

27 APR 09

Hail Osred! Thanks for yours of 19 APR 09. Wayne wrote in a letter I enclosed to you that he had concluded our correspondence, after which he continued to send me nonsensical letters which revealed that he was ignoring what I'd written to him, completely. He began accusing me of not reading the content of his letters, which he seemed unable to recall! I assured him, or attempted to do so, that I did read his letters, which was why I objected to their content. His reply was further nonsense. Hence, I refused to accept his last letter, for I have an abundance of correspondence without having to answer nonsensical mail. I also refused a letter from a Christ-eater who ignores my objections & my material, as well as a letter from "Hasidic Harold" Covington, who behaves like a ZOG agent provocateur. Such correspondents I do not need!

I'm anti-Klassen on principle, for his cult is a money-making racket for those who hold copyrights on his "church" & its publications. Aping Rome is in itself anti-White, since Rome wound up much as the USA, before its fall, as a plutocracy, which lent itself to jew corruption & subversion.

I knew Klassen personally, from his visit to White Power Publications in Reedy, West Virginia, asking us if he could 'borrow' \$3 million zogbucks to fund his Church of the Creator franchises. Why he thought we might have such a sum of money indicated poor judgement on his part, which jibed with his later decisions, to include non-Whites as "Creators," & then to commit suicide when his church did not show a profit. I thought his adoption of Roman titles like Pontifex Maximus to be tongue-in-cheek at best & incredibly pompous at worst, like the Freemasonic title of "Imperial Potentate." I questioned his emphasis on Latin, when his disciples hardly knew sufficient English. Apparently, suckers, most of whom are in ZOG's gulags, may pay for "courses," in order to obtain rank within the creator-congame, much like another racket known as Scientology.

The really nasty things said about Klassen were purveyed by none other than Harold Covington, who roasted Klassen in his newsletters, accusing him of buggery & murder, just to name a few allegations. Since child-rape is a crime, as well as murder, I doubted the authenticity of Covington's sensational claims. Surely his alleged victims would have family members who'd take exception to such crimes, & report them to the authorities. What I know for certain is only from my firsthand experience with Klassen & his adherents, one of whom was a jew named Finkbone, who proudly introduced himself to me as "Creator Finkbone."

As they say in Judeo-America, "the bottom line" in the Klassen business was his goal of obtaining a religious tax-exemption for his church. FEDZOGUSA is known to deny such exemptions on official churches if their preachers make "political statements" from their pulpits. Hence, I doubt very much that the Klassenites got their federal tax exemptions, nor any tax exemptions from lesser jurisdictions. If the Klassenites got their "holy grail" of tax exempt church status, then they must toe the kosher line. Either way, Klassenism's god is Mammon, not Our Race. His motto is: "Our Race Is Our Religion." This is like any other cult which puts Race in last place, rather than first. Klassen's blighting ego-tripping caused him to ape my slogans, just to be different. I say that Our Race Is Our Nation (ORION!), so he chose to differ. He used "JOG" (Jew Occupation Government), rather than ZOG (Zionist Occupation Government). I use ZOG as a matter of observation, rather than personal taste. In 1945 Churchill said, "I am a Zionist." Our foremost persecutor in Toronto, Canada, Ontario Attorney General Roy McMurtry, announced on the steps of a synagogue, wearing a sheenie-beanie: "I am a Zionist." Zionists are jew-supremacists. They serve jews, but they usually are not jews. The day I am prosecuted by a jew judge, after arrest by a jew cop, under a jew mayor, &c. I'd see that my government was now a jew occupation, provided I was not being tried in Israel, of course! I see no need to mislead, since I'm not in this struggle for the money. That's why I've endured these many years, without fame nor fortune. No, I don't see myself as a hero, but as a teacher for those who crave knowledge as to why they are excluded from opportunities in this Judeo-American society.

As I see it, 'Christinanity' is being refashioned by our masters to incorporate Holohoax Guilt on behalf of jew-supremacy, & miscegenation on behalf of White genocide.

Keep up the good work. Strength through Joy to you. ORION!

P.S.: If Australians export their manufacturing jobs to the Chinese, & import Chinese, the price of Chinese labor will prove not only expensive, but disastrous, as we see in the USA. The jew-bankster Depression of 1929-1939 was curable by pumping money into the economy, like putting petrol into the fuel tank of a car. The USA's economy is now like a car rolled into a ditch & stripped of motor, so no amount of petrol will get it running again.
