Dear Phil: Many thanks for your letter of 3 APRIL 08 & the 3 1st Class stamps! I sure hope you are feeling better. "They" say that antibiotics are no help against viruses, including flu, but I recall my quick recovery from an almost lethal case of flu in 1944, when the U.S. Army released sulfa into the civilian population & our family doctor figured he'd try it out, since nothing could cure me. It certainly worked, even though I'm giving away my age, since sulfa came before penicillin! I was 4 or 5 years old.

I'm also wondering how Chapman will view the tax-payers' rescue of the subprime mortgage scamsters. Jewradio reported that 2 million Goyim will lose their homes to bankster foreclosure, while another 80,000 Goyim have lost their jobs, & inflation is only beginning. Jewbook readers should read the jews' myth of Exodus in which "the money fails," in Egypt just prior to the alleged sheenie-skedaddle.

One kike has voiced a negative opinion of Obama, who may not want to have World War III, as do Hillary & McCain. If Obama is honest, he may get the Kennedy Treatment. Why is he not running for president of Kenya, where he has a big following? Kenyan niggers think an Obama victory will mean goodies for Kenyans, including Obama's tribe. Latin American Catholics figured the election of JFK would mean goodies for them. Catholic Kennedy did lavish tax-payers' zogbucks in Latin America under his Alliance for Progress, I recall, & JFK half dollars were treated as religious medals.

Raul Castro is laboring under Marxist class economics, as was Fidel. The British Socialists, i.e. the Labour Party, was notoriously inefficient at running British 'nationalized' industries, since managerial skill is not the monopoly of any class. Hitler kept managers who were competent in place, so German industry did not suffer class-based inefficiency. The Soviet Jewnion suffered from their lack of "smooth-handed Goyim," whom they'd shot or driven out of Russia, so the USSR was mismanaged by kosher commissars who really wanted to kill Goyim & torture the rest. That's hardly the way to run an economy. No wonder the USA's banksters had to keep funding & feeding their Soviet monster, from 1917 until its collapse. Monsters are usually cripples, & the USSR was an economic basket case.

I do wonder at Raul's pending allocation of cellphones. Would they be able to access overseas calls? If it isn't a form of mind-control, it seems risky for Commie Cuba to allow international communication with the anti-Castro Cubans in Florida, for instance. Maybe the Castroites figure they can loosen things up the way Red China has, forgetting that Cuba is no industrial nor even an agricultural power, just an over-populated mongrelized island, with a 'friend' in Venezuela named Chavez, who does supply Cuba with oil, as I understand.

Yes, the spreading of DU in Iraq & probably Afghanistan is deadly to our ZOG-thugs, as well as the native people. It is also a war crime & a crime against humanity: a premeditated Chernobyl, as you say. Israel wanted Iraq destroyed, so that may explain our costly fumbling based on false premises & wishful-thinking, as well as rampant corruption, supported by the Goy tax-payers. I agree that this is the brief calm before one hell of a storm, brought to us by ZOG. This storm was planned, as an act of ZOG. Our banksters & petro-banksters are destroying the USA at a profit, so we are definitely going out of business, as you say.

Mugabe of Zimbabwe has a jew boss, Nicholas van Hoogstraten, who may wish to keep him in power, unless the jew can make a deal with Mugabe's ostensible opposition, to carry on business as usual. USA elections are no more honest than those of Zimbabwe. Such a deal! All the best for a full recovery. DOWZ! CRION!

2) P.S.: Some writers point out that we are now in the same situation as American colonists were just before we recognized the need for independence from England: Jew banksters are robbing us of our jobs & our property, just as they are robbing the value of our hard-earned money, but the Goyim do nothing. Why?

A local politician, a Goy, said that sheeple live according to their perceptions, which they largely obtain from the jewsmedia. They live in isolation from other Goyim, in their 'virtual worlds' of distraction, disinformation & selfish consumerism, like the cattle in feeding pens. As long as they can still buy beer & fuel for their vehicles, "life is good." Nothing else matters. When the day dawns upon which they can no longer obtain these 'essentials,' then they will most likely collapse in tantrums & despair. This will be the only response of which they will be capable on that day, since they won't understand WHY they are in that dire state, nor WHO put them there, aside from themselves. So this is the way their world will end, not with a bang, but a fart.

How did this state of unreality come about? I noticed during the hippie era, which was also the era of LSD & the CIA MK-Ultra program, that sheeple were taught only their perceptions mattered. The hallucinations from LSD were so powerful that they became 'real' to the LSD-consumers, as they have told me. In fact, the hallucinations were more vivid than an oncoming 18-wheeler. Yet, they were hallucinations, so consumers learned to 'switch channels,' by thinking or imagining a different illusion, which was equally vivid. Once LSD-consumers achieved control of their hallucinations, I noted that they also thought they could control reality with the same methods. This led to self-endangerment on the verge of suicide, for danger was no longer danger to them. I knew several "acid heads" who behaved this way, whom I'd known for years before they became acid heads. The change in their personalities & behavior was so dangerous, to me as well as to them, that I ended my years of friendship with them, simply for my own preservation. I wonder if any of them is still alive, but I would not like to renew acquaintanceships with them!

There is a strong tendency for those who believe that "to be is to be perceived" that all things occur within "the theater of their own minds," just like LSD hallucinations. If they don't wish to think about unpleasant things, they don't. I read recently about a woman who was rescued from a burning building. Fire had engulfed most of the structure, but since heat rises, & she lived on the ground floor, she did not feel the heat, nor did she smell enough smoke to alarm her. A delivery man risked his own life to break down her door. Even when he told the woman that her place was on fire, she was angry that he'd broken her door down. I don't know if the woman ever acknowledged that her building was indeed on fire. Maybe the arrival of the fire-trucks convinced her to get out, for the poor, brave delivery man had failed to motivate her out of the building! I'm sure some passengers on The Titanic berated those brave people who banged on the doors of their warm cabins with the urgent words that they should come up to the cold deck & get into a lifeboat. Such is the power of perception! Such is the stupidity of Goyim. It is said that rats leave a sinking ship, as jews leave a sinking country, so we should watch the jews to see if they depart for foreign lands, or if they remain to impose their North American Union on us, under their police state. Orwell wrote in "1984" that the "proles" were strong enough to overthrow Big Brother's dictatorship, but so far, they'd never thought of it. How similar those fictional characters are to our real Goyim in this Land of ZOG! Fiction sometimes describes truth in horrible ways. As we continue to behave like Goyim (soulless cattle) the Moment of Truth will arrive in which we must decide to choose a horrible end OR an endless horror. Such a deal!
