Hail Braxton! Thanks for yours of 24 APR 09, or thereabouts. The Libra message I photo-copied on a used piece of paper which a subhuman had thoughtlessly left in the machine. I don't put such material in the copier & let it run, without checking a first sample copy, as I did when I worked in a printshop. Why waste toner & paper to produce trash? I just added my note to the blank space on the back, but I could let you have an entire page, all black, if you prefer. Ha!

Louis Farrakhan strikes me as straight, whereas Jesse Jackson seems more of a self-seeker to me. He still helps Blacks by extorting zogbucks from jew/white businesses with his Operation Push, although some of those zogbucks may stick to his fingers. I'm just guessing. Jesse can't be any more crooked than the crooks who've been in our Zionist Occupation Government. That's for sure.

Yes, Sweden is a parliamentary monarchy under ZOG. I liked the people & the country, but their ZOG forbade me to work there, so I had to leave. Sweden wants Black immigrants, but not Whites, so you may be out of luck. English is their 2nd language, so one can get by without knowing Swedish, but I enjoyed learning what I could. As my teacher said, "If you don't sing it, you won't be understood." I have a musical ear, so I pick up accents easily. When I resumed speaking English in Rhodesia, I was told that I had "quite a Swedish accent," which I wasn't aware of. After a 6-month intensive German course, my Spanish had a thick German accent. I was even pronouncing the words in German, & I made a conscious effort to say them in Spanish. In Mexico City some thought I was a "cursed Spaniard," since my previous Spanish-speaking experience was in Spain, where I began with a Mexican accent, although it softened after 2 years in Colombia.

Thanks for passing my stuff around. Every bit helps Our Race in its awakening. Strength through Joy to you. DOWZ! ORION!
