

3 DEC 08

Hail Brian! Thanks for your letter & enclosures of 24 NOV 08. Here are two items of recent vintage: (1) No reply, as yet, from Simon in the ZOG-gulag. (2) China's government wants its people to switch from Microsoft to "Red Flag Linux" for a fee or tax. The jewsradio commentator mumbled, but "Linux" was what he seemed to say. Obviously, if China's government does not like Microsoft, then Linux would be a possible alternative.

The U.S. Defense Dept. reported a massive hacking attack on its computers, with some penetration of their systems, according to our local jewspaper. The article blames the hacking on Russia, without offering proof.

It seems that these genetic "immunity" traits like Tay Sachs, sickle cell anemia & cystic fibrosis are worse than the infections they supposedly resist. It reminds me of the song about the woman who swallowed a spider to catch a fly she'd swallowed previously. "But no one knows why she swallowed the fly," is the chorus, as I recall. Sickle cell is prima facie evidence of Black genes, & it is carried by many so-called Greeks & Italians. It is supposed to combat malaria, to some extent, but by itself, sickle cell anemia is a chronic disease of the red blood cells which carry oxygen. Carriers of sickle cell do not perform well at high altitudes, since their blood is inefficient in carrying oxygen when the body most needs it.

You address the important "nativist" issue, which I encountered in Irish Boston in 1976, when I was attempting to build a base of support for the White Power Movement. I was invited to speak to a group in besieged (by ZOG's nigger infestation of schools) South Boston. The group I met were mainly Irish, with some other Whites, who championed "Shamrock Power." They wanted nothing to do with White Power. I pointed out that their area was confined to city limits. It was already impoverished, & its children were leaving for jobs elsewhere. I said that ZOG is obviously squeezing the district economically, & could afford to do so much longer than the "Southies" could withstand it, whereas White Power was portable, & they could find White comrades and Allies wherever they went with their creed, as I did. But no response. Their race-mixing Catholic church was happy to fill its offering plates with jew money from whosoever, but as long as their pedophile priest was Irish, they'd identify with 'their' church, as they do in Ireland. I note that the Catholic churches here shuffle their priests, so they can have hispanics to minister to their mainly hispano-mestizo congregations. Ostensible Whites also attend, so they will probably be the last Whites of their generation. Non-Whites want White women, but White women don't want White men, as I see in my public perambulations of Brownest Yakima. Our present claim to 'fame' is that we now have one of the highest crime rates in the USA. Naturally, the Protestants are getting into the race-mixing act, along with the Mormons, whose doctrine claims that conversion to their doctrine makes the convert "White." I see mestizo Mormon missionaries here, too.

I like the humor in "Ubuntu Linux," which is like using caveman language to describe high tech. I note the media jews' penchant for playing Afro jungle tunes to accompany White men's science achievements, such as space shuttles. I'd suggest they use Mozart et al. for those features & use the Afro stuff as background for jew items, along with their puppet, Obama. But we know that would be 'much too close' to home.

I wonder if Simon's incarceration will knock the FAEM website off the 'net. Out of the blue, I was contacted by a Washington State resident who claimed to be Simon's U.S. representative, so I should send Simon's mail to him. For over a year I did so, but when you notified me of Simon's arrest in the USA, I wrote to his alleged contact for word on Simon, but, no reply. I then wrote this 'contact' for a reply to my enquiry about Simon, or I'd cease my correspondence with the alleged contact. So far, no reply. Since his first letter, the 'contact' has never contacted me, so he may be a ZOG agent.

Hitler saw great architecture as an expression of a great people. The jew joke is that such grand structures are now aswamp with the mud-marauders of The Turd World. Perhaps they may become great mosques, like the Santa Sophia cathedral of Constantinople. The ugly Lutheran cathedral of Reykjavik looks like an attempt to build a Tower of Babel in Iceland. If it is a 'prayer in stone,' then it wishes for a very muddy Iceland, whose elected chief is married to a jewess. No place for Whitey, where he can be amongst his own kind, it seems.

I see the Red race-mixers are diligent in removing your posters. Obviously, they don't want to save Ireland, not for any people. Apparently, they want to replay the mob scenes from "The Armored Cruiser Potemkin" & "The Ten Days That Shook the World," without acknowledging the connection between kosher capitalism & kosher communism, which Bakunin warned about.

2) It seems that the enemy is the only group which takes notice of pro-Irish propaganda. The Irish masses don't want to know. The Nee-ists strike me as the blightwingers described by Commander Rockwell in the 1950s: The "meet, eat & retreat" crowd of babbling do-nothings. Some U.S. blighters capitalize on publishing "Look what they're doing to us now! Ain't it awful? Please send money." A mestizo blighter in Canada was so addicted to The Conspiracy of the Month Club that he did nothing (except spy for the ZOG), since the current conspiracy would be replaced, soon, by another, perhaps even more deadly & devious. There's nothing like entertainment to preclude activism.

Carto's Barnes Review featured a small item "from a Euro-Russian website," which I quote: "Russia is becoming increasingly Mongoloid. The total population of Russia is about 142 million, 100 thousand. Only 20 million are males active in business or involved in any official job. One million are in prison. Four million are alcoholics. Loss of population due to abortion is 2.5 times the loss of population during World War I, the Russian Civil War & World War II together. About 2% of the people have HIV (AIDS) infections. Russia has lost 35 million ethnic Russians in the last 12 years & still loses about 2 million per year. Meanwhile, about 8 million Mongoloids (mostly Chinese & Vietnamese) live in Russia. Currently, about 2 million arrive each year. Prognosis: Russia may have 40 million or more Asiatic citizens by the year 2020."

Yes, the Judeo-Irish of Britzdog-ruled Ireland have been a huge disservice to Irish survival, for which they should receive no thanks. And as we know, the Jewish interests they so gallantly served will not thank them, either, for Goyim merit no thanks.

Cyberspace is the battleground of the present, as well as the future. I was surprised to hear a jewsradio feature about the 3 Jews (count 'em) who thought up the universal Internet entry code, which consists of two sets of very large numbers. The feature alleged that the inadvertant revelation of either code number could allow a hacker to obtain the other number, hence to play hob with the Internet. Well, as a Goy, I concluded that the Jews hold the keys to the Internet, so they are already using it for their kosher purposes. You may correct me if I'm wrong, since I'm computer illiterate in regard to the fundamental bases of the system. I'm not dismayed, for if our money is in Jew hands, why not our communications et al.? Congratulations on your use of such information!

I'm struck by the obvious contradiction between Jainism's fanatic concern for all life forms, as I understand, & Peter Myers' belief that Jainism is the origin of all anti-life religions. Perhaps the Jains value all life forms except the human, for I've read that the true Jain prefers to starve himself to death, rather than curtail the life of any living entity, including plants. I guess that's what we may call "deadly logic."

It seems that nothing is more destructive than a traitor in place or an enemy agent, as Jews know so very well. The purloined British National Party's mailing list is no big loss, as we know, since the BNP is kosher. Probably many members listed are ZOG agents themselves, especially those who work in ZOG enforcement jobs. ZOG's muscle-minions, i.e. police are very paranoid about their addresses, since they are part of ZOG's armed occupation forces, rather than members of the community whom they purportedly 'protect.' I find it hard to feel sorry for a zoggie, as you might suspect. They get their Jew money & they must take their chances, if they aren't already in the pay of local druglords.

In many respects, we are in similar positions of isolation, with our correspondents far away by snail-mail & E-mail. If the live-brained Poles retreat to Poland, leaving you alone with the brain-dead Irish White niggers, you might consider departing with them, for better use of your activism. The politician should go where his people are, & where the action is.

Nevertheless, Ireland will find White Nationalism relevant amid its own demographic changes. The Reds are not Irish Nationalists, but they seem relevant to Irish nationals, so why not the same for White Nationalists? There is a Red International, so why not a White International? Wherever I've worked, I'm always a White Nationalist, as I've been in Rhodesia, Canada & USA, where I encounter the same petty statist & egotist as you've encountered, along with the Reds. Red, by the way, is the Rothschild color. As I understand, the red rags of revolution were not apparent until Meyer Amschel Rothschild made his first fortune in Frankfurt around 1770. During the Judeo-British Empire, its territory was colored red or dark pink on world maps. Later, red was the color denoting the Rothschilds' Soviet Empire. As a professor said, "There are no big secrets." That's because they are 'hidden' in plain sight. The minds of the Goy viewers are blocked by jewsmedia-prop. ORION!
