

12 APR 08

Hail Gregory! Many thanks for your thoughtful & thought-provoking letter of 9 APR 08 & for the John Doe article published in Playboy Magazine entitled "Hardcore!" That item was very informative in regard to the corruption & craziness of our ZOG, which is, after all, a criminal regime ruled by Zionist banksters. I doubt that the Mafia could do any worse if they took over the administration of this country's prisons. The denizens of this society are being used as dupes, slaves & guinea pigs, without their knowledge nor their consent, ZOG love 'em. I suppose I'm guilty of wishful-thinking, for the ZOG & the Mafia are one & the same.

Al Qaida (The Base) is an abbreviation of the CIA's Database in Afghanistan during USA's support of the anti-Soviet (our former allies of World War II) resistance. The Taliban (Moslem religious 'students') were organized by Pakistan Intelligence & were U.S. allies against the USSR occupation of Afghanistan until the U.S. flip-flop after the Soviets' departure. Then the U.S. allies became The Northern Alliance, the former allies of the USSR in Afghanistan, & our former Taliban allies became our enemies. My guess is that the USA wants Afghanistan's heroin & the Taliban did not. Osama bin Laden was & still is a CIA-Mossad asset who plays the essential role of our 'New Hitler,' who may 'live' forever, thanks to digital technology. In Orwell's novel, "1984," the dictatorship of Stalin-like Big Brother has his perpetual scapegoat, a Trotsky figure named "Goldstein," if I recall correctly. This 'villain' is blamed for everything which goes wrong & for every sacrifice the subjects of Big Brother are required to make, so he is as useful to Big Brother as Osama is to Bush & Company. When we ask "Cui bono?" (Who benefits?) from Osama, it is obvious that the Bush regime could not do without him, to remind the Goyim that we must sacrifice to fight "terrorism" in perpetuity, on behalf of Israel's perceived interests, never ours. Saddam of Iraq was the USA's hand-picked boy. He was chosen to play the 'Abe Lincoln of Iraq,' no matter how many Iraqis he had to kill in order to ^{keep} Iraq one country, under ZOG, as Lincoln did for our jew bankster rulers.

Saddam followed U.S. orders to the letter. We told him to attack Iran, so he did, & the Iranians were about to flatten Iraq in their massive counterattacks. Saddam asked for U.S. support, so we sent him chemical & biological weapons (of mass-destruction). The Iranian attackers were held back by massive Iraqi use of poison gas & artillery, similar to battles in World War I, which the USA supplied. U.S. Ambassador to Iraq, the former Canadian, April Glasby, was sent to let Saddam know he could invade Kuwait at his pleasure, so as to stop Kuwaiti theft of Iraqi oil by directional drilling. She gave Saddam the green light, & he fell for the trap by invading Kuwait, which he left, as soon as we told him to get out. We pulled the Soviet stunt of blasting Saddam's military units as they withdrew inside Iraqi territory. That was our First Gulf 'War'. Why would Zionist America attack their good buddy or flunky, Saddam? Because of Israel, which wanted Iraq bombed back to the Stone Age, to use a Vietnam War expression. In his book, "By Way of Deception," former Mossadnik Victor Ostrovsky ^{revealed} Israel's hitlist in The Middle East. Iraq was #1, followed by Iran & Syria, in no particular order. The 'securing' of Iraqi oil was merely a pretext for a war on behalf of Zionism alias jew supremacy, in which the usa (see how it has shrunk!) is gleefully & righteously destroying itself. This is why it is rumored that Israel's national anthem is "Onward Christian Soldiers!"

When I attended college in the 1950s I knew a Chinese who was studying virology, i.e. viruses. I also learned that nerve gas is an enzyme-inhibitor which jams signals in our nervous systems. Work was also being done to inhibit digestive enzymes selectively, according to race, so the enemy would die with full bellies. In a book entitled "Deadly Allies," Britain & the USA worked during World War II on chemical & biological warfare. The objective was to get deadly animal viruses to jump the species barrier, so as to become deadly to ^{humans}. The U.S. germ warfare lab at Fort Detrick, MD, was turned into an anthrax factory, ^{& was} where the AIDS virus was mutated from the previous ovine visna virus which was only deadly to cattle, sheep & horses. Three U.S. doctors claimed that AIDS was man-made: Doctors Strecker, Cantwell & Douglass. Strecker was murdered, but I've read Douglass & corresponded with Cantwell, who claims that AIDS was inoculated into the U.S. homosexual population by a jew in the New York Health Dept. named Szmunness. Aids was introduced to Africa by contaminated smallpox vaccine inoculated by The World Health Organization. Ebola is pretty much like AIDS with jet propulsion, for it kills quickly. As I understand, it is endemic to parts of Africa, but people die so fast that it is not epidemic, whereas AIDS is much slower & therefore deadlier, as its carriers live long

2)

enough to spread it. According to a jew Doctor Landau of the Centers for Disease Control, 1 out of 100 Whites is immune to the AIDS virus, which they can carry without symptoms. Blacks & portions thereof are particularly prone to AIDS infection, so I'd advise them to avoid any intimacies with Whites, or White Devils as Black activists usually call us.

The Chinese have always called other races "foreign devils" & "barbarians." They can be more specific in reference to Whites by calling us "Gai lok," or "Ghost people," because of our pale skins. I've also been called "a round-eyed foreign devil." Some of us are also dubbed "Round-eyed, long-nosed foreign devils," so Chinese racism is unashamed. Whites betray themselves by making our inventions available to everyone, including those who are out to get us, whereas the wise Chinese are jealous of their inventions & ways. Because of their numbers & racial continuity, Chinese civilization has survived intact, physically & culturally, quite unlike White civilizations throughout history, which come & go, like sand in the desert winds. Only recently, archeologists have discovered a White civilization in NW China, where there are thousands of well-preserved White mummies, with pale skins & often red hair. They have tartans similar to the Scots or Irish, as I understand. These members of a lost civilization are known as Tokharians, whose civilization ran from NW China down to Turkmenistan, where they made "Damascus steel," in ancient times. The Chinese have called them "The Teachers." An inventive people's inventions evolve. For example, if we were to trace the origins of steel, we'd first have to find early iron works, for iron preceded steel. If we were to find a 1940-style steelmill in, say, Argentina, but no ironworks, we'd be fair to say that steelmaking was not developed in Argentina. China's artifacts show no signs of evolution, so it is unlikely that the Chinese invented those things they have claimed to originate. Nor did they improve their use of such things as kites & gunpowder. Since Whites invented automobiles, it would be strange to see us driving around in Model Ts, so far into The Space Age. When inventions do not evolve, that indicates they did not originate with the people who use them. In my world travels I have noted that Whites invent & forget; Yellows copy & remember, & Blacks destroy, as we see in Black-misruled Africa.

Thanks for recommending the jew, Norman Mailer's "Immodest Proposals," which I've not read. I'll be on the lookout for that title. If it's brief, I'd appreciate your sending it to me, just as I appreciate your Playboy article on the atrocious Texas prison system, which I'd have missed otherwise. I do listen to the 'news' every day, but reports of the patriotic girl who was attacked & threatened by the hispano-mestizos was not mentioned. Racial conflicts are not pleasing to ZOG, so ^{reports} are usually restricted to local areas, where they occur, or not at all. If Whites are alleged to be at fault, the jewsmedia always report their race, but if non-Whites are the alleged perpetrators, race is rarely mentioned.

Brother's

I think I saw the program about "Jesus'/Ossuary" on TV. Names like Jesus, James, John, &c. were very common amongst jews for centuries, so I suspected that the "discovery" was an Israeli tourism promotion, rather than factual. Of course, there should be no Jesus bones therein, but only those of his brother, since Jesus was allegedly beamed up, body & soul, to Yahweh's Big Sky Pawnshop, or as some claim, he skipped out with his female friend, leaving his stunt-double hanging on the cross. When one reads jew fables, it's hard to keep all the lies straight. Most sheeple pick the one they like & stick with it; all proofs to the contrary notwithstanding.

"God" is a generic term, like "food." It may have a specific meaning for one who says it, & a contrary meaning for one who hears it. Some gods are humanoid, others animal or mythical half-man, half-beast depictions. Yahweh is a specific god, as is Wotan/Odin. Buddha is not a god, but is honored as if he were. I recall the tale of a man who died on the operating table, but who was revived after a time. The medical staff gathered around him as he came to. His doctor exclaimed, "You have literally come back from the dead. Please tell us what it was like." The patient said, "Well, it was no big deal." A nurse asked: "Did you see God?" The patient hesitated before answering: "Uh, yes, & she's Black." I have learned a rule: Never ask your god for special favors. Only ask what you should do for your deity(s). I met a Cabalist named James Madole, who touted the Cabalistic formulae for influencing The Universe, alias "a great being, named Adam Cadmon," in one's particular favor. I exclaimed: "At last, you have taught me what evil is in your cabalistic concept of "As above, so below," for you have described the Cancer of the Universe." Madole died of cancer a short time later. "As above, so below." ORION!
