Hail Joe! Many thanks for your letter & enclosures of recent vintage, + the stamp. Your artwork is great, as usual, & it should be suitable for color photocopying with White Man's magic, as they say in Black Africa.

As I understand, the "Crips" & "Bloods" derived their names from their goals: to cripple & to bleed Whites. The fact that these Black racists have crippled & bled mostly themselves is no denial of their racist intentions. It's all a matter of who is closest when they are aggressively inclined. The Mexicans have their rival gangs, such as our local Norteños & Sureños (Northerners & Southerners). There are no White gangs, since there are so few of us in Brownest Yakima.

The statement about taking the nigger out of the jungle, but not being able to take the jungle out of the nigger is true, but did not originate with Klassen, since I heard it over decades before I heard of Klassen. The Blacks admit it, but instead of "jungle," they say "soul." It simply proves that culture is an aspect of biology, that is, race. Jews have defined Whites as "nonexistent" &/or "evil," so our culture is of no account, especially as it sustains so many Blacks & jews. Are we ever dumb Goyim, as jews say we are.

I've known members of the Peace Corps who've worked overseas to "uplift" the poor, oppressed darkies. Some members learned the facts about them, after losing their romantic illusions taught by ZOG. Others "went native" & became worse than those they were supposed to uplift. In their minds, they had "raised" the muds by lowering themselves beneath them in behavior & personal hygiene. I guess they had to smoke some strong stuff in order to believe in their 'success.' What this experience teaches me is that it's much easier to go downhill than uphill. Hence, Whites can fall to nigger level, but few, if any, niggers can rise to White levels. Enforced 'equality' means that all ships must go the speed of the slowest vessel. Sports is the most obvious disproof of 'human equality,' although ZOG suppresses the other differences in its constant bombardment of propaganda.

Since government exists in the minds of the governed, our job is to change minds with information. This is not as exciting to many as is sword-swinging & other deeds of derring-do, but we must understand that our individual deeds, albeit heroic, merely serve to alienate Our People from their saviors & the means of their salvation. Propaganda of the deed is effective only if it is understood in its political context. Otherwise we become comedians on stage whose punchlines are not understood by our audience.

ZOG's policies of worsening our condition make the best anti-ZOG propaganda, if we know how to use it. "If ZOG is 'good,' then why am I hungry?" is the question which must form in the wee, slow minds of the Goyim, before they are prepared to acknowledge our worldview & prepare to take the necessary action. Our actions on their behalf are used by the ZOG to deter the sheeple from heeding our message, as occurred recently with the shoot out at the Holohoax Museum in The District of Corruption. As is said of politics & comedy: "Timing is everything." ZOG knows that politics is the art of the possible, not just the 'legal,' as ZOG interprets, so it is necessary for us to appear to be legal at all times, if we wish to work outside of ZOG's gulags. I've delivered many thousands of political leaflets in Canada & the USA. Such leafletting was 'legal' as long as you did not get caught doing it. Under ZOG, the exercise of liberty requires eternal vigilance.

Counter-ZOG propaganda is easier to convey than ever via electronic media. Why haven't Whites made better use of this opportunity? The Internet is rife with overt & covert ZOG disinformation. Once again, networking is all-important for us to make our message coherent, relevant & effective. For now, 'our' message is mainly "me-me-me" & "gimme-gimme-gimme," with large doses of Sky-Jew Rescues in the Sweet Bye & Bye. We should remember that the so-called American Revolution was fomented by "Committees of Correspondence."

I see my suitable role as that of an instructor & analyst. "Slow news" is as valid as "fast news," since it puts immediate events into a coherent context. History is a study of themes & variations, into which facts fit, like notes in a symphony, rather than individual sounds without meaning in The Big Picture or larger context. Without a historical context, the importance of individual facts may be missed, since all facts are not equal. My 40 years of pro-White efforts show that I do not need "instant gratification." Instant communication is relevant for tactical operations, but not for strategic ones, so my role is more that of a fieldmarshal or commander in chief than that of a sergeant or captain at the front. This is not to disparage tactics, which are the children of strategy, but for either to be valid, we must finally get our pro-White act together. ORION!

P.S.: USA is collapsing. ZOG is intensifying its Jew World Ordure.
