

22 APR 08

Hail Daniel! Thanks for your letter of 15 APR 08. It is difficult, as always, for us to obtain any reliable information about Russia. One recent visitor said that "the jews are still there." An NPR radio program featured an interview with a "Putin oligarch," one who supports Putin, allegedly, by the true jew name of Schwartzman. However one spells it, that name is not Russian, but Khazar. The relevant thing which was reported in the CREATION of Russian Nationalism is that it needs definition. Nation is biological, but Nationalism is the Idea & Practice of Nationhood.

The USA empire of ZOG eradicated White Nationalism from its beginnings. As Cornwallis predicted to Washington: "You will destroy the best of your Nation in a 'holy war.'" The jews did the same to Russian Nationalism in World War I & the ensuing Bolshevik Revolution. U.S. Whites exist as members of their respective Nations, just as do "Indian Nations," but we must create what we never had: A White Nation, in this Empire of ZOG.

The "New Russian" may well include jews as "Russians," just as Jared Taylor wants to include jews as "Whites," which they are not. I witnessed the jew-switcheroo when I lived in Rhodesia, after their 1972 declaration that they were NOT White. Suddenly, jews started referring to us as "you White people." The survival of any Nation depends on who is included & who is excluded, just as we do with our own families. A person who lives in the same apartment house as I do may be closer than any of my relatives, but he is no relative of mine, merely because of his close physical proximity.

I note that various non-White Nationalists use W.N. as a disguise for their particular agendas. As you say, some are likely ZOG agents, such as Covington, Miller et al., & then there are those who use the term, White Nationalist, like so-called Christian Identity, KKK & the me-me-me/gimme-gimme-gimme bunch. These are NOT White Nationalists, any more than those who promote the wearing of Confederate or Third Reich regalia.

What White Nationalism needs is a Manifesto, a statement of principles, similar to my White Power Manifesto or The 25 Point Program of the NSDAP. This Manifesto should be as brief as possible, so that its adherents may readily see who is or is not a White Nationalist. Being White is not enough, but is only the first qualification for being W.N. Amerasians & mestizos are not White, despite what ZOG says on its Wanted Posters.

Whites have tried everything in North America WITHOUT White Nationalism: They've first tried it with land; then with religions; with White Fight against other Whites; & now, with White Flight: Anything but White Nationalism, which will be our last hope for racial survival, at least in this Hemisphere. The true 'homeland' of White Nationalism, all nationalisms, must be in the mind, so as to result in appropriate behavior. No change of place can save Our Race. Only change of mind can save Our Kind.

I find it amazing that ZOG permits you to publish your booklets on Separate Living, from a gulag! It seems as if ZOG is copying a policy of Chairman Mao: "Let 1000 Flowers Bloom" (so we can chop off their heads). ZOG knows what I have to say, since I am a journalist of over 40 years' experience. This is a minimal qualification for tracking & analyzing world events, as well as local ones. One cannot be a good citizen if one is not an informed citizen. ZOG knows! That's why it wants us to be 'edjewcated,' rather than educated. In most ways, you are hampered by your 'ivory tower' existence, as those who are denizens of academic ones. I noted that their lack of real world experience made them prey to illusory abstractions, such as Marxism. Gulag existence deprives one of real world experience, as you know, so your sources of information are restricted to your immediate associates & word from the outside, which you must evaluate.

My reasons for living in Brownest Yakima are mainly economic, but also journalistic, for I can keep track of International Relations in this Empire of ZOG, for my own information, as well as others', as I did in Brownest Colombia & Peru. Never has my information on Mexico been better than it is here in Yakima! May First promises to be the occasion for a big La Raza & La MEChA rally in a local park, near my residence, so I can listen to the speeches, as I have previously. I understand from local sources that the Mexican Nationalists have not obtained a parade permit, so there may not be a march-past, as on last May. An Anglo-mestizo, Freemasonic group called "Grass roots" will be picketing & showing FEDZOGUSA banners that day, & a jewlike member of The Minutemen says his group will attend the Hispano-mestizo rally (!). He could easily be taken for Mexican, so he won't have a problem, unless he waves the Gringo flag. Yes, multi-racialism may be tolerable for visiting Whites, as long as we know when to duck.

Incidentally, if you can't say ORION! you are not a White Nationalist, so let's see it. You be careful. ORION!
