Hail Thomas! Thanks for your insightful letter of 2 JUN 09. As Orwell wrote: "Who defines controls." I've also noted the abuse of our language over the decades, first with the intrusion of alien words, then with alien concepts to redefine our words. Orwell also said that "Tyranny begins with the abuse of language." In "1984" the rulers sought to limit people's ability to think & to communicate by limiting their speech: Hence, Orwell's "Newspeak," or as jew-wise Goyim say, "jewspeak" alias "politically-correct" word-choices.

As you say, the pernicious Judeo-Africanization of common terms reveals their pernicious tactics at seeking to control our minds & thus our behavior. Whites often use enemy terms to describe themselves, such as "hateful racists." Such usage 'turns off' jew-dazed Whites, as does "White supremacy." It also puts us into the role of reactionaries, which puts the enemy in the driver's seat, for reactionaries don't initiate programs nor policies. Those all-important tasks they leave in the hands of the enemy.

If we adopt alien definitions, our attitudes & our behavior are likely to become alien, also. Hence, we become alienated from ourselves, like a Pavlovian subject who has been indoctrinated to defy his instincts. I recall that the Black definition of "freedom" is "uhuru!" This word describes an African antelope as it gallops unimpeded across the veldt or plain. In other words, the Black has no idea of the meaning of "freedom" or of "liberty," as opposed to licence, for freedom incurs responsibilities as well as rights. Freedom consists of freedom TO, as well as freedom FROM, on behalf of others, beyond ourselves.

Our present generations of traitors are free to mortgage the future of generations to come. Our irresponsible behavior condemns our children & those to come to lives of tyranny, slavery, poverty & extinction. Yet, we persist in the jews' sacrifice of our young, with no sense of guilt nor of comprehension, for most of us "know not what we do," nor do we give a hoot.

As you say, we must defend ourselves & Our Race from the hatred & behavior of our racial enemies, but we must first know who we are, & we must snap out of our jew-daze. As Moslems say, our first 'holy war' is within ourselves. Thus, the White man's war begins within himself, to become & thus behave as a White who loves his Race. Relevant behavior naturally follows relevant belief. Therefore, only change of mind can save Our Kind.

Once we know who we are, our passions may be used on behalf of Our Race & our survival as Whites, & as individuals. This does not mean that we should don Viking garb & start sword-swinging down the streets. What it does mean is that we must fight smart, with the means & opportunities at our disposal. Politics (people-power) demands our entire stock of talents & abilities, 24-7, for life. And, while politics may involve sword-swinging, it involves our willingness to put our lives on the line, along with our talents, strengths & determination. But this we cannot do as long as we remain in a jew-dazed trance, ridden with "White guilt," under a jew economy. Until we can govern ourselves as individuals, we shall not be able to govern ourselves nationally nor racially.

When we finally know who we are, we must decide how much of ourselves we shall put at the disposal of our enemies. I was born to slavery in a jew society, so I had to 'sell' myself to live. I could have played 'tough guy' & gone to prison, or I could have sold myself entirely, so as to become a mental, moral & material slave of the ZOG. Yes, I had all these choices, had I been someone else, but I chose to maximize my freedom from ZOG by taking menial jobs. I am no stranger to hard physical labor, but in our Judeo-American economy, those jobs are reserved for aliens, while the best jobs are exported to aliens overseas. Hence, my old 'ace in the hole' is gone, but luckily, I can now live off the ZOG, based on my so-called Social Security. Were I Black, ZOG would say that my mind "is a terrible thing to waste," but, as a White in Judeo-America, I'm expendable, like a piece of soiled toilet paper, consigned for the toilet of history. Does this make me mad? Yes, but in a patient, determined Aryan way.

Our foremost weapon is information. Unless we can change White minds, we will not change White behavior, so I use such weapons of Truth as are at my disposal, to the best of my ability, & I expect nothing less of my racial comrades. Those of us who know have the duty of informing others. We live under ZOG's regime, but how much of ourselves must we give to that regime? And how much of ourselves can we give to Our Race? That decision & its outcomes is our job, for life.

As you say, it is ludicrous that we should admire baboons for their leadership & loyalty, but how much of our vanished pride was based on delusions imparted by our jew masters, in the first place? History reveals that our former "White Pride" was derived from jew slavery, as in "Onward Christian Soldiers." Such 'good' Goyim we have been. That's why jews are so powerful & prosperous today. All the best. ORION!
