

10 JAN09

Dear Phil: Thanks for your letter of 5 JAN 09 & the great Int'l Forecaster, which tells it as it is without esoteric jargon, so Goyim can learn more easily! As I review U.S. history, I see it as a land of racketeering & a sump into which we surplus Goyim were dumped by the wealthy plutocrats to avoid unrest in their slave-farms, for the jews' fun & profit. As one writer observed, the Brits dumped their religious fanatics into America & their honest convicts into Australia. It is obvious that our masters did not have Whites' interests in mind, since they have killed us off in so many wars, for their power & profit. Now, they want to rule the world more openly & more fully, so they have earmarked us for extinction, & we are going right along with it, as usual. Yes, we are really two-legged cattle, & Christian sheep. But is this not the fate we deserve? It is said that "people get the governments they deserve" & that "tyranny exists when it is tolerated." With our goals (OINK!) & our attitudes (DUH!), how could it be otherwise? I'm reminded of a Brit comedy film, "I'm All Right, Jack," which was about ruthless selfishness, in which the most selfish & most ruthless exploit the majority who are merely less so. The young protagonist starts out with idealism: He wants to do something to benefit his society, which he tells his uncle who lives in an insane asylum for upperclass types with inherited wealth. It is an earthly paradise, with parklike grounds, palatial manor houses & attractive 'nurses' who play tennis or 'other things' with the inmates. The uncle tells the idealistic young man that, eventually he will choose his uncle's way of life in this society. After experiencing British workingclass society, with crooked bosses & equally crooked labor unions, the young man enters the asylum. Happy ending!

In reality, Britain's bosses chose to replace British workers with foreign labor, as we experience in the USA, from mestizoland. Then, the bosses went globalist, & moved their factories overseas where labor was much cheaper, & free from existing British regulation. Now, the former White workers are "surplus to requirements," as are the Paki imports who seem to thrive on tax-payers' 'dole' or welfare payments, as did the Roman mob which was provided with "bread & circuses."

Since the USA was a Rothschild racket to begin with, we should not be too surprised to know that the rackets have intensified, as with "Social Security" & deficit-spending, ad infinitum. It's good for the I.F. to report on the ongoing scam, which followed our corrupt & stupid Congress' approval of the jews' Federal Reserve & Income Tax Act under the criminal Woodrow Wilson, whose immorality led him to be blackmailed by Samuel Untermyer & Company.

Once the jew banksters had power to create U.S. currency, their economic 'depression' followed. Previous to that, these jew banksters engineered 'panics', which worked to profit them from manipulating the money supply, only on a much smaller basis. Jew Milton Friedman admitted that the 1930s Depression was 'created' by the Federal Reserve, since Goyim can't comprehend that for themselves, as a rule. Goyim are taught not to think. When I said to a jew economics prof. in university that money-creation is not a function of sunspots or the weather, since money is created by men who are authorized to do so, & whose names are known: The jew-prof. raged at me that he "will not permit 'conspiracy theories' in this class." I promptly changed my major from Economics to Latin American Studies, for I could see that my grade in that course would be low. I noted that I worked hardest to obtain the lowest grades, & I enjoyed working to achieve my highest grades. The longer I stayed in school, the easier & higher my grades were to obtain, since they were assisted by my non-academic experience.

Yes, The Federal Reserve is a pyramid or Ponzi scheme, as interest accrues on 'money' created out of nothing, which simultaneously creates an ever-increasing debt, which is passed onto future generations of Goy slaves, by 'our' ZOG. War is slavery, for it creates debt.

After the jew Fed caused the depression's unemployment, "Social Security" was touted as a way to open jobs up to young people, by phasing out the geezer-workers. In the 'good old days,' one worked & possibly saved for old age, or one could work 'til he dropped, as many did. There were poorhouses & private charities to prop up those who fell, but did not die, but The Great Depression wiped out jobs, savings & thus eroded family & private charity. A geezer would therefore work, if his job lasted, rather than leave his employment to become cold & hungry, as well as old.

Young, jobless men were a potential source of unrest, perhaps even revolution, as was noticed after World War I, when the war no longer absorbed the 'surplus' Goyim, & released them after it officially ended. This happened in the USA & elsewhere after WW II. Jewsmidia say that our current jobless percentage is like that of 1945, after that war officially ended. Naturally, ZOG has many ploys by which to herd such loose Goyim, such as the American Legion, which was designed to depoliticize veterans, & the G.I. BILL.

Unlike Goyim, our jew masters learn from experience, by using us as guinea pigs. What they have learned is reflected by what we see around us, such as lots of non-Whites, from many cultures: An adulteration & Babelization of society. The masters' policy of divide & rule by social classes was not sufficient for them. Now they want division on the bases of race, as well as class. Naturally, this policy will increase conflict & this will intensify as living space & means of living become crowded. As jew-thug J.P. Morgan said: "One half will be hired to shoot the other half." As long as jews & their Zionist stooges can get Goyim to kill Goyim, the jews will have additional opportunities for power & profit.

The tax-paying Goyim are the jews' milkcows whose taxes keep them weak & enslaved, & also go to empower & enrich the jews. Such a deal! So what is to be done with the 'surplus' Goyim, alias the "useless eaters?" The medical racket is involved in death-for-profit, like the tobacco industry, so it is best avoided, especially its pharmaceutical poisons, which are similar to heroin laced with arsenic, in which the patient is killed gradually, at a profit, unlike those invited to a Jonestown Cool-Aid party, in which death is quick. If evil were ever admirable, we could at least be impressed by the calculation & insidious subtlety of our criminal masters, who ^{se}prescriptions are masterpieces of murder, for which the victims pay, even if they are healthy tax-payers. We truly live in a vampire economy, of big & little vampires.

Economist Werner Sombart described the USA as "the distilled essence of Judaism," & Karl Marx equated Judaism with capitalism in a cogent essay, which was republished by my friend, Thies Christophersen, of Auschwitz. Zionist Occupied Germany moved to persecute Thies under its Judeo-thoughtcrime laws, but when they discovered the author of the thoughtcrime was Marx himself, they hushed it up. Words from Marx are like words from Yahweh himself. Oy veh!

Since Judeo-Americans, as I call us, accept the major premise of personal profit above all, we can hardly deal with those who succeed in realizing what we are too timid &/or incompetent to achieve ourselves. H.L. Mencken observed that "Every American lives for the day in which he can steal something." That's why he thought we would not become Marxists, despite the fact that we practice it, for others' power & profit, at our expense. We need not become Marxists, as long as we are Christians who believe in giving our land to those who've ruined their lands, so they can ruin ours! As long as we treat Problem-Makers as worthy of existence, at our or others' expense, we shall continue to feed so they can breed, to overwhelm us, as happened to the Whites in Rhodesia & South Africa. The Brits had some adage which warned against "feeding the tiger," but they did not heed it in their Christinsanity. The jews who invented Christinsanity for Goyim know that there can be no Big Sky-Jew Rescue for White sheeple, wishful-thinking to the contrary. And for those sheeple who do not subscribe to religion as "the opiate of the masses," the jews offer us real opiates for our addiction. By consumption they preclude us from thinking.

Machiavelli wrote a comical play entitled "La Mandragola" (The Mandrake Root), which is reputedly an aphrodisiac akin to Viagra et al. The theme of this clever farce is duplicity, in which, as I recall, there is an old man with a young wife, who has a young lover. As I recall, most everyone in the play is duped by another, so they all live happily ever after! Ibsen also addressed the theme of illusion in his play, "The Wild Duck," in which he posits the alleged inability of people to live without illusions of some sort. I think it would have been interesting to have conversed with such thinkers, who make quite a list over the centuries.

I read Machiavelli's complete works with the idea of writing a master's thesis thereon, but I found F.S.C. Northrop's works more timely. His thesis was to achieve "Universal Morality" based on "What IS." He posited that, if we could agree on what is, we could then agree on what OUGHT to be & what we ought to do. My thesis was illustrative of facts that we don't agree on what IS, according to anthropological findings, & even Western scientists don't agree, citing C.P. Snow's "Two Worlds." Poor Northrop. As I recall, he wrote 7 or so volumes on behalf of his philosophy, which I confuted, to my satisfaction, in 207 typed pages. So where does this leave us? Where we began, of course. If there is barely bread for one, is it*

Some have questioned if man is a viable life-form. My view is that man or any other life form is viable, as long as there are not too many. The bacteria which produce alcohol in a container of sugars & starches die from their waste product, alcohol, when they reach a percentage of, I think, 12% or 24 proof. Hence, it is necessary to distill alcohol to reach a higher concentration, since the alcohol-producers are dead of their own production. DOWZ!

ORION!

*MY bread or YOUR bread?
