

23 MAY 08

Hail Matthew! Thanks for your letter of 15 MAY 08. Just call me Eric, by the way.

Somewhere I read that one out of every 3 ostensible Whites in North America was of German descent. According to historical sources, there was a great German presence & influence when the European colonies were under British & French rule, although Britain & The Germanies were traditional allies against the French. Dr. App told me that the very first newspaper in British North America was published in German, & after the so-called American Revolution, the U.S. Congress came one vote away from adopting German as the official U.S. language, but a German delegate voted for English! "Pennsylvania Dutch" was the closest English-speakers could come to saying "Deutsch" (German). There was a Dutch colony where New York City now is. It was called New Amsterdam, but the British seized it in their wars for maritime supremacy against the Dutch. We note the close resemblance between the words, Deutsch & Dutch. That is because the Dutch are a Germanic tribe, as are many Europeans who'd otherwise be German. Some German kingdoms & principalities only unified under the King of Prussia in 1870. That's when the King of Prussia became Kaiser or German Emperor, much to the dismay of the Austrian Emperor. The Kaiser called his empire The Second Reich (Empire). Kaiser means Caesar, which goes back to the Roman tradition & the subsequent First Reich or "Holy Roman Empire," which historians have criticised as being anything but holy, not Roman, & not even an empire. This aping of Roman tyranny was imposed on the Germanic peoples by Charlemagne or Charles I of the Franks alias Karl the Saxon-slayer who broke a sacred truce with the Saxons to make the surprise offer of baptism or death. Many Saxons chose death, rather than live in disgrace under the tyrant. Hence, Roman tyranny was imposed by force & fraud upon Whites, under the guise of Christianity alias Judaism for Goyim. Rome's religious tyranny was at least as effective as Rome's original military rule, which enslaved only bodies. The Roman Christians enslaved minds as well. Such a deal: Such a racket!

According to Tacitus, himself a Roman, Rome's republic for the rich 'needed' to expand, so as to acquire more land, more resources & more slaves for the wealthy minority. After the fall of Rome, the "Christian" gangsters, er, feudal lords, wanted to enlarge their power & wealth, by taking it from hitherto free Whites. The Churchlings cited Bible passages to support the power of feudal lords' & kings' "divine rights" to rule. To the Goyim who lamented their loss of freedom, a Jew asked, "Freedom for WHAT?" Goyim are defined as herd animals who were taught to behave as such by their Christian shepherds. That's why bishops carry shepherds' crooks & some clerics are called "pastors." Poor Germans!

The Germans' North American experience was basically one of exploitation by the Judeo-Anglo regime, according to Dr. App. Unlike other peoples, the Germans in America lived in communities without German leadership, like good sheeple. World War I came as a violent shock to Germans who thought they could fight & die for America's Zionist (Jew-supremacist) Bankster Empire like good 'patriots' & still speak German. Not so! Judeo-America declared war on the German language. I don't think that our World War II anti-German hysteria was as powerful as it was in World War I, in which the popular dish known today as sauerkraut became "Liberty Cabbage," & German became "the language of the enemy," as if we'd always been enemies of Germans. Of course, Germans were welcome to join the armed forces as fresh meat for the kosher slaughterhouse on The Western Front: "Onward Christian soldiers!" The banksters learned that Anglos could be propagandized to kill Anglos in the genocidal Civil War, so why not try it with World War I, in which Germans would slay Germans en masse for banksters' profits & power? Like good Goy cattle, the Whites behaved just as their 'shepherds' intended. When I was in high school in California, German was not taught; only French or Spanish, despite the fact that German was required for chemistry majors, but we had to wait for college. I took Spanish because I wanted to go to South America, where Spanish & Portuguese are the two major languages.

Why do Jews like to pass for White, when they intend on making us extinct? It goes back to their biblical commandment: "Thou shalt wage war by deception." Hence, the Jew is the consummate infiltrator, who always takes care to resemble his host people.

As far as I know, Hamilton is a Scottish name, or it may be an English name imposed on the Scots with English rule. Alexander Hamilton, a Founding Felon & Jew bankster agent, was himself 1/2 Jewish. Jews use names to disguise their con-games. More deception. Beware & take care. ORION!
