Hail Braxton! Thanks for yours of recent vintage. In regard to my deportation from the USA I was not told what I'd actually done to offend the zoggies. My 'FIB' flunkies told me that "Someone in DC (the District of Corruption) doesn't like you." At least one of those "someones" was Nelson Rockefeller alias Wreckafeller, whose refinery scam I discovered in Peru. The ZOG's Peruvian puppet government under military junta premier Montagne, who I interviewed in 1969, was touted as a "Nationalist," that is, pro-Peruvian government. My research revealed that it was anything but. In fact, the Peruvian government of that era was practicing political & economic treason against its people, by exporting jobs & natural resources while incurring massive debts for foreign technology, thereby causing the Peruvian poor to multiply as a percentage of the population. This trend sparked the Sendero Luminoso or Shining Path, Maoist insurgents, led by a jew whose Spanish name I currently forget.

My theme in my research was to determine how the Peruvian regime stood in regard to the wellbeing of its people, & how it was dealing with problems of development. Naturally, I had notes to the effect that (1) The Peruvian government was NOT pro-Peruvian & (2) It was creating underdevelopment in the country, exactly as our ZOG is doing to the Jewnited States sheeple. That's why FEDZOGUSA stole my progressing doctoral dissertation at gunpoint in L.A. International Airport upon my return to the USA, on the bogus invitation of a professor in my faculty of International Relations in 1969.

Obviously, I was on to other important matters, such as The Kosher Cold War Hoax & the collusion in Latin America between the USA-USSR racket, on behalf of jew global banksterism. The Rockefellers are jews, by the way, so I was perceived as a threat to their international interests, unlike the journalist who exposed Nelson's refinery scam in Harpers' Magazine, & unlike the jew, Noam Chomsky, who expanded on my thesis in his book, "The Washington Connection & Third World Fascism." Chomsky omitted the connection between the Jewnited States & Israel, of course, but it's a book I recommend for beginners, along with "A Century of War," by Engdahl.

In 1982, my Interpol contact told me I could return to the USA whenever I wished, because "They are all dead." "They" were those "someones" in DC. So when my job in Soviet Canuckistan alias Canada alias China-duh ended, I got a gardening job in Louisville, KY, on a minimum wage, part-time basis, as all of my Jewnited States jobs have been, until my last one departed for India. Why gardening, when I'm tri-lingual, educated & experienced? Well, I'm blacklisted by the kosher academic racket, so my jew interviews at universities were unsuccessful. My chief handicap is that I'm a White male, & I'm jew-wise enough to be diplomatic. But most hiring jews can guess my knowledge after perusing my resume, as did my last jew railroad executive who scanned my job experience & tossed it back to me, saying, "I don't hire CIA." I replied, "Would you prefer KGB?"

Unlike Louisville, where the rich jews employed Whites at menial jobs, this area hires only non-Whites in gardening & agriculture. That's why I was going broke here in Brownest Yakima, because I was a White male without physical or mental disabilities. If I had been so 'blessed,' I could have applied for S.S.I., as local jews have done, so they can live off the Goy fatheads of the land with their jew doctor's certificates of incompetence, like the ones I know. Eventually, by word of mouth, I got a part-time, minimum-wage job as a parkinglot attendant & trash collector in a parking garage. My jew boss actually accused me of being "too diligent" in performing my duties, for I would work until the garage was cleared of mestizo manure-filled diapers & other litter, whether I was paid or not.

My wealth is in that I can work with people, so my local network, as I build as a matter of course, wherever I am, paid off, at least with bread on my table. I try to be on good terms with everyone I encounter, & I'm even polite with jews, for I know who & what they are. They only get upset if they know who & what I am, so I try to keep my jew contacts to a minimum. This is difficult, for jews actively strive to poke into a Goy's business, as is their job.

So what should your message be to the Goyim, specifically, the Whites? First, you must address the problem. A problem for people usually originates with people's attitudes & behavior, stemming from their environment & information sources. I note a hierarchy in human affairs, as described by Meyer Amschel Rothschild: "Give me the power to issue money, & I care not who makes the laws." Since we live in a money economy, those who control the supply of money control the society which uses it. Those who control the oil supply in an oil-based economy do likewise, as do those who control the food supply. All these controllers are jew middlemen, who thereby direct our economy, hence our society & hence our behavior.

The ancient Spartans were much wiser than we are, with all our smart gadgets. They knew that self-sufficiency is the key to freedom, for one who is self-sufficient is not dependent on others, who may not have one's interests at heart. Spartans knew that no people can achieve political independence without economic independence, so economic independence is the key to freedom, as the jews write in their Protocols. Sparta banned the importation of all goods which Spartans could not make themselves, including jew-controlled gold, which enslaved Athens, & which caused the destruction of Aryan Greece in the Peloponnesian Wars, as the same factors bled Aryan Europe in the 2 world wars of the 20th century. "Wars are the jews' harvests," as jew economist Werner Sombart noted.

It is true that analogies serve to illustrate, but they do not prove facts. Our jew-run society is similar to a vice, in which we have our fingers at birth. Nobody questions the existence of the vice, nor why his fingers are in it, for so it has been since before his birth. The only means of reducing the pressure of the jews' vice, as long as we live in this society, without changing it, is to reduce our wants from the society. By increasing our material wants, we, ourselves, turn up the pressure of the vice on our fingers & other appendages. Any jew or his Zionist stooges, is happy to increase the pressure on us, but he is most effective in inflicting pain with our help. Hence, if we pay for his drugs & his perversions, i.e. vices, we increase the pressure upon us. We do the same if we increase our number of human & material hostages under his control & power. We could try to point this out to the herds of Goy sheeple, but few would agree that they are in such a situation. Hence, you could get their attention, & go unheeded. I note that most Goyim with full bellies think they have no need for knowledge, & they are very hard to teach when their bellies are empty.

I just heard on NPR jewsradio about the "tent cities" sprouting up in this latest jew depression. In the 1930s they were called "Hoovervilles," in the name of the current president. So far, they are called tent cities, without blaming any president, for some writers claim that our current crisis began with Jimmy Carter. As usual, I was out of the country, so I'd need to check up on his policies, rather the policies his jew masters obliged him to instigate & carry out. Since we live under the jew money-power, all U.S. regimes or ZOGs are "the best governments money can buy."

Even before I was ousted from these Jewnited States, I resolved to shun TV & stay debt-free. This is what the current victims of this crisis did not do, regardless of their former incomes. These are the inhabitants of the new tent cities. It would be informative to talk to them in order to obtain their views of how they arrived in their present Third World status. Since jew control is ubiquitous & the jews are iniquitous, it behooves us to fight the jew every day, in every way, just as he fights us. I am not fully independent of jew power, as long as I spend their zogbucks in the jew economy, but I do my best to inform his victims, to the extent they will read, listen & think. Most Goyim would rather fight than think, like Timothy McVeigh, who was a "useful idiot" for the ZOG. What he did was to help ZOG cover up its Waco Massacre of Koresh's wannabe jew community, & also destroy the militia movement. Good going, Tim, ZOG love ya! Remember, you can lead a Goy to knowledge, but you cannot make him think. If you were to sacrifice yourself on behalf of Goyim, they would probably not understand, nor appreciate your deed, even if it got straight news coverage, which the jewsmedia would not provide, as we know. What our ZOG needs now is another McVeigh in order to tighten its vice on the White Minority in the Jew Ass Oy Veh, so don't be a useful idiot. Lee Harvey Oswald was another useful idiot. The jew Federal Reserve owes him lots of thanks for deflecting the investigations of JFK's assassination, which allowed the jew banksters to take over all the U.S. currency in 1964, as I saw. In 1963, before his assassination, I spent United States Notes & Silver Certificates, in addition to Federal Reserve Notes. In 1964, I saw my first \$1 Federal Reserve Notes & Federal Reserve \$2 bills. Within a year or so, all non-Fed zogbucks were gone from circulation. The chief beneficiary from JFK's assassination was our top-kick kike banksters of the Fed.

So, your mom knows you're growing up. Unlike most Goyim, who remain children, some of us do grow up & put away our childish things. The key to our survival as Whites is not to be anti-jew, Black, mongrel, &c., but to be PRO-WHITE. The rest follows logically. Always ask: "Is this good for Whites?" The Blacks are jew minions, as well as jew victims, so aim for the head of the beast, whose sign is 666 & whose mark is the six-pointed Death Star of David, or Satanic Solomon's Seal. And don't make it so easy for the ZOG: Stay legal. ORION!
