

11 MAY 08

Dear A.N.I. Staffers: Many thanks for your recent mailing, which included your kind letter & the outstanding enclosures, which I shall circulate amongst my network of correspondents. I enclose a few years' worth of my correspondence for your entertainment & circulation, some of which you may have read previously, but I sometimes enjoy reading what I wrote, as a change from the constant jewsmedia bombardment. In any event, that which does not inform or entertain may be put to good use as a cure for insomnia. For variety, one can read every other line, &c., if one is otherwise unoccupied.

Your Autumn 2008 issue of A.N.I. was excellent, especially in regard to the book review on "Homo Americanus," which I copied for circulation, as you can see. Many thanks! H.L. Mencken referred to them as "Boobus Americanus," with good reason.

I note certain themes which recur in my letters, which reflect oncoming or ongoing trends. One correspondent wrote that my letters seem "timeless," to use his word, because they never seem out of date, not even when they address historical topics, with relevance to current events.

What are projections & predictions worth? If they are correct, we may use them to guide our behavior when such events occur. If they are incorrect, they fall into the category of the boy who cried "Wolf!" too many times. Sometimes, it is unimportant if we wish to heed warnings or not. Had our Zionist bankster masters not chosen to hand over Rhodesia to Black Marxist Misrule, I might still be there, but I smelt a kosher rat that Ian Smith was a traitor to his race, who intended to sell out White interests, so I behaved accordingly: Either Smith would go or I would go. Smith deported me in 1976 for pro-White activism, which was all to the good, for me. The Whites who remained were not so fortunate. I had nothing to lose, since I faced being killed in a sold-out civil war, or 'coming short' in an attempt to topple Smith & his jew masters. In any case, I could not return to the USA until certain zoggies died & The Kosher Cold War Hoax was history, without taking a major risk. That accounts for my years in Soviet Canuckistan alias Canada alias China-duh.

It seems that White Australians are in a similar position to White Rhodesians of the 1970s: Their alien-dominated & oriented regime is intent on selling them out & in handing the country over to non-Whites, on behalf of the Jew World Ordure of kosher global capitalism. How can we teach the Goyim that this is their future, if they carry on as they do at present? I experienced that dilemma in Rhodesia, as I do in the USA: Hostile disbelief or zombie indifference. The blightwing is notable for its arrogant ignorance. As usual, there are the Kamikaze Christians who claim "it is written," & who look forward to "the end of the world," as King George Bush is said to do, on behalf of Israel. I knew White Rhodesians who said "nothing can be done, for Black Rule is inevitable." Not only did they do nothing to prevent it, but they did nothing when it occurred. Those who stayed too long, died, including some friends of mine.

Which land is likely to become 'unhealthy' for Whites? Europe, North America, Australia or New Zealand? Or all of them at once? The USA is becoming unstable in terms of its politics, economics & demographics, all at once, so it would not surprise me if the USA would 'pop' first. Our Zionist Occupation Government already has plans in place & in execution to create its North American Union, with a predominantly Eurasian (mestizo) population, peacefully or otherwise, as ZOG wills it. The Whites are earmarked for extinction, but they still VOLUNTEER to die for Israel in the Middle East, so as to make more space for non-White invaders in the USA. Aren't we nice? Please excuse us for living, & for standing in your way.

Why do we behave the way we do? We must consider our reference points, most of which are delusional, just as dogs may think they 'own' their kennels. Most of that which we deem as 'permanent' proves to be temporary, even fleeting. What is truly 'ours?' Our jobs, our hostages, both persons & property? Our youth & health? What of our beliefs? Are they relevant to reality or largely fantasy? Poor, willfully dumb sheeple!

With these cheery thoughts, I wish you Strength through Joy, & all the best. ORION!

ORION

19 NOV 02.

I just received Paul's excellent mailing. As Always, his publications provide important information which I photocopy and pass on to my correspondents outside Canada. Many of my U.S. receivers express a lack of concern with demographic, economic and political events up there in Soviet Canuckistan, as if an invisible line stretching across this continent can deter people from crossing it! White North America has been subverted, usurped, invaded and occupied, with our co-operation, because we refused to behave as "racists", of which we have long been accused, especially since we don't behave as such. On the contrary! We embrace and provide our invaders with our living space and substance, in the vain hope that they will be nice to us, if we let more of them in. It's as if we were to invite rats to our dining table: "look how cute they are!" "Why, they're just like us: see how they go for our food!" "This little feller likes to crap on my plate. Well, that's their culture. It's diversity. I never even thought of crapping on my plate. I'm sure they have lots to teach us." "My, they've eaten everything. Yeah, bring in your relatives. We'll cook up some more for you." "Honey, our kids haven't eaten!" "Well, they'll just have to do without, 'cause these little critters really need it!"

The dearth of Whites in North America is not due to our indifference to breed, but our decision to avoid poverty by controlling our reproduction. This has played right into the hands of those who don't, thanks to our insane welfare policies. The Jew, Milton Friedman, is willing to acknowledge that open immigration plus welfare is impossible to sustain. The same thing applies to open reproduction plus welfare in our native populations. The Scandinavian Socialists of the 1930s knew that simple rule: you can't have a basic standard of living for the poor and a rising standard of living for the productive members of a society if the bottom of the social pyramid is allowed to expand infinitely. Those who fed off the taxpayers were not allowed to reproduce their own kind. Yes, it's "Nazi"!

We can look to our 'betters', i.e., to non-Whites who are now invading us, for inspiration. In Asia, there is no welfare outside the extended family. Defective offspring are not coddled. They are killed. The Zulus and other tribes have no use for crippled or defective tribe members, either. That's what the crocodiles are for!

Whites like a certain standard of living. They like space. If they were to have children the way Turd Worlders do, both would go the way of Bangla Desh. Our Zionist rulers know this, and our capitalist criminals also know that wages must rise as population declines. In order to keep the workers "in their place", wages must remain low, so a worker must borrow money for his White standard of living. Thus has our ZOG decreed that we must export jobs and import jobless from a number of non-White countries, to lower labor costs and to increase our social 'diversity', read 'division'. Since Whites fear to call themselves White, it has been easy for our deadly, genocidal enemies, to wit: the ubiquitous, iniquitous ZOG, which rules our economics, our politics and our demographics, because we allow it to do so. We have allowed ourselves to be shackled, so it is going to be much more difficult for us to regain what freedom we enjoyed before we gave it away. Not only must we fight, yes, FIGHT! for our freedom, we must also fight for our very existence, as I have tried to point out for many years. Now, I see, ever so slowly, that a few people whose Phds. have not been stripped from them, are coming to see that race does matter. Benjamin Disraeli was allowed to say it in the 19th century, but not today, unless one is attacking the White Race, on behalf of non-Whites.

Race is biological. Nation is a subdivision of Race, just as Tribes, Clans and Families are subdivisions further down the line. Race is not place. Biology is not geography, although we did have places named after the nations which predominantly occupied them, such as England, Scotland, Wales, Ireland, Germany, Sweden et al. Now, the geographical distinctions are deprived of their biological relevance, to a great degree. What we are entering is a Time of Great Sorting, amongst races and within races, if any are to survive, for Race is the vessel which protects the Individual, not vice versa. Remember the example of Beethoven in an African village! Generally, those who consume the products of White civilization cannot create them. Rather, they deplete them and spoil them for us. Hard times demand hard policies. Ostensible Whites must be able to contribute to survival. They must live for us, not off us, if they would be with us. As one colleague observed: "God is Truth." And Truth exists, whether we like it or not. My message is based on my observations, not on my ego. My only wonder is how long it has taken others to see what looms in our faces, and to summon the meager courage even to mention it! Yours for a Whiter, Brighter Future. DOWZ! & ORION!
