

18 APR 08

Hail Brandon! Many thanks for your letter of 15 APR 08. The omission^{by ZOG} of Stalin's plans & massive military preparations to invade all of Europe in 1941 was known in advance by Roosevelt & Churchill, but us dumb Goyim were never to be informed of this fact, which has been confirmed by former Soviet military intelligence officer "Suvorov" (his pen-name), in his book, "The Icebreaker." Hitler did not attack Red Russia for aggressive purposes, but for defensive ones. Many Europeans joined the Waffen SS because Hitler was not enlarging Germany, but saving Europe from jew Bolshevism, i.e. Communism. That is another omission on the part of our kosher propagandists.

As you say, Christinsanity is a great tool for controlling people, by turning them into 'sheep,' & indoctrinating them with guilt for 'original sin,' & now, for being White. One follows the other. As you say, it is unhealthy for any people to adopt alien deities. Carl Jung noted "Racial Memory" as a factor in humanity, which provides us with our myths, values & direction. To substitute a Semitic cult for Aryan consciousness is like exchanging a compass for a ouija board: Silly & mischievous.

If you think ZOG will grab your military history magazines, please send them to me, for I can use them on behalf of my correspondents, even if I can't send them copies because of ZOG censorship. I can summarize important points for them in my letters.

Many thanks for your outstanding essay on "The Question of Cultural Corrosion." I'd like to add a few points of relevance: Only on rare occasions has the White man been sovereign in North America. Every time, the jews worked persistently to put him back under jew-bankster rule, which they finally succeeded in doing in 1913, under the traitor, Woodrow Wilson & jew hirelings in CONgress. Jew wealth is their weapon of mass-destruction, for, as jew Rockefeller (J.D.) observed: "Every man has his price." French diplomat, Talleyrand, noted that "A man with family will do everything for money."

To be sovereign, as opposed to slave, requires that a person or a people not only govern their own personal relationships with others, but they must also govern their public policies. They must not only decide on candidates for public office; they must decide on issues, such as war or peace. Sheeple are not sovereign. Our European stock have long suffered the chains of exploitation & tyranny: physical, theological & economic. The physical environment is arranged on behalf of our rulers, just as your gulag is designed by them, for you. For me, being required to own a car is a tyranny, so I always live within walking distance of the things I need. I simply cannot afford to support a car & myself. Without a car, I can, so far, comfortably support myself, in this Empire of ZOG.

Since church membership is not compulsory, as it was under the Founding Felons of the colonies in North America, our rulers' primary weapon is their organization of our economy, which we, as individuals, must work within, as best we can. To a great extent, I have achieved personal sovereignty, under ZOG, as Henry Thoreau did in his time & Thorstein Veblen did in his, in the first half of the 19th century & the early part of the 20th century, respectively. Personal sovereignty & hence, personal freedom, have a price, as does everything. What I have in common with the two sovereign individuals aforementioned is my lack of hostages. Others have noted that "Life is Struggle," which requires thought, alertness, stamina & discipline. What we seek are allies, not hostages for ZOG to hold over us, thereby to enslave us. Hence, our slave status can be remedied to some extent by shunning TV & by staying debt-free. We may not be able to change the world, but we are able to change ourselves & the way we live under Zionist Capitalism. A man's first job is to feed himself, so we must decide how much freedom we must sacrifice to do this. Remember: The more we require from ZOG, the more we are enslaved. Herman Melville & Jack London had some cogent thoughts on this topic, as well, & so did Mark Twain, H.L. Mencken et al.

Our people have rarely, if ever, been sovereign, because ZOG rules us by choosing 'our' leaders, the Judas Goats who lead us into their kosher slaughterhouse. When our values & traditions served our alien rulers, they were tolerated, but not now. We have been their fools & their tools. When tools are worn out, having served their purpose, they are discarded & replaced. That is what our New World Order (NOVUS ORDO SECLORUM) is all about, which my relative, Charles Thomson inscribed on his sketch for The Great Seal of the USA. Samuel Adams, if I recall correctly, described it as "A tawdry, Freemasonic device," but it was also a Judeo-Satanic symbol, as Satanist Freemasonic chief, Albert Pike admitted, for who it is who "approves our work," is Lucifer. Beware of good in the service of evil. All the best to you. ORION! *FR*
