
Here's How To Control People

The difference between true education and vocational training has been cleverly blurred.

Here are a few tips on how very smart people can control other people. If any of this rings a bell—well, then, **Charley Reese** wake up.

Observations

by

Charley Reese

The first principle of people

control is not to let them know you are controlling them. If people know, this knowledge will breed resentment and possibly rebellion, which would then require brute force and terror—an old-fashioned, expensive and not 100 percent certain method of control.

It is easier than you think to control people indirectly, to manipulate them into thinking what you want them to think and doing what you want them to do.

One basic technique is to keep them ignorant. Educated people are not as easy to manipulate. Abolishing public education or restricting access to education would be the direct approach. That would spill the beans. The indirect approach is to control the education they do receive.

It's possible in our time to be a Ph.D., a doctor, a lawyer, a businessman, a journalist, or an accountant, just to name a few examples, and at the same time be an uneducated person. The difference between true education and vocational training has been cleverly blurred in our time so that we have people successfully practicing their vocations while at the same time being totally ignorant of the larger issues of the world in which they live.

The most obvious symptom is their absence of original thought. Ask them a question and they will end up reciting what someone else thinks or thought the answer is or was. What do they think? Well, they never thought about it. Their education consisted of learning how to use the library and cite sources.

That greatly simplifies things for the controller because with lots of money, university endowments, foundations, grants and

ownership of media, it's relatively easy to control who they will think of as authorities to cite in lieu of doing their own thinking.

Another technique is to keep them entertained. Roman emperors did stage circuses and gladiator contests because they didn't have television. We have television because we don't have circuses and gladiator contests. Either way, the purpose is to keep the people's minds focused on entertainment, sports, and peripheral political issues. That way you won't have to worry that they will ever figure out the real issues that allow you to control them.

Just as a truly educated person is difficult to control, so too is an economically independent person. Therefore you want to create conditions that will produce people who work for wages, since wage earners have little control over their economic destiny. You'll also want to control the monetary, credit and banking system. This will allow you to inflate the currency and make it next to impossible for wage-earners to accumulate capital. You can also cause periodic deflations to collapse the small businesses, family farms and entrepreneurs, including independent community banks.

To keep trade unions under control, you just promote a scheme that allows you to shift production jobs out of the country and bring back the products as imports (it's called free trade). This way you'll end up with no unions or docile unions.

Another technique is to buy both political parties so that afterward people will feel that no matter whether they vote for Candidate A or Candidate B, they will get the same policies. This will create great apathy and a belief that the political process is useless for effecting real change.

Pretty soon you will have a population that feels completely helpless, and thinks the bad things happening to them are nobody in particular's fault, just a result of global forces or evolution or some other disembodied abstract concept. If necessary, you can offer scapegoats.

Then you can bleed them dry without having to worry overly much that one of them will sneak into your house one night and cut your throat. If you do it right, they won't even know whose throat deserves cutting. □

Hail Tom! Thanks be to ZOG, you received my last letter. Do wonders never cease? The thing to remember is that you & your zoggies are not alone, nor are your local enemies of the U.S. Constitution exempt from worldwide publicity via the internet, which no doubt amuses the Red Chinese. They can use all U.S. violations of human rights when our ZOG cites them for similar violations. White man's magic!

Napoleon echoed Xenophon when he said that "The moral is to the material as 3 to 1" in battle. He also said that "God is on the side of the big battalions," so we may choose the saying that suits us at any particular moment. Remember: Look before you leap, & he who hesitates is lost. Absurdity/cognitive dissonance/oxymorons are tools ZOG uses to confuse us, so as to render us receptive to its destructive propaganda. Our minds are battlefields. The latest is: "Freedom is not free." This resembles Orwell's slogans in "Big Brother's" dictatorship described in "1984." The traitor, Woodrow Wilson, declared that we fought the First World War, not only to "make the world safe for democracy," but to "end wars." As a veteran, I tell sheeple that, either Wilson was lying, or we never fought any wars after 1918. The dazed expression I see on their faces indicates that they are under Hebrew hypnosis. Their minds cannot understand my words which bounce off their kosher cranial cocoons.

Zionist Occupation Governments have been around for thousands of years, at least since the Habiru Sagaz alias Hebrews alias Desert Cutthroats took control of money & thus trade in the ancient world. Banksterism & usury were their chief methods of subverting Goy (Gentile) kingdoms & peoples.

The pernicious inoculation of the disease called "Christianity" was the means of enslaving Goyim (Gentiles) mentally, as well as physically. The dictatorship of the Christian churches was something a Communist commissar could only dream about, for the period of church rule, known as The Dark Ages. The former USSR had nothing as totalitarian. Imagine a Soviet citizen going every Sunday to confess his 'sins' against The Party Line!

The War Against Whites goes on inside & outside ZOG's gulags. In The Protocols of the Learned Elders of Zion, it states: "Our countersign is Force & Make-believe... Violence must be the principle, & cunning the make-believe... for governments..." In my 'edjewcation' I was taught lots of make-believe in regard to the rules alleged to apply to this Zionist society. I was taught that I had certain 'rights' & 'duties' under ZOG. Little did I know that these were make-believe. I thought that I had the right & the duty to inform myself & others, but this illusion was banished when ZOG used force to seize my dissertation on USA-USSR involvement in Peru, in 1969, & then escorted me out of the country. I therefore learned more about Judeo-America than I would have, had my Zionist fantasy world remained undisturbed. I woke up, fast, & I had to unlearn much of my Zionist indoctrination alias edjewcation. I do not regret it one bit. Had the lesson cost me my life, I would still not regret it. Only a fool would enjoy living a lie. It is certain that lies are even more dangerous than the truth. Consider all the young Gentiles who've died in Zionist bankster wars over the centuries. In the jews' Babylonian Talmud it says: "A lie kills 3 persons; the one who tells the lie, the one who is lied about, & the one who believes the lie." So why do jews lie so much? Lying is kosher, as long as jews lie to Goyim (soulless cattle), i.e. us!

A rabbi remarked about "freedom" by asking, "Freedom for what?" Jews see us as mustangs which need to be rounded up & put to THEIR use. For us, freedom is deemed "a waste of natural resources." Goyim must be trained to work for Zionist goals of enrichment & world-rule alias The New World Order. Our job is to breed, obey & consume, just like livestock. Since wars are the jews' harvests, we are periodically herded into the kosher slaughterhouse of war. Make-believe makes us think we are serving 'high-minded principles', which are always Zionist propaganda. But Goyim usually heed such 'principles' when goaded by hunger, as young Gentiles were before World War II & now. Jewsmedia report that "Military recruitment goes up when the economy goes down." Such a deal!

In The Talmud it says: "The best of the Goyim should be killed." Since our ZOG is doing everything possible to destroy the White Race, we must be "the best of the Goyim." What a compliment, a very deadly compliment.

Thanks for the great essay on Death by Inertia. I shall forward it to THOR INK in hopes they will publish it. Strength through Joy to you! ORION!

Edie
