

23 AUG 08

Hail Jason! Thanks for your great letter of 16 AUG 08. As you observe, looking White is not enough. White also includes a code of values & behavior. This is the difference between White supremacism & White Nationalism. One cannot be trash & also a White Nationalist. Inferior Whites are inferior, & they do not belong in our Nation. I see that I'm not the only one to think this way. I appreciate your confirmation of my values.

As you say, inferiors are also sheeple, so they may be taught how to be White. That's why Hitler had work camps for lazy louts, as well as for enemy aliens & other subversive characters. Work was honorable under National Socialism, for it served society. Thus, an offender could redeem himself by work. Hence the motto on labor camp entrances: "Work makes you free." (Arbeit macht Frei.) This was not a code for "Gas jews here." No jews, nor anyone else were killed by gassing. This form of execution was done only in the USA, to my knowledge. The last jew to be gassed, as I recall, was Caryl Chessman, who was gassed at St. Quentin Prison, California, around 1958. I guess our zoggies are also real Hollywood Nazis, for the German Nazis were much nicer. After all, Hollywood is fiction & National Socialist Germany was fact. This example also inspires me, for I love Whites, not for what they are, but for what I know they can become. Until then, we must stick with our own or go it alone.

Before I forget, again, thanks for the 3 First Class stamps. I always appreciate them, for postage is one of my major expenses on my tight budget.

I also read "The Guns of August" by the jewess, Barbara Tuchman. World War I was another bankster war. Jews lend money to all sides in conflicts which they instigate, as in, "Let's you & him fight." Whoever 'won' the conflict was in debt to the jew banksters. Debt = Slavery. Because Goyim (cattle) are accustomed to debt, they are also accustomed to slavery. My letter to Claude refers. To the extent that I had to do work which I did not like & also pay taxes to our Zionist Occupation Government (ZOG), I was a slave, but I avoided debt, which would have locked me into ZOG's shackles. I actually saved money, so I could escape in search of better jobs. Those jobs I found, so I have done work I liked for most of my life, unlike most sheeple.

In the current "business cycle" alias bankster scam, jew money inflation would steal the value of money I saved, since inflation is theft. If I must pay double prices for all things I need, "someone" has stolen the fruits of my labor, by ½. Inflation leaves money in one's pocket, but removes its value. Stealing the value of my earnings is really the same as tricking me into working without pay, so this form of theft is also slavery. As I understand, slaves don't get paid for their labor. They receive just the bare minimum required for their existence, so they can work. Slaves cannot quit their jobs, nor do they own anything, so the chains of debt are even more effective than the former chains of iron. The debt-slave lives with the illusion that he can pay his debts, but this is impossible when 'his' government is also a debtor to the jew banksters. Thus, the "national debt" is inherited by the slaves' children, grandchildren, ad infinitum. Taxation is another form of theft. Those who must work for thieves are also slaves thereof. I was born into slavery, as were my parents, but knowledge is power. Knowing my slave status enabled me to plan my escape, to some extent, from the Judeo-American Treadmill to Oblivion, alias ratrace. The best slaves are those who think they are free.

Many, if not most, sheeple believe that Freedom = Consumption & Possessions. As a wage slave, I did not see car ownership as a +, but as a -, for I had to pay more to go to & from work. I avoided car enslavement by living closer to my workplace. Even more expensive rent was more wallet-friendly than car expenses, & it gave me more time to do things I like, such as sleeping a bit longer. On the outside, I know wage/debt slaves who work at 3 full-time minimum wage jobs. Two of them must pay for car expenses, leaving one to pay for the slave's other living expenses. This is truly slavery in the Judeo-American Ratrace. Such slaves barely have ANY time for sleep. The great writer, Henry Thoreau, saw that most Americans "lived lives of quiet desperation." That was in the 1830s & 1840s! I wonder what he'd say now. I suspect that he'd scream: "Let me outta here!" Desperate, but not quiet.

Of course, we can say that Judeo-American wage/debt slaves are not slaves, for they have the freedom to choose whether or not they will participate in the Ratrace. But is the freedom to starve really freedom? Not to my way of thinking. This is similar to saying: "You are free to break the law & then go to prison." Life normally includes obligations to oneself & to others, so we must be careful how we define slavery. I must breathe to live, but I do not see myself as a slave to breathing. All things have their price, so life is a bargain-hunt. ORION!

*Eric*
