

21 Jewlie 08

Hail Daniel! Many thanks for your thoughtful letter of 17 Jewlie 08. Once again, ZOG lies about mestizos (Eurasians) as being "Whites." I go by federal wanted posters. When I see a Sally Bluefly listed as "White," I know how inaccurate ZOG's White stats are. The Local Minutemen/Grassroots group is largely Anglo-Mestizo & controlled by Freemasons, i.e. Traitors. They openly state their anti-White views.

Secondly, any White who runs for public office must be anti-White, i.e. pro-non-White in his statements & behavior. Whites are the minority, so they can't sneak up on anybody. Yes, the Mexican population has exploded throughout the NW, along with Asians.

Thirdly, one cannot control the state without controlling the media, so it's a chicken or egg riddle. If you recall, the NSDAP began with 7 members & a typewriter. Of course, times were different & the people were different. At least, they all spoke German in Weimar Germany & there were not lots of diverse non-White nationalist organizations as in the Zionist empire of the USA.

We already have our media: The Internet. All we need is a White Nationalist website.

I'm glad you have studied the mechanism which may be used to achieve essential goals. This is similar to having a good mechanical knowledge of a car, but what counts is who's in the driver's seat. Once again, it comes down to human quality.

Circumstances may not give us sufficient time, for aliens are buying up lots of U.S. real estate with our devaluing zogbucks. Hence, your calculations may need severe revision. You seem to think that the ZOG is less competent than its track record proves. Why would it let the USA collapse & disintegrate, before imposing its North American Union? If the zog-buck shows signs of becoming worthless, wouldn't you accept a currency which could buy things, such as the amero? I would, for it just means that ZOG's anti-White empire was expanding. The USA is already anti-White. It is incorrect to say that the USA will collapse. The likelihood is that it will be replaced in a more or less orderly transition by the NAU.

I don't advise giving up, not ever, but it is useful to be aware of potential traps in our path, just as it was useful to know if a road was mined in Colombia or Rhodesia, when I had to travel thereon.

In my experience, human quality is all-important, for I've seen good ideas & worthy causes sabotaged by ego, corruption & ZOG agents. My experience with Covington was a good example of one whom I trusted; one who claimed to agree with the goals of the group, yet one who would sabotage the group in terms of maximum damage. If he were not a zoggie, he sure accomplished ZOG's work. Elmdel was longer lasting on behalf of his espoused cause, but his weakness for jewish mama type dominatrixes pushed him off the tracks, & easy money derailed him. As the money from donors increased, his loyalty to the cause of Truth, Freedom & Justice decreased, until he declared: "I am the Cause!" From then on, his message was "Me-me-me," & "Gimme, gimme, gimme." As Fate decreed, when he abandoned his touted principles, the Cause abandoned him. He thought he could take the donors' money & run to a Shangri La, but ZOG had another idea. Now he resides in a gulag in Zionist Occupied Germany. His jewish wife, "Ingrid," still cries for sympathy & shekels, for herself. How do we find people worthy of White Nationalism? The jew, "Lenin," posited "objective conditions for revolution." So far, the U.S. population is too fat & stupid to perceive the oncoming crises. That is why there is so little interest in White Nationalism amongst ostensible Whites (O.W.s). If it takes hunger to make Whites think, so be it.

I do not counsel defeatism, but due caution, for The Struggle is the Victory, in & of itself, as I have found from my own experience. As my old friend, Col. Rudel, used to say: "He is only defeated if he, himself, gives up." Rudel never gave up, so he died a winner. As Hitler said, "Life is struggle, so those who do not struggle are not fit to live." The old Frontschau (combat newsreels) always ended: "Der Kampf geht weiter." (The struggle continues.)

I congratulate you in your exercise of "the art of the possible," despite your restrictions, & I look forward to your success on the outside, especially in regard to obtaining worthy comrades & supporters, rather than the surplus of blighting rubbish. These times of sedition & attrition, distractions & destruction are really heroic, so they may call forth the heroes of Our Race, who must be strong, brave & smart. I applaud their entry on the stage of history, in advance, if such heroes there be.

Keep up the great work! CRION!
