White Nationalist Greetings, Mr. White! Many thanks indeed for your package of National Socialist magazines. They covered lots of ground, which filled in many gaps of the past & up-dated my current information on the "movement" alias "the blightwing," as it is affectionately known. You have brought forth new points, such as the jews' possible abandonment of the USA for China. As you likely know, the kosher connection with China is ancient. The Soong bankster family are Chinese jews who funded Sun Yat Sen, Chiang Kai Shek & Mao Tse Tung. No doubt they & their heirs still control China. A Japanese officer from World War II told me that "Japanese are White men of Asia. Chinese are jews of Asia." I can certainly agree to the latter statement.

Jared Taylor is married to a jewess, as I understand, so he is a promoter of "jews as Whites." Thanks for the revealing photo of him with Marcus Epstein.

My Gestalt of "the movement" is of an army marching on quicksand. The creeps, kooks, crooks & ZOG-agents are rampant & largely serve the purpose of discrediting White Nationalism in the eyes of Whites. Many self-styled 'leaders' have betrayed themselves & their touted cause with their own foibles & follies, such as Zündel's jewish dominatrix, "Anne Burton." She was very much like the jewess "Ayn Rand," who was married to a Goy & slept with younger men. Her hangers on included Allen Greenspan & Nathan Blumenthal, as you likely know. "Mrs. Burton," which is not her jew maiden name, which we shall unlikely ever learn, ruled Zündel politically & sexually, which merely demonstrates the wise Chinese saying that "the wrong man with the right plan = Disaster. Zündel was obviously the wrong man to lead a pro-White movement. His latest jewish wife got all his swindled money. She goes under the name of "Ingrid Rimland," which I understand is a former husband's name. She has used various first names as well.

Perhaps I'm conservative, but I understood that a government security clearance was denied homosexuals, pedophiles, & perverts who could be blackmailed because of their proclivities & 'turned' to serve the enemy. Felonies & financial problems were also considered grounds for denial of a clearance, as well as associations in Racketeering Involved Criminal Organizations. Hence, Churchill, Roosevelt & Stalin would be disqualified from public office, had they been subjected to normal U.S. security clearance procedures. Churchill was a drunk & a debtor who was bribed to betray White people; FDR was a jew with Mafia connections who engaged in a stock market swindle out of Canada. Stalin was a convicted felon.

The writer, Toland, said that Hebrewood was largely responsible for creating "The Hollywood Nazi Image." This caricature depicted the NSDAP leadership as "misfits, dropouts, losers, crooks, crazies, scoundrels, perverts, &c." Toland objected that none of the NS leaders fit that image, for they were already 'somebodies' without the NSDAP. He said that "even when Hitler was a 'nobody', he was a 'somebody'."

I personally know Duke, Black, Mason, Brannen, Covington et al. I asked Mason how much the ADL paid him to advocate low crimes for others to commit & tout Charles Manson as "the reincarnation of Adolf Hitler." Mason just smirked. The NSM was another 'right' idea with the wrong men, as you thoroughly pointed out. Pierce was a strange critter, the only one, to my knowledge, who ever profited from the Judeo-American ZOG system, while purporting to advocate its destruction. A correspondent informed me that Pierce claimed to have "translated" the book I wrote, "The Hitler We Loved & Why." I wondered how Pierce could have 'translated' my original English into English. Ha! Well, such dishonesty is par for the blightwing, so Pierce qualified as a blightwinger, rather than a White Nationalist. I knew George Dietz of Liberty Bell & White Power Report, which I edited. I was a long-time colleague of Dr. Oliver & Col. Dall (FDR's son-in-law, whom I assisted in writing "Israel's \$5 Trillion Secret.") I knew Klassen well, who sought a tax-dodge church.

When I returned to North America from Africa, I realized the need for White Nationalism. I therefore thought that "The White Power Movement" would be a good idea for these times & places, rather than harking back to 1923 Germany & 1865 USA. To this effect I coined the term, "Our Race Is Our Nation," (ORION!) which others adopted. I also composed The White Power Manifesto & the White Power Hymn. I designed our emblem: a White, 5-pointed star on a blue background, with a red Swastika encircled in the center of the star. Our uniforms would be those of North American workers: blue jeans & workboots with white hard-hats or White cowboy hats with the emblem on the front. Blightwingers complained: "Gawd, it looks so American!" That was the idea. Hitler did not adopt KKK garb for his storm-troopers in Germany, either. No wonder the KKK were mainly anti-German in World War II! Because of this, Mason dubbed me a "filthy foreigner." Ha! All the best. ORION!
