

14 MAY 09. Hail Michael! Thanks for your letter of 10 MAY 09 & the outstanding items. I believe that you are now an expert on penology, as if you weren't before. If ZOG could heed your findings, I think it could make a reduction in recidivism & save tax-payers a whole lot of useless &/or pernicious expenditures on behalf of Coercive Marxist Crapology.

As you say, prisoners who lack vocational training have no way of earning their livings outside ZOG's gulags, so their return is not surprising. Has FEDZOGUSA written off U.S. workers in favor of Chinese coolies? It appears so. Let the sheenie sociologists do something useful, like "making little ones out of big ones" at that old rock pile. That way, they'd do some good for a change & benefit from the aerobic exercise. The gravel could be exported for building super-highways in China. Such a deal!

I can't figure out why the female 'comrades' or colleagues would be so unco-operative. In my experience, females operate by emotion, rather than principle. No, I'm not prejudiced, because that's how they behave in general. I didn't just read about it. Maybe freedom of speech is 'too hot' for them to handle, but they could at least tell you so. As Freud said: "What does a woman want?" No wonder he was crazy, & a coke addict as well. He proves that jews can suffer, even without Nazis. Oy veh!

I'm sorry to read that your life on the homefront is so hectic. I would think that any gulagnik would be lucky to have you as a celly. Too bad for them that they seem unable to profit from your wise counsels.

If you put post-it notes on your material for John, I'm sure I included them with my mailing to him. I'll include a note asking that he forward his comments to you, with this current mailing. A search of your archives revealed no unsent notes to John.

Thanks for the excerpts from Evola & "Gods of the Blood," copies of which are enclosed.

I'm sorry to read about your son's self-inflicted adversity. It's bad enough in this Kosher Economic Crisis to be White, but more so with legal & chemical handicaps. I wish him a speedy recovery in all respects.

In regard to treating crime as a disease, beyond the control of the individual, I see a correlation between denial of individual responsibility & denial of individual freedom. We must govern ourselves, or we shall be governed by others. Rights include duties.

In the jewsmedia I see a trend away from 'infernal' combustion engines toward electric motors. A recent item in The Yakima Harlot-Repulsive discussed the net energy-loss from processing biofuel into gasoline. The writer says that it's much more efficient to burn the unprocessed fuel directly in (gasp!) steam boilers for generation into electricity, for use by plug-in electric vehicles & other devices. Although it's hard for me to imagine, the din of small gas engines on weed-eaters, leaf-blowers & lawn-mowers may fade into the past, like the locomotive whistles of the Steam Age, perhaps sooner than we expect. In your case, I hope not, but I'm sure you could easily master the maintenance & repair of electric-powered machines without trouble. Not only can you do maintenance, but also, management. If you were Black, your mind would be "a terrible thing to waste," as the slogan goes for the Negro College Fund or some such. This was taken from The Penguin Institute for Aerial Advancement: "A wing is a terrible thing to waste."

Thanks for the column by Pitts. Azeff is a jew name, & jews are not Whites, according to "The Genetics of the Jews" by A.E. Mourant et al., published by Oxford University Press, 1978. All jews, no matter how blond, are Afro-Eurasian mongrels, according to their study, originally published for The Lancet, official publication of the British Medical Society. A.E. Mourant & his kosher colleagues are hematologists. Jews lie that they are White, when it suits them. As I say, "Truth is 'anti-Semitic.'"

Keep up the great work. DOWZ! ORION!

P.S.: Goyim need to know that their  ingestion of 'recreational substances' may ruin them for life. A young neighbor of mine is an Iraq War vet who wrecked himself on leave with lots of 'good drugs.' Now he has gran mal epilepsy seizures which require him to live with a guard dog. The dog is very nice, but he'd make a strange 3rd party in a marriage. His seizures occur any time, in any place, so he might not be great fun on dates, either. I had imagined that he suffered from explosive concussion from a roadside bomb, but he became a casualty while on leave in the USA. Goyim need to know, but who will tell them? Not their drug-dealers, who know there's lots more suckers where they come from. It's a mitzvah to get a Goy to PAY to ruin himself. Ask your local rabbi, & watch out for that 7th Commandment against adultery (race-mixing) or you'll wind up working in the boiler room of Yahweh/Satan's Big Sky Pawnshop. Oy veh!
