

Well, the Irish Morons fought the Anglos for over 800 years.  
No more fightings, now they are bedding down with aliens and blacks  
to create the real "Black & Tans."

# Ireland wrestles with massive wave of immigrants

Once entirely Catholic  
and white, nation forced  
to deal with diversity

BALBRIGGAN, IRELAND—Happy little learners filed out of school at midday, smiling and clutching a parent's hand. It could have been anywhere in Ireland, except that almost every child had immigrant parents — the vast majority of them black — from places as distant as Angola, Congo and Zimbabwe.

Bracken Educate Together National School was opened last month as an emergency measure when education officials realized they had no school places for scores of local children, almost all of them Irish-born children of immigrants. The opening of Ireland's first predominantly black school, in this suburban town near Dublin, illustrates the pressures facing once-sleepy Ireland as its population and economy boom. Once almost entirely white and Catholic, Ireland is struggling to integrate hundreds of thousands of new immigrants and to provide them with education, health, welfare and transportation services as fast as they arrive.

"This is the front line in all this," said Gerry McKeivitt, an administrator at the Balbriggan school, looking around its temporary home in a summer retreat house for inner-city children. "This is where the problems are emerging. This is where integration is going to hap-

pen or not." After 150 years of population decline as native Irish fled dire economic conditions, Ireland is now one of Europe's fastest-growing and most prosperous nations. The white-hot "Celtic Tiger" economy of recent years has levelled off, but Ireland continues to be a magnet for immigrants. The nation's population is now just over 4.1 million, its highest level since before the famine years of the mid-19th century. Much of the growth has been fuelled by immigration. According to the 2006 census, more than 600,000 Irish residents, about one in seven, were born abroad — including returning children of Irish emigrants. Government officials say they believe the true figure could be much higher. The Polish immigrant population is officially 62,000, but Cónor Lenihan, the Irish integration minister, said the actual number could be closer to 200,000. "Ireland has been subject to something that no other country in history has ever been subject to: sudden-onset migration," said Lenihan. "We have seen our non-Irish population go from zero to about 15 per cent in 10 years." At the Balbriggan school, bright rooms are decorated with posters of Martin Luther King Jr. and nursery rhymes. Michelle McKay-Nkadineng is a South African immigrant whose daughter, Tatiana, 4, attends the school with 85 other students from at least a dozen countries. "This is a godsend," she said.

Hail Tom! Many thanks for your letter of 29 AUG 08. I appreciate your compliment about my store of knowledge, most of which comes from my own research & experience. Academically, I earned 2 B.A.s & an M.A. in subjects related to International Relations, but ZOG stole my doctoral dissertation on Peru & banned this White man from teaching, so I cannot earn a living from that career. Hence, I do it for nothing, as I am able, when I encounter the very few Goyim (Gentiles) who are interested in making sense of the world. This has been my career, all along: To find out what is going on, & how it relates to us, & to Our Race. While my knowledge has not made me rich, it has saved me from making bad investments of my time, labor & such money (zogbucks) as I've been able to scrounge from my part-time, minimum wage coolie jobs. Meanwhile, my learning continues, thanks to my correspondents, & I continue to pass on the knowledge I've obtained, which I hope will serve others. Maybe that's why I have no time for drugs, booze & tattoos.

When we study the languages of our people, we can better appreciate ourselves. My Folk come from Scandinavia, via the Orkneys & Hebrides, so I'm an 'offshore Scot.' I learned to distinguish ethnicity of the British Isles in their attitudes & behavior, & I can recognize such in myself, as a Norwegian Scot. When I was in Sweden, I had the opportunity to learn some Swedish. I've studied & learned to one degree or another various languages, but in the case of Swedish, I had the strange feeling that I was not so much learning as remembering. My people are seafarers, whatever they may do on land, thus it was natural that I would travel around the world by ship, in my job-hunting. It is remarkable that I've done more sea miles than I have air miles, especially in the 20<sup>th</sup> century, so it seems that sea travel for me was not only natural, but necessary: A developmental task, as they call it in psychology. Jung wrote of "racial memory," & the ancient Aryans of India wrote in their Bhagavad Gita: "From the corruption of women proceeds the confusion of races; from the confusion of races, the loss of memory; from the loss of memory, the loss of understanding, & from this, all evil." I see the truth of those pre-biblical words all around me.

The Irish were mugged by the Judeo-British Empire of the Rothschild banksters, under a cloak of religious fanaticism instigated by Cromwell & his jew cronies. The jew, "Karl Marx", who was funded by the jew capitalist, Friedrich Engels, thought that the British Empire could be destroyed by its colonies. Apparently, "Marx" believed that the USA had achieved independence from Britain with its Rothschild Freemasonic "Revolution," although we are as firmly under Rothschild banker rule now, as if King George III had never been defeated. Like King George III, our 'King' George II is a Rothschild employee & shareholder. As a Frenchman observed: "The more things change, the more they remain the same." But Goyim don't change. We remain as stupid as ever, by neither knowing, nor wanting to know. Ignorance is not bliss. Usually, ignorance is death. Sheep are not supposed to think. If they did, they'd be harder to fleece & slaughter.

The jews infiltrated the Irish rebels, just as the jew, Franco, infiltrated the Spanish Nationalist rebels in The Spanish Civil War of 1936-1939. De Valera was Ireland's jew-in-place, being himself of Spanish marrano origin (jews who 'converted' to Catholicism, while maintaining their jewish nationalism & even their religion). I've known such people in Spain, so Ireland would not be exempt from such infiltration via the Catholic Church. As Cardinal Lustiger declared: "I'm a Christian, but I remain a jew." Dumb Goyim think that a Christian cannot be a jew, which is like believing that a Christian cannot be a Chinaman. Religion & nationality are different, for religion is belief & nationality is being. Belief should affect behavior, but not in the case of one who claims to believe one thing, but behaves differently, since he believes in something else. Gerry Adams of Sinn Fein impresses me as a jew. Sinn Fein is the legal wing of the IRA, which has apparently adopted a new view of Irish Independence: "Brits out, wogs in. That's how we intend to win." What is the meaning of independence if Ireland is no longer Irish? The IRA is now a mafia of drugs, thugs & weapons sales, with no pretense of patriotism. The same evolution has occurred with Marxist rebels in Latin America, from Marxism to mafia.

Brian Wallace, an Irish Nationalist, in terms of White Nationalism, sees a darkening future for the Irish, whose new religion, apparently, is drugs, along with the traditional booze. The jew Bolshevik, "Lenin," described religion as "the opiate of the masses," but today, he'd describe drugs (opiates) as the religion of the masses, for drugs sabotage political & social activism, as I saw in the Hippie Era. If there are no fat revolutionaries, there are certainly no stoned ones, either, nor 'militant' passed out drunks. The Struggle continues. All the best. ORION!
