

7 OCT 08

Dear Phil: Many thanks for your letter of 30 SEP 08, & the outstanding enclosures. Congratulations on your new 'job' & what seems to be a convenient location. You are doing good, & I also hope you are doing well in these times.

I can agree with the political flier that the Bush regime's "free trade" (outsourcing) imports foreign made goods & exports U.S. jobs. My last job left for India, as you know. The criminals in charge of this country need to study a bit of history. There was a French philosopher, Say, I believe, who wrote that the workers must earn sufficient to buy the goods they make; otherwise the factory owners can't sell their goods. After World War II, civilian goods were priced beyond the workers' ability to pay, so workers borrowed money to BEGIN purchasing their homes & cars. This was at a time when cars & houses were never before cheaper to make! Keats, who wrote "The Insolent Chariots," noted that the U.S. automobile industry largely made its money by lending, rather than by selling cars, since most car-buyers had to purchase on installments, with interest, of course. Car-buyers who could pay cash, in full, for their cars, were boogymen.

This economic racket could have continued, had it not been for outsourcing, the additional greed of the fatcat felons, for the workers' ability to pay for goods was reduced by job losses & low wages in the service sector of the economy. It became obvious that the workers would have to borrow beyond their ability to pay. When I was in "Loserville," KY, the American Standard toilet works moved away to Mexico. A former worker was quoted in the press: "They will pay Mexican wages & charge U.S. prices for their wares, but we are now jobless, so we can't afford their stuff at Mexican prices."

Amerigoyim are now so strung out on debt that they may appreciate the wisdom of the adage: "Neither borrower nor lender be!" Some jewsmedia pundits complain that U.S. business lacks "capital." This is their jargon for savings, rather than machinery. In this latest, greatest fleecing of the Goyim, we learn of "toxic debt," that is, invalid I.O.U.s, which exist because the lenders knew the borrowers could not pay, but were able to pass those fraudulent financial instruments onto others, who thought they could do likewise. Like all bubbles, the Housing Bubble had to burst, but in this case, it would be appropriately known as The Fraud Bubble. The Zionist bankster economy is now a House of I.O.U.s, including its money. The "bailout" by the tax-payers of the Wall Street Felons will endanger those I.O.U.s as well, since more such 'money' will be inflationary, as we already see in our food prices.

The latest news on ZOG's list of things to steal, after houses, is pensions. The Goyim have put their savings into pension funds, so they will be the next to go. How expensive it is to trust the jews! Others have noted the importance of trust in any society. I will work for money if I believe the grocer will accept it in exchange for food; the landlord will accept it in exchange for housing, &c. But what happens if no one trusts that money will buy as much? The Germans experienced that during the jews' Weimar Republic Racket.

The deflationary 'depression' which was created by the jew banksters of The Federal Reserve from 1929 to 1939 switched off our economy, leaving everything in place: The means of production & the skilled workforce. All it took was money to switch it back on. But this inflationary 'recession' is quite different. Our workforce, if we can call it that, is both unskilled & alien. Burger-flippers & keyboard-peckers require lots of education & training to become machinists, electricians, mechanical engineers, &c. Besides, those jobs have gone to China, & customer service jobs go to India, as my last job did. In Brownest Yakima we have several 'growth industries,' aside from fruit-picking, but these are only in the service sector, not the productive primary & manufacturing sectors. Mental health & addiction recovery are big, as well as the incarceration business. Quackery is growing from the increased sickness stemming from toxic lifestyles & dysgenic reproduction. The moribund & decaying geezer population requires expensive & toxic medications, as well as housing & caregivers from Mexico. The illegal & highly-profitable drug trade requires transportation, sales personnel & enforcers, as well as growers, refiners, &c. A local 19 year old Mexican owned (yes!) two houses; one in which to store his cash of some hundred thousand zogbucks, the other in which to store his alleged \$100,000 worth of pot, coke & meth, according to The Yakima Harlot-Repulsive, our local jewspaper. Can a society run on drugs in its 3 economic sectors? The Chinese didn't think so. That's why they fought 2 Opium Wars against the British. Because the drug trade is illegal, gangs run the show, & such gangs have brought Mexico into a state of civil war: Coming to your neighborhood soon! My neighborhood (barrio) is already a focal point of drug-gang activity in which I'm known as The Old Gringo, who'd be a waste of a bullet. Yes, gangs need guns & ammo, so that business thrives, along with robbery & burglary. Otherwise, it's all quiet on the western front. DOWZ! ORION! 

7 OCT 08

Hail Daniel: Many thanks for your latest issue of Separate Living & your letter of 1 OCT. You seem to be saying in words what you may have left unsaid, thereby causing confusion in the minds of readers, including myself. As a writer & editor, I read for myself, but also with a mind to comprehending what others may read in the text. What is left unsaid is as important as that which is said. Before you pounce upon my statements, I suggest you reread your letters to me, to which I have stated my response. I can start citing your actual sentences so you will not think that I am making things up, so we can communicate like lawyers, but your memory of what you wrote seems to be unreliable. You mentioned several times how large the non-jew population is in Israel, for example, thus inferring that large numbers of non-Whites could live within a "White Homeland." Now you state your objections to any non-Whites in White LivingSpace. Surprise! I am not twisting your words. I am just stating what they mean to me, in all honesty.

You should think about your presentation of White Nationalism, if that's what you now purport to be. Indeed, outward symbols & slogans do not a White Nationalist make, but if you don't use them, how would you identify yourself as a White Nationalist? In all of your writings, you appear to be concerned with place, rather than race. If I'm Black, but I wish to call myself a "White Nationalist," you would probably not accept me as such, but if I were Anglo-mestizo, you might. Many non-Whites use KKK bedsheets & Hollywood Nazi regalia to 'pass themselves off as Whites.' Many Whites fear to be called "Nazis." My reaction to that is to ignore such hecklers, or to say: "If that makes you feel better, fine, but shut up so I can tell the people what they want to know." Your sneaky approach to White Power & the content of "Mein Kampf" will work only so long as a reader is not told by a ZOG-lover that he or she is reading "Nazi propaganda." As you say, why do the enemy a favor by covering the pages with big Swastikas? Unfortunately, Whites are feeling so guilty about being White that they may fear to read anything which even looks pro-White. As Commander Rockwell predicted: "Your skin is your uniform." I know that is true here in the Brownest Northwest, where the Mexicans call me "nuero" or White Man. In many places in the NW, a White stands out from the crowd. You'll see when you come out here, where the population that is not Black is Asian or part-Asian in the majority, i.e. "ZOG Whites."

As a White Nationalist, I do not wish to associate with Whites who want to be jews or jew-slaves (Christians); nor do I wish to associate with Whites who want to be Africans. I do not seek fellowship nor community amongst Amish or Mormons, who are freemasonic liars. Joseph Smith & his followers preach conversion to non-Whites, thereby making them "White." If you accept the Mormon definition of "White," then I'm sure I can offer you some offshore real estate at a 'nice' price. Many Whites are Mormons, but they have already sold out their race. Check out "The Mountain Meadows Massacre," in which White Mormons disguised as Indians murdered a wagon trainload of White pioneers. A White Nationalist community must be established by White Nationalists, first & foremost.

But what is a White Nationalist, any White? No, to be a White Nationalist you must have an agenda or program, as stated in The White Power Manifesto. With this instrument, a White can know if he is W.N. or not. It is conceivable that sufficient Whites who are in agreement with its objectives & principles could one day form a community. If we say "ORION!" we at least know that someone purports to be W.N. OR that he is a would be infiltrator. Ha!

You say, "I do not care about personal wealth!" but I gather from your statements which I can also cite that you intend to work within the jew capitalist system on behalf of accumulating wealth, but not for yourself, of course. I point out dangers merely to confirm that you are aware of them, & I understand your frustration, which is mine, also, for not being in a position to carry out your projects. I see that you have attempted to clarify just what meaning these projects may have toward the realization of White Nationalism, but as I say, "The times they are a-changing," so you may face quite a different 'ball game' when you get out of the ZOG-gulag. I make no absolute predictions, but use my perception of ongoing political/economic/demographic trends to guess at future conditions.

As I see it, our current lack is not money, but people with the right ideas. Your S.L. forum is good to get people thinking about important topics, whether they agree or not. My intention is to contribute thoughts based on my knowledge, for our mutual benefit. If I have stated something which is obvious to you, then allow me to say that I did not see such thoughts expressed in your writing. One must be explicit, or one runs the risk of others making implicit misinterpretations, as stem from such a statement as, "All men are created equal." I apologize for annoying you, which is not my intention. All the best. ORION!

Eric
