

23 SEP 08

Hail Daniel: Thanks for your letter of 16 SEP 08. I think you have revealed why your idea of non-White Power related economic activity will not save Whites, but you may allow some pro-White Nationalism to be encouraged "within the homesteads." That's so tolerant of you. The picture you draw seems to have lots of non-Whites mingling with such Whites as can afford to live in a necessarily scattered White Homeland, those who have sufficient money, of course. How do your ideas differ from those of Ostensible Whites who rely on Chinese labor to generate the funds they need to move their families from Mexifornia to Oregon et al. into their new homes, complete with their Mexican nannies & garden staff? How pro-White do you think such people would be? In my experience they are ZOG-loving anti-White Whites, who look down on the workingclass, especially the White workingclass, because they are "too expensive."

I note that you are not using White Nationalist slogans, such as ORION! By your own writing you have indicated that you are not W.N., but I am, for I experienced what lack of White Nationalism did in Rhodesia, South Africa, Canada, Britain, Germany, France, Australia, New Zealand, Ireland, &c. We can see what it has done in the territory known as the USA, with more darkness to follow.

It is wise to remember that where Chinese money goes, so do the Chinese. Our jew-bankster rulers have planned for the dissolution of the USA, on behalf of their Jew World Ordure, so this economic crisis is not a mistake, any moreso than was the Depression of 1929-1939 in the USA & elsewhere. Jew economist Milton Friedman admitted that the Federal Reserve created the first Great Depression, so why would this one be a mistake? Who benefits is what counts, for that lets us know who did it to us.

Pardon me for getting the impression that you intend to become a successful capitalist, with some White homesteads as a sideline. I think I understand our basic differences. All movements start small, but as they attract new adherents, the money follows. Perhaps White Nationalism will not catch on in time to save Whites from extinction, for without White Power there will be no future.

Many thanks for your Glenn Miller issue of Separate Living. I shall forward that to Eddy, a.s.a.p. As I wrote to Eddy, all I know is hearsay, so I take my own words with the proverbial grain of salt in The Glenn Miller Matter. Your journalistic effort is much appreciated.

I regret your incarceration, which obviously prevents you from getting on with your project, for unless you try it, we won't know if your idea is valid or invalid, & time's a-wasting. Political, economic & demographic changes are taking place so rapidly that the world in general & the USA in particular may have changed sufficiently to derail your project. I hope not, but adverse changes occur, whether we like them or not.

If one cannot be a White Nationalist where he lives, it would seem strange that he could become one by moving to a new location where he may not be able to earn a living. If I were able to live amongst Whites, I could contribute more to my White community than I do at present, for we are scattered, as I suspect your White homesteads would be.

The danger of establishing a larger White community is evident in the recent ZOG round up of the polygamist Mormon group, & the abduction of their children, by one phone-call from a negress, who falsely accused the group of "abusing" her. One call does it all, unfortunately, & this round up proves what ZOG is willing & able to do with White separatists who actually separate, more than ZOG likes. It appears that your grand edifice can be destroyed by a single informant, just as the great airship Hindenburg could be destroyed by a single incendiary bullet, as it likely was, at Lakehurst, NJ. The builders of the Hindenburg were not "talking crap," either. And the jew sniper also did something. We shall see how many White settlers flock to your land offer, once it occurs. Perhaps you will attract more settlers than the blightwing attracts as supporters, but please excuse my doubts. How great a percentage of Whites escaped the subprime mortgage scam? Those who lost or will lose their homes to foreclosures. What percentage of Whites lost or will lose their jobs? What percentage of Whites borrow money to pay for their daily needs? How many have maxed out their credit cards? My impression is that few Whites have money to buy a homestead or even the gasoline to get there. But your stats may differ from mine, which are from the mainstream jewsmedia & the Internet. I don't receive text messages from my stockbroker.

Anyway, I shall let you get on with your grand plans. Good luck. ORION!
