Mr. Ruben Cedeño, Deputy Secretary  
Department of Corrections  
P.O. Box 41100  
Olympia, WA 98504

Dear Mr. Cedeño:

This seems to be the season for censorship. I am accused by prison staff of "inciting security threat group," "advocating group inferiority" and "White supremacism." Plus, I am alleged to purvey "material that is racially discriminatory."

As to the latter allegation, I am no more "racially discriminatory" than is the federal government, to the extent that I mention race. The U.S. government identifies people by race on its wanted posters, and it discriminates in terms of its "affirmative-action" programs, so racial discrimination is in the eye of the beholder.

I am not a "White Supremacist." I do not believe that Whites should dominate, nor exploit any other people. I do not promote any "White Supremacist" doctrines, so how did I include such items in my mailings? I would not willingly do so in the first place.

By stating identities and differences, I am not thereby inferring "group inferiority." I do not consider grizzly bears, bandits nor banksters "inferior," but dangerous, and apt to be hazardous to one's health, so my mention thereof does not signify "inferior" status.

The last thing I would ever wish to do would be to "incite a security threat group," since prisons have too much violence already. I wonder how I became a supporter or member of an "STG", and I wonder to which STG my correspondents belong.

In this regard, you should be aware of my attitude toward so-called skinheads: I deem them to be "prison-preppies," who are setting themselves up for life in the gulags. The enclosed letter to Mark refers.

It is likely that you may not agree with my findings and opinions, but I can assure you that my beliefs are no more extreme than President Washington, who warned us about "foreign entanglements," and President Eisenhower, who warned us about "the military-industrial complex." I merely point out what has happened to us because we have ignored such warnings. By naming those who have profited from such abuses, I certainly do not deem them to be "inferior!" Obviously, their victims are the ones who may be accused of being "inferior:" Us.

My sole reason for writing you is on behalf of equal rights and equal treatment under the law, which I believe not to be the current situation in the State of Washington's Department of Corrections.

Thank you for your consideration of this matter.

Sincerely,

Eric Thomson

Hail Brandon! Thanks for your letter of 14 APR 08. You have raised some important topics. Yes, we all can ask, "What's the world coming to?" Informed people say, "ZOG only knows." If that is true, then ZOG must have a very good crystal ball. The Great War Criminal, Franklin Delano Roosevelt, declared that "Things don't happen the way they do. They are MADE to happen the way they do." As one who cooked up Japan's attack on Pearl Harbor, he knew what he was talking about.

Your stay in the ZOG-gulag is similar to the story of Rip van Winkle who slept for 20 (?) years. When he woke up, the world was pretty different. In the gulag you may get news. I was out of this imperial sector of ZOG's bankster empire for ¼ century, so I have to watch "History Channel" to catch up on U.S. news items. Lots of things happened after I was escorted to the Mexican border by 3 polite FBI agents who handed me my U.S. passport & told me not to come back, OR ELSE! Not being bulletproof, I followed their advice. In 1982, an INTERPOL contact said "You can go back anytime you like. There's nothing on the computer. THEY ARE ALL DEAD." He meant the zoggies who had made me "America's Least Wanted." As I discovered upon my return in 1992, INTERPOL was correct. I was able to rejoin the U.S. coolies with no ZOG-problems, aside from the problem that faces all coolies: getting enough to eat. This problem is worsening as more & more jobless Americans become jobless & homeless. My last job left for India, but I was lucky, for I was old enough to collect my Social Security, as long as that may last, ZOG willing. If I were a young White man in this land of Judeo-America, I'd be much worse off. Well, I could always sign up to die for Israel in Iraq. Such a deal!

Imagine if you'd received a 10 year prison sentence in 1929, in the USA. The Great Depression, as some call it, lasted from 1929 to 1939, the year World War II began. In this case, you'd miss the Depression, just in time to get into the war. Lucky fellow!

Big Changes are certainly in store during your prison time, & those changes are likely to be for the worse, as the oncoming economic crisis will be much worse than the Great Depression, which featured massive job-loss, without welfare income for the Gentiles. This Great Recession will feature massive job-loss + inflation (high costs of living, with no limit in sight).

The USA always was an empire, never a nation. We've had jew presidents like both Roosevelts, Harry Solomon/Schiff Truman, part-Black Eisenhower, & lots of Ostensible White traitors who got Whites killed & who made profits for the jew banksters, so a mulatto like Obama could be no worse than the others. Hillary is jewish, as she announced during her campaign for NY senator. She & Manchurian Candidate McCain want us to wage endless war for Israel. If Obama is honest about his anti-war views, he may get zapped by ZOG, like John & Robert Kennedy, Lincoln et al. The U.S. sheeple have little to choose: 2 Israel-First candidates, or one who is pro-Black.

ZOG's David Rockefeller & Company want to establish The North American Union, which is set to replace the USA by incorporating it into a political/economic/demographic entity including Canada, USA & Mexico, with the possible addition of Central America. ZOG can make a crisis happen whenever it likes. Bush may get us into war with Iran, as Israel has demanded, for the Bush-Cheney regime is Zionist (jew-supremacist). That's why we live under ZOG (the Zionist Occupation Government). ZOG has been around at least from the time the Rothschilds took over The Bank of England. ZOG membership is proved when a country does not issue its own money, but allows a private bank to do that job, as the U.S. does with the Federal Reserve banksters. The Federal Reserve does not belong to the USA. It runs the USA. Such a deal!

ZOG could declare an emergency for financial reasons, political reasons &/or military reasons, all created by ZOG itself. In an emergency, Bush could postpone the presidential election. An emergency could be used as a pretext for the establishment of the NAU, before or after the presidential election. The assassination of President Obama could be such an emergency, ZOG willing. Of course, this is mere speculation on my part, since I have only a cheap Taiwanese crystal ball, but I am aware of ZOG's track record in regard to Great Crimes Against Humanity, including the American sheeple. When we know how ruthless our Zionist-bankster rulers are, we may not know the specific details of their crimes of the future, but we do know they will stop at nothing. My 'predictions' are mere extensions of the known, the desired (by ZOG), & the possible. Many people have gone to prison for "3 hats & a flop," so your being inside already may save you a return trip. All the best. ORION!
