

15 MAY 09

Hail Braxton! Thanks for yours of 12 MAY 09. As you say, there is no consistent policy in regard to ideas & information in Judeo-American prisons. Some are quite Red in regard to indoctrination of prisoners, similar to the stuff taught in Chinese Communist P.O.W. camps during the Korean War. Others allow us to express our thoughts, within reason, so we must enjoy such freedom as we presently have, toward the increase of our knowledge & education. If you can get better accommodation, good luck, but there's an old saying to "leave well enough alone." I'll send you "The Hitler We Loved & Why" with this letter. The book was mainly pictures, for which I wrote the text, basically as captions. At least I can give you the text, so you'll get the message, without the pictures. Pictures without captions aren't as good as captions without pictures, since you can say anything about a picture. I noticed that in regard to propaganda films. Whoever narrates the scenes conveys the message. A film about Hitler Youth in German says that "Our Youth serve the Folk on behalf of the Future." A jew narrator says, instead: "Fanatical Nazis learn to kill for their F hrer." A picture is not worth a thousand words, for it takes only a few words to change the meaning 180 : A film on the Allied terror-bombing of Dresden shows German civilians' bodies stacked in the streets, being burned to prevent disease. The captured Allied version says: "Evil Nazis burn jews in batches on the streets." During the Spanish Civil War, both sides made liberal use of such interpretations. One Red photographer took a picture of a worker sleeping during his lunch break. The picture was captioned: "Worker shot by Fascists." This trick was used when I was in Rhodesia. Blacks would nap during their noon break in the city parks. A creative photographer snapped the scene & his jewspaper captioned it: "Black workers massacred by racist cops in Salisbury, Rhodesia." But at 1:00 p.m. "they rose again from the dead." Ha!

Networks grow 'organically.' I contact you; you contact someone else, he contacts another. As long as we each contact an additional person, rather than keeping everything in our own little group, our network can expand. Of course, if one is in a ZOG gulag, this limits our contacts considerably. Goyim (Gentiles) move very, very slowly. My network has taken at least 40 years to build! This is terrible, as you can imagine. In Rhodesia, it took me 7 years to find 7 comrades, one of whom turned out to be a zoggie. How long must one live to create a network of 100 people? It is amazing. The explanation is simple: Most Whites see no need for a pro-White network. They are too involved with earning their livings & watching niggerball on talmudvision, it seems.

How do I know that the Swedish ZOG wants Black immigrants? My White Swedish correspondents tell me. I saw a bit of it when I was in Stockholm in 1969. Their ZOG wouldn't let me work in Sweden, but they let Blacks in to work. Red Swedes hated us 'evil Whites.' A White Norwegian who wants to return to Norway has been told by their embassy that he is not wanted there. If your skin is White, you just ain't right for Scandinavia, it seems. If you're pro-White, you're definitely not welcome.

The jews encourage Moslems to invade former White living space. They want us to fight the Moslems. Our best strategy is not to serve the jews in any way. Yakima has 2 mosques at last count, & I recognize Moslem clerics on the street, as I did in Africa. I greet them politely.

It seems that your relatives are better censors than your zoggies. I guess they never heard about "forbidden knowledge" being most attractive. Exposure to revolutionary knowledge will prove educational, rather than inflammatory, for you already know what you want.

The onrush of events is occurring right now: Politically, economically & demographically. You are insulated from it on the inside, but it is apparent on the outside, with the ongoing economic crisis of job-losses, home foreclosures, inflation & rapidly-increasing poverty. Our Zionist regime in The District of Corruption is moving rapidly toward its Jew World Order goal, & the U.S. population is growing darker every day. Our local jewspaper reports that Yakima County is now 41% Latino & growing, so I speak Spanish where people I must work with speak no English or very little. It's like being back in Mexico.

Whites are well-armed in Judeo-America, but they do nothing because they love all things jewish. I think Whites will be the very last to fight on behalf of their racial interests for that reason. Spics & Blacks are already fighting for racial turf in this Empire of ZOG. I have over 100 correspondents, including yourself, who supply me with information from USA, Canada, Africa, Europe & Australia.

The prison system can go any which way, depending on who takes control in a revolution. Spics would free spics & kill all non-spics, as Blacks would do for Blacks. Or the jews may kill White prisoners for the fun of it. The future looks like more of same, & worse. ORION!
