

As we have said over and over the Illuminists are in a box and they cannot get out.

Saudi Arabia says it will increase oil output by 500,000 barrels a day next month. We quite frankly doubt if that is possible. Supposedly the Saudis are becoming nervous about both the political and economic effect of high oil prices.

The morons in Washington want to pass a law to address record energy prices.

The Saudis are going to have to deal with other OPEC members who just last week said there is no reason to raise production.

If the US banking system isn't insolvent it is close to being so. Our debt has to be written off, our dollar officially devalued, our housing problem and banking problems solved. Congress has to end the Federal Reserve and our energy base has to be expanded and our infrastructure rebuilt. Our foreign wars and occupations have to end. What the Fed is doing is extending the time line for collapse to save as much of Wall Street as possible and allow the dollar to fail as a consequence. This is being accomplished by giving banks unlimited funds, which the US taxpayer is responsible for. This is killing the US overall, economically. These funds are going to the very same people who committed colossal fraud and got our economy in the mess that it is in. The scenario is called helicopters over Wall Street. As a result both two year and ten year Treasury yields are rising at a threatening rate. When the 10's yielded 3.50% we told you by the end of the year they'd be 4.50%. They are already at 4.26% only 6 weeks later. They are telling you foreign investors want a substantially higher yield to hold US dollar denominated paper and it also tells you this yield has to rise in order to reflect the erosion from inflation. This time the short end, the 2-year is rising with velocity as well. Asset deflation is being offset by the massive creation of money and credit. This is the worst of all worlds. The values of assets of an entire nation are falling, as wage gains are miniscule and inflation rages. As the long end yield climbs the Fed monetizes the short end. As yet inflation is winning and will continue to do so until borrowers stop borrowing. That is when deflation will gain the upper hand and we believe that is 2 to 3 years away, but it will come. As we said before what the Fed and other central banks are doing insures a depression.

Hail Jason! Many thanks for your insightful letter of 18 JUN 08. Yes, we have lots of work to do. As Hitler declared: "We must clean our ranks with an iron broom," for those who pretend to be us damage the cause of Our Racial-Nation. The jew writer Toland identified the "Needle-Nazis" as you so well call them. He said that such scum were the dupes of 'Hebrew-ood,' as I call it. Hollywood 'Nazis' are depicted as losers, misfits, drunks & druggies, & Hitler as being the worst of the lot. So dumb Goyim get the false idea that if they can be such dysfunctional specimens, they can qualify as "Führers." Toland said that the real Nazi leaders did not need the NSDAP to advance their personal careers, for they were "already somebodies." He said that "even when Hitler was a 'nobody' he was a somebody!"

As you know, the ZOG (Zionist Occupation Government) is composed of non-jews who serve jew-supremacists (Zionists). They do so consciously or unconsciously. In the Algerian movie, "The Battle of Algiers," the Algerian patriots strive to throw off the French colonial yoke by attacking every tentacle of the imperial octopus. The drug racket was one such tentacle, & those Algerians who sold drugs to other Algerians were the enemies of every Algerian. So are self-styled "Nazis" & "Aryans" who do the same to their fellow Whites. The essay by T. Sunic on "Homo Americanus" refers. As jew comic Lenny Bruce said: "Be American. Sell out!" The jew, John D. Rockefeller alias Wreckafeller said: "Every man has his price." Those who didn't were murdered. In Mexico the offer is "plata o plomo?" (Silver or lead?). The government of the USA operates on behalf of the jew banksters the same way: Those who resist jew bankster policies are either selected out before they are elected to political office, or they are snuffed out for resisting jew banksterism when they are in office. Our presidential body-count is respectable for any banana republic that I know of, even if we must import our bananas. Now I can appreciate the old saying that "We have the best government money can buy."

NPR jewsradio featured a pundit who said matter-of-factly that "when Israel decides to attack Iran, we'll be in there with them." In other words, the USA no longer has the power to decide if we shall enter World War III. That decision is in the hands of Israel. In former times, this situation would be called "treason," treason against the U.S. people & our CONstitution. ZOG knows.

One correspondent asked me, "What is your purpose?" I replied: "To teach the jews' sheep how to think, so they may become men." Unity can only come from identity: Knowing who we are. When we know who we are, we know what's good or bad for us. We must change our way of thinking from "ME" to "WE." It's a simple step, but a gigantic one, for we have never thought as "We, the people," that is, we White people. It's time to wake up, way past time. As you say, the jew, left to his own devices, would exterminate himself, but as long as he can fool the White man, we will exterminate ourselves for him; for jewish power & profit. Such a deal! A parasite can't afford to kill its host, but jews 'have' to do that, for it is their nature. When the Jewnited States goes down the toilet of history, the jews will pity themselves for suffering their "American Captivity," a "holocaust worse than Hitler's," as I've heard some jews claim. They are champs at feeling sorry for themselves. A wise European noted that the "jews create a problem, & they are the first ones to complain about it."

Non-Whites, like jews, blame others, always, for their misfortunes, so I as a White man understand that WE are primarily to blame for our misfortunes at the hands of Zionist bankster thugs & jewsmedia hypnotists, because we behave like "Goyim" (cattle), just as jews like. Jews tell us to go & die in The Middle East. Are they to blame for our deaths? Not in my book. We do so willingly, so we participate in our own victimization. That makes us guilty accomplices in our own undoing. Hence, we must see the solution to our plight within ourselves, as well as the problem. We flatter the jews by putting all the blame on them.

Some correspondents say that "there's nothing I can do. Maybe when The Great Pumpkin comes down, or The Tooth Fairy..." My reply is to do what I've done: Shun TV & stay debt-free. No one else has to do anything for us to achieve that. We are all self-educated, but that means we must do it ourselves: To study, learn & THINK. This means lifting our snouts up, out of the jewsmedia swill. We have so much to do, & so little time in which to do it.

Freedom = Independence. If we are slaves to drugs, we are neither independent nor free. You see the truth of that. How much must we consume? How much should we, if we want to be independent & free? Thoreau & Veblen noted the ability of one's possessions to possess him. That's why property is also called "traps & encumbrances." How much property do we need? Goyim never think to ask. That's also why they are called "cattle" by jews. All the best.

ORION!
