

Welcome to the first and only website devoted to the original Buddhist sources of the New Testament Gospels

The 27 books of the New Testament, as known, constitute the fundamental holy scripture of Christianity.

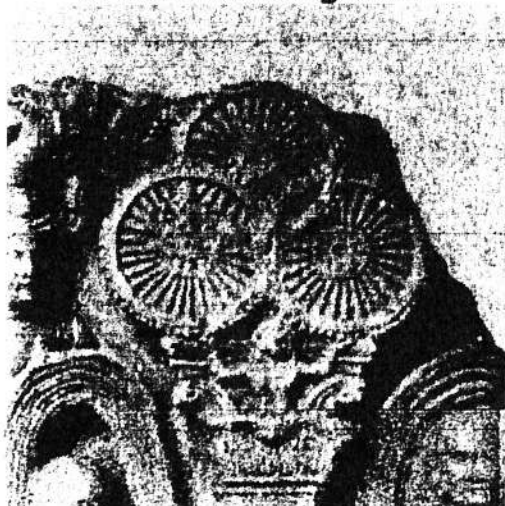

Without the four Gospels according to Matthew, to Mark, to Luke and to John, Christianity is virtually null and void.

Recent epoch-making discoveries of old Sanskrit manuscripts in Central Asia and Kashmir provide decisive proof that the four Greek Gospels have been translated directly from the Sanskrit.

A careful comparison, word by word, sentence by sentence shows that the Christian Gospels are Pirate-copies of the Buddhist Gospels. God's word, therefore, is originally Buddha's word.

Comparison reveals that there is no person, no event, no locality mentioned in the four Christian Gospels not already present in the Buddhist Gospels that, for sure, are far earlier in time than their Christian copies.

Hail Michael! Thanks for your mailings of 5 & 15 MAR 09. I shall follow your instructions in regard to copies, forwarding, archiving & return to you of originals. I'm glad to read that Susan is on board. No appearance of Ulysses as yet.

In regard to photocopies, I warn against the "artsy-fartsy" use of colors, as those used on the WAU & Libra fliers. Sober up! Just because a computer has colors which can be used is no justification that they should be used. Photocopies are much cheaper than computer printers, especially if one does not have such a printer. Hence, the Aryan Way is to assure copiability & legibility, rather than esoteric esthetic frivolity. Pale shades of blue, faded grey-green, dark reds, &c. are usually in defiance of legibility, so black text on white background is best, albeit old-fashioned, for those who want to read the message, rather than partake of some arcane visual experience. Please pass it on. If I see a need to send this material to worthy P.O.W.s, I shall do so, but with these originals, we may need lots of luck, ZOG willing. The affordable photocopies are black & white, so the use of colored originals is dodgy at best & illegible at worst.

One looks at history & wonders what religion ever did to preserve racial purity. History shows that it did not. The Hindu Code of Manu is as vehement as the 7th Commandment against adultery (race-mixing). Yet, those who purport to believe & practice Indo-Aryan &/or Semitic religions are mainly products of adultery themselves, as is evident in India & Zionist Occupied Palestine alias Israel. The Khazar converts to Judaism, the Ashken-nazi jews, are Afro-Eurasians, according to DNA testing, i.e. tri-racial mongrels doomed to jew hell for breaking the 7th Commandment. Such writers & observers as Cox & Pendell note that commandments & promises fade under the heat of lust, like snowmen in summer. Physical separation is necessary for racial preservation, whereas religions are just illusions, like an alcoholic's resolution of sobriety, until the next drink.

We must learn to appreciate the value of racial purity, rather than attempt to scare Goyim with angry Sky-Jews, flaming hells, or icy ones, & offers of prospective Heavenly Pie in the Sweet Bye & Bye. Consider that many Goyim take chances on disease & other disasters for the fleeting pleasure of sex, even when they know the risks. All too often, knowledge does not affect behavior.

The abuse of language is the origin of tyranny, quoth Orwell. "Adultery" in its original Hebrew had many meanings, but the foremost of them was race-mixing, i.e. adulteration of purity with something impure. Christ-eaters lie, among many things, that "adultery" means sex between people married to other people. Yet, the Old Testament also forbids fornication (sex outside of marriage) & covetting another's donkey &/or spouse. The current use of the term, "adulteration" points to the truth & belies the religious liars-for-hire alias preachers-for-profit. P.S.: W. Supremacist is an enemy term which you must always explain. WN's best. I'm not infuriated by Error with an Ax to Grind, as long as I can defend myself against its enslavement. You are absolutely wrong about your cult conforming with science. As for exegesis, science (archeology & history) indicate that the Old Testament is a fraud. That, combined with the New Testament, is a contradiction, along with Christinanity's denial of the 7th Commandment in its true meaning.

Religion is not the only topic subject to Orwellian distortion. The jew, Boas, replaced Nation as People with "nation as place." Goyim call the USA a "democracy," but our Founding Felons wrote that "democracy is mob-rule." Democracy = Majority Rule, or it is anything but democracy. The Founding Felons believed that voters must have property to vote. This is not democracy, but plutocracy, rule of the rich. Being lawyers, pronounced "liars," they called it a "republic," based on the plutocratic Roman model. We aped Rome, & now we reap the results of our monkey business, including its fruits & nuts. If we were a democracy, we could have voted by popular ballot, for or against The North American Free Trade Agreement, which jew Labor Secretary Reich giggled, "Would adversely affect 80% of the American people, but 20% should do all right." Any policy which affects 80% of the electorate should be voted on by that electorate. But the USA was never a democracy, no matter how often that lie is repeated by political prostitutes & their paymasters.

I'm sorry to learn that you have been classed as a "syncretist" or (gasp!) heretic by the Yahweh-yammerers. I'm glad they don't, yet, have an Inquisition, although I'm sure they would like to have one. Yahweh, or those who purport to write in his name, enjoy inflicting pain upon others, for that is a mitzvah or divine obligation. "Enjoy!" as the jews say.

Under German National Socialism, the natural superseded the supernatural: Rewards & punishments were temporal, not celestial, with conclusive criteria, rather than conjecture based on eclectic exegesis. All the best. DOWZ! ORION!
