Hail Braxton! Many thanks for your letter of recent mailing. Neither your letter was dated, nor did the zoggies cancel the stamp, so I don't know when you wrote it, nor how long it took to get here. I advise you date your letters so we can find out if one went missing from our correspondence. I can ask you if you received letter dated so & so, for example, & you can ask me the same. If I didn't get it, I could not reply. You could ask me if I got it, & I can look in my file, which would have several letters from you, but with no date, I would not know to which letter you referred. Dates save hassle & delays. That's why people use them.

Thomas Jefferson said it about Christinsanity, but his words apply equally to "Xtian Idiocy:" "One must either be a fool or a fraud." Most of COTC activities teach Whites nothing useful. Why study Latin when we need to learn good English? Why worship anti-White Rome? Why not learn about the enemy, so we can defend ourselves? One must read The Protocols of the Learned Elders of Zion in order to know our enemy & what he has in store for us. Thus, COTC content wastes the White man's time, which ZOG loves.

We all like to be members of a community, for humans are gregarious, that is, we like community & company, as do all mammals, birds & fish. But we must understand what it means to join a group, especially when we do not know its members, aside from correspondence, which is often misleading. We must consider what the group offers us, & what it wants from us. Most groups exploit their members, i.e. they take more than they give in return. Labels which say that a group stands for such & such are often camouflage for hidden agendas, as I've seen in my experience in such groups. Infiltrators may sabotage the members' efforts & get a bad reputation for the group. I've seen infiltrators destroy organizations by bringing the ZOG down on them, & I've seen groups founded & led by zoggies from the beginning. It is hard to distinguish the 'useful idiots' who do the ZOG's work out of ignorance from the zoggies who are paid to do ZOG's work. Even in my experience, the list of such 'movement' specimens is long. Most groups are extensions of someone's ego, so their message is in two parts: "Me-me-me" & "Gimme-gimme-gimme!" These groups make zogbucks for their Pontifex, Pope, Chairman or Lord High Mucky-Muck, & that's about all. Members can buy videos, audios & publications to learn of his greatness, on behalf of his bankroll, without learning the survival skills they need to know. My rule is to participate in worthwhile activities, while maintaining my independence. My leadership job is to help Whites become "political soldiers." The Chinese say of leaders: "There is the leader who coerces & the leader who inspires, but the best leader is one who teaches, for his followers can say, 'See, we did it ourselves!'" If we know what to do, we need no leader & no organization, unless a team effort is required; but with the knowledge, we'd know when we needed more than one for a job, & we'd know when to pitch in. We don't need 'lone wolves' who are useful idiots for ZOG. We need education to purge our edjewcation.

Congratulations on reading Sun Tzu, whose ancient little book I also found truly excellent & enjoyable. The Protocols is concentrated meat for the mind of the reader. I wanted the members of one ego-group to know for themselves what to do, without specific orders from Mr. Me-me-me, so I taught The Protocols in a cell seminar, until the zoggie infiltrator destroyed the entire group, thanks to the mis-Leader's ego. We'd read out loud one Protocol in our weekly meeting. If an attendee did not understand something, I'd explain it until the passage had been read. Then we'd discuss it. If further research were needed, one attendee would agree to look up the topic & report. This teaching would be valuable today & tomorrow.

The Protocols are short, so if your zoggies would permit, I can send you pages until you have the whole thing. As I say, it's highly concentrated food for thought & discussion. They were written around 1896, I suspect, by Zionist leader Theodor Herzl, whose book, "The Jewish State," was funded & published by the Rothschild banksters, around the time of the Dreyfus Scandal in France, early in the 20th century. For an alleged "forgery," The Protocols are very accurate & predictive. We can call a \$1 bill "a forgery," too, but if it looks like a dollar & spends like a dollar, it's as good as a 'real' dollar bill. Like you, I'd be most surprised if Hitler hadn't read them, for many others, including Henry Ford, did! He spent real money to find out if they were true. When a reporter asked him, Ford said, "They fit the facts." In The Protocols it says how the enemy will use entertainment & control of the media to distract "the Goyim" from real concerns, in addition to drugging them with booze, so as to keep them confused.

wisdom often leads to disaster. In jiu jitsu & jew jitsu, the opponent's strength is used against him, as the Israeli Mossad uses Moslem suicide bombers on its behalf. As one 'spook' said: "You never know who you are working for in special ops." At least, one should know he is working to achieve something he wants, by knowing that much about the op. I suspect that Timothy McVeigh THOUGHT he was working against the ZOG, when he was really working FOR it. He must have been surprised to see his van explode, & then see The Murrah Building do likewise, just as some Goyim were surprised when Trade Tower #7 imploded, without being struck by an aircraft! My rule of thumb for special ops is: Who benefits? rather than who did it?

Those who trust the ZOG are consumed by it, so Goyim beware! Radical situations require radical solutions. If your house is on fire, it is absurd to complain that the firemen got water all over your carpet.

One's family members are often sheeple. My Mom thought I was crazy & my Dad thought I was with the CIA. Neither was right. Knowledge can be tested for validity. If my facts are correct, then I can predict certain events, or not be surprised when they conform to the facts I know. In 1968 I determined that The Kosher Cold War was an Orwellian hoax. One proof was when former Soviet Jewnion Stasi & KGB heads went to work for Chertoff's Homeland Security. The jew, Markus Wolf, head of the East German Stasi, kicked me out of East Germany in 1969. The U.S. State Dept. classified Wolf & former KGB chief Primakov as "terrorists," so they're just the ones to work in "Homeland Security." One U.S. citizen asked why our ZOG had chosen a Nazi name for a department of U.S. security. Why "Heimat Sicherheit," alias "Homeland Security?" We live in the USA, not "Homeland!" I say that the name is likely in preparation for the ZOG's North American Union of Canada, USA, Mexico & Central America. That way they needn't change their nameplate, nor their stationery when the USA dissolves into the NAU, with its new currency, the amero. Bush & Obama are self-declared globalists, so the USA could fade away, fast. The economic & demographic foundations are in place for union, so the political union will be a mere formality. Stay tuned! (Same bat time; same bat station.)

Knowledge obliges one at least to pass it on, on behalf of one's people, as I would for the children I never had, thanks be to ZOG. I am privileged to know what I know, & still be alive to transmit it, in hopes that my people will use it. I don't see our struggle as hopeless, but if it is, I'm just too angry to give up. As my old Luftwaffe friend, Col. Rudel, would say: "You only lose if you, yourself, give up." By not giving up, I get a boost of life & vigor, even in Brownest Yakima. My Cause is not hard for me, but I'd like to make it hard on the ZOG. If I can shed some light on the path ahead, I'll be happy.

I can't predict exact times of major events, but I can see trends & possibilities, for there are no BIG secrets. Apparently, our Israeli masters want World War III to begin with the bombing of Iran. Perhaps this is why FEDZOGUSA is pulling its slave-thugs out of Iraq, ostensibly to fight in Afghanistan. Our Zionist (jew-supremacist) version of Rome must fail in this region because it wants slaves. As long as there are Afghans, they will fight us, as they have fought all invaders for centuries. One correspondent asked me for a summary of invaders of Afghanistan. I said: They came; they saw; they conked out. Economist Werner Sombart wrote that "Wars are the jews' harvests." In the last century, even Goyim could see the kosher connection between economic crises & wars. Even newspapers say: "When the economy is down, military recruitment goes up!" as I read last week.

I heard an excellent speech by Black Muslim leader, Louis Farrakhan, recently. He spoke of the wickedness of bankers who promoted wars for their profits. The thought of the millions of innocent, brave victims of World War I, even White victims, brought him to tears. If only White men could understand & make such speeches as Farrakhan! I see the Blacks' struggle not so much against Whites or vice versa, as our universal struggle against Zionist banker domination. That is why I support The Anti-Zionist Alliance, which shares information & ideas. La Voz de Aztlan suggested a diamond boycott, & I suggested a kosher food tax protest. Allies are not us, but we need allies for our victory!

We have a 5-step program: (1) The Idea of White Nationalism; (2) The Information about it; (3) The Organization for it; (4) The Action to achieve: (5) The Realization of the Idea.

Yes, DOWNZ = Down With ZOG! ORION! = Our Race Is Our Nation! The key to combat ZOG is to stay debt-free, for "the one ring to rule them all, & in the darkness bind them" is CREDIT alias DEBT.

Inflation is theft. Deflation is sabotage. Usury (interest) is slavery, & knowledge is strength. Strength through Joy to you. ORION!
