

# Feds watching anti-immigrant extremists

## Authorities see tensions rising as groups grow

By Kevin Johnson  
USA TODAY

Carl D. Wynn Jr., who last fall posed as a U.S. border agent and wrongly suggested that a Little Rock construction company had hired illegal immigrants, has come to symbolize how the divisive immigration debate can progress from legal expressions of opposition to offensive action.

Wynn, also accused of attempting to sabotage the same company by planting tire-ripping spikes outside the business, has quickly come to represent a "troubling" development within the radical ranks of the anti-immigration movement, said Little Rock U.S. Attorney Tim Griffin, whose office won a guilty plea last month from the laborer.

Since 2000, the number of extremist groups has increased by 40%, according to the Southern

Poverty Law Center, which closely tracks the groups' activities. In the past two years, the growth has been largely driven by the emergence of about 144 "nativist" groups that oppose immigration.

"When folks try to take law enforcement matters into their own hands, it creates a potentially dangerous situation," Griffin said. "Mr. Wynn's actions are troubling to us."

Charles Frahm, FBI deputy assistant director for counterterrorism, said there is increasing concern that the most radical elements of the anti-immigration wing may be "susceptible" to recruitment by white supremacists and other groups inclined toward violence.

Police departments across the country also are uneasy as political divisions regarding immigration enforcement have raised local tensions.

"This is certainly a concern for every police chief in the country," said Charlotte-Mecklenburg, N.C. Police Chief Darrel Stephens, president of the national Major City Chiefs Association. "As long as the issue remains unsettled, the tension grows."

Perhaps not since the anti-government militia movement came to prominence in the early 1990s, the Southern Poverty Law Center says, have so many groups embraced such a common campaign for dealing with what they describe as failed government policy.

"The infection is spreading," said Mark Potok, editor of the center's Intelligence Report.

"It's no longer unusual to hear vilifying fairy tales of immigrant-borne secret conspiracies and massive criminality on radio, cable television and even in the mouths of pandering politicians," he said.

Among the most abrasive figures on the anti-immigration movement, according to the center, is Donald Pauly of Nevada.

In an interview with USA TODAY, Pauly's voice is calm but serious.

Frustrated by the surge of illegal immigrants into Las Vegas, the self-employed electrical engineer formed the Emigration Party of Nevada Headquartered largely on the Internet, Pauly has advanced some radical ideas for dealing with illegal immigrants. He openly advocates the deployment of government

snipers to the porous southwest border and favors the forced sterilization of Mexican women after the birth of their first child.

"For the time being, we do not associate with anyone who is violent unless in self-defense," Pauly said in a later e-mail message. "However, I remind you of this quote of Thomas Jefferson's:

"The tree of Liberty must be refreshed from time to time with the blood of patriots & tyrants. It is its natural manure."

The radical discourse has become increasingly common across the USA.

Last year, an Arizona jury leveled a judgment of nearly \$100,000 against a rancher for threatening a Mexican-American family.

Prior to the court decision, the rancher, Roger Barnett, gained national attention for his efforts to round up illegal immigrants who had cut paths through his property.

"There is not a clear understanding (among the public) of who is ultimately responsible for enforcing immigration laws," Stephens said. "The tension will only increase until the issue is resolved."

## Say no to amnesty

To the editor — During the 1970s and '80s, our government officials and economic leaders insisted we reduce family size to prevent environmental degradation, depleting natural resources and a lower quality of life. We complied.

The following information is obtained from <http://www.numbersusa.com/overpopulation/ourlostfuture.html>

Today, the government tells us we need more immigrant population to fund the baby boom generation during retirement. So, either they are lying now, or they were lying then. Since the 1965 immigration act, we have increased our population by 50 percent, mostly from immigration, while ancestors of our Founding Fathers are dying off, realizing children are unaffordable unless you are wealthy or on welfare.

We have major water shortages in the United States, yet still more

immigrants come, as our government demands more conservation from U.S. citizens. The United States has the third largest population in the world, next only to China and India; what they have in common is poverty.

These same officials insist immigrants are doing jobs we won't do, which is false; we can't do these jobs for less than livable wages. The government explains how immigrants will finance SSI and Medicare for U.S. retirees, yet immigrants spend \$1 in taxes for every \$3 they receive in social services, according to <http://www.washingtontimes.com/national/20070405-123141-6880r.htm>

Our government is corrupt and must be replaced. Until then, go to [www.numbersusa.com](http://www.numbersusa.com) where you can e-mail free pre-written faxes to our leaders condemning their proposed amnesty, lest they be voted out of office. Do your patriotic duty, or live in the squalor you will have created by doing nothing.

USA TODAY 5-21-07

7 MAR 09

Dear Tom: Thanks for your letter of 2 MAR 09, with the American demographic history of White displacement from rural areas, as described in The Protocols. Those who grow their own food are independent, as no others can be. Jews hate independence, for their domination & parasitism thrive on their role as middlemen, not as producers of goods & services which contribute to human life & wellbeing. Yes, it appears that we are repeating the errors of Rome with our company latifundias or agribusinesses which employ the modern equivalent of slaves. From what I've seen locally & read via the jewsmedia, our food production is mainly in the hands of hispano-mestizos & imported Blacks, who've messed their nests in Africa. White farm families no longer supply ZOG with legionaries, so our Zionist version of Rome also relies on aliens to fill their ranks on behalf of perpetual war for perpetual profit for the very few. As former U.S. Marine Corps general Smedley Butler declared: "War's a racket!" A racket he defined as any enterprise which benefits the few at the expense of the many.

My role as neo-Roman citizen is as a member of the mob which consumes the emperor's bread & strives to avoid his circuses via the jewsmedia.

Our jewish problem is much worse than that of Germany, as you say, for there are many more of them here, in positions of power & influence. Hence, it is no wonder that they are visiting the vicious vexations of Weimar upon us, as is their nature. Jews are obviously insane, since they want us all dead, but also enslaved. If they enslave us to death, who will do their work? So far, their chief profit comes from lending Goyim the money with which to kill Goyim, so if they get their biblical wish, there will be no Goyim. Then the jews will have to exploit their "lesser brethren," as they say in their writings. I'm glad I'm not a jew, & that I've largely avoided their exploitation via the ZOG. I'm just sorry for Whites who don't want to know what their situation is & why.

I agree that the article on the economy by Nevin was both 'nice' & also missed the fact of physical deterioration of our living space. How can one say 'nicely' that our house is on fire, so as not to disturb us into taking relevant action? I agree that the jews' manipulation of symbolic wealth has been used to deprive us of real wealth which we, ourselves, have produced. But the jews' policy of filling our precious living space with alien pollution has indeed polluted & depleted our environment, while depriving us of our livelihoods. Signs of decay & increasing squalor abound. Turd World is as Turd World does, from whence the jews themselves come. I see a tendency to recreate one's previous environment which reflects the cultural values of a people. I was struck by the resemblance of parkland estates in Kentucky with parkland estates in England, just as I'm unfavorably impressed with Mexican barrio recreation here: The neglect of houses & yards which are littered with trash & cars parked on to the sidewalks. But those are merely outward signs of mestizo culture. The hostility to Gringos, the swarming spicklettes & the growing violence of gang warfare, theft & robberies indicate the inner nature of the brown invaders. If the Whites ever need an epitaph, I think the most accurate one would be: "We did it to ourselves." My question is, why?

Hitler was indeed infatuated with the Brits. Apparently, he did not know how jewish they really are, in terms of interbreeding & values. Napoleon wasn't kidding when he described them as "perfidious Albion." There is a Freemasonic sliminess which seems to come naturally, as insincerity expressed with servile hypocrisy. Judeo-British propaganda accused the Nazis of using "euphemisms" to cloak "fiendish" policies, which proved not to be fiendish at all, once the truth is learned about "The Final Solution" et al. In this sense, the Judeo-Brits projected their mentality upon their German targets, for those who accused the Germans were guilty of monstrous hypocrisy on behalf of truly vicious policies, toward their own people, as well as others. The Judeo-Brits speak with forked tongues, as well as oily ones.

Had Hitler been Brit-wise as he was jew-wise, he'd have captured the Brits at Dunkirk. Then he would have announced that "We are presently detaining a number of your tourists, & we should like to make arrangements for their eventual repatriation." That would have been proper Britspeak, as well as practical policy: Nothing for nothing. Call off your jewish war, or you will see them no more. Hitler obviously thought that his goodwill gesture would succeed with the Judeo-Brits who despised him as a sucker. That's called Judeo-British 'gratitude.' Napoleon knew what Hitler refused to acknowledge about Judeo-British ways & objectives. That was too bad for the White Race, as we know now.

The chilling words of Lord Palmerston come to mind, that "We have no perpetual allies nor enemies; only perpetual interests." Yes, but whose interests? ZOG only knows.

DOWZ! ORION!
