chechens are not White, so they are not White Nationalist. Well, try to stay out of trouble. All the best to you & the Irish. ORION!
