

## BOOK REVIEWS

**"HOMO AMERICANUS: Child of the Postmodern Age" by Tomislav Sunic, 2007 (ISBN 1-4196-5984-7)**

Former Croatian diplomat, Tomislav Sunic puts forward his views on the development of today's American. Whilst Croatian in origin, Sunic has had extensive experience in the United States having received a doctorate in political science at the University of California and also at one time holding an American professorship.

America is the least homogenous nation in the Western hemisphere both racially and in terms of the lifestyles of its citizens. This makes generalizations difficult although not impossible.

While political scientists and historians proclaim that racial or ethnic differences are not innate, and are the product of nurture and education, biologists and geneticists will reject this. Nevertheless the liberal dogma of equality has not yet lost its credibility and politicians and professors who question it can find their careers restricted or truncated.

This sets up a sort of functionalism whereby those who take an unconventional approach can be stigmatized as racists and fascists. American liberalism promotes democracy while at the same time it takes a repressive and undemocratic stance when its own orthodoxies are challenged.

To become masters of the modern Americanised discourse the liberals and leftists had to remove any authors from the library shelves who they considered too right, racist or otherwise opposed to their views. A true democrat would be expected to at least respect the right of all across the political spectrum to be heard.

Those who question the constant commemoration of the Jewish Holocaust are generally treated like heretics. In fact Professor Kevin MacDonald has described the "veneration of the White Guilt

/ Holocaust as the central moral icon of the entire civilization". To a certain extent those who question multiracial or multicultural policies are also vilified.

Nevertheless do those who purport to accept or even support the current situation really accept it or just pretend to? Sunic makes a comparison with the old Soviet Union where those who in public supported, or even played a part in running the system, often laughed about its contradictions in private.

Similarly, although Americans have always stressed the notion of liberty and the principles of Jeffersonian democracy, certain historians have pointed out that the country's founding fathers were as much motivated by economic and capitalist motives. Sunic believes postmodern Americans are so focused on the amassment of commodities that they are becoming perishable commodities themselves.

In fact Homo economicus can be used as a synonym for Homo Americanus. As one writer pointed out some time ago "the dominant influence in the making of America has been overwhelmingly bourgeois, and the population has been selected by the requirements of the capitalist regime". Survival of the fittest in America applies not to the fittest in arts or politics, but the fittest in capitalist commerce.

What is the future of America? Sunic foresees the possibility of a return to segregation and the Balkanisation of America along ethnic and racial lines. In a market democracy Americans cannot be expected to develop an organic and fraternal relationship with each other. He sees such a relationship as feasible only in a racially homogenous society or a sharply segregated one with each group pursuing its own destiny. The omnipotent market in America strengthens the desire of citizens to act as free economic agents with no spiritual bonds to each other, nor any sense of the common good or historical community.

Americanism, like communism, may only function in the future as a basic form of survivalism in which inter-racial wars will be the norm.

Only change of mind can save Our Kind, so as to cause a change of behavior. Werner Sombart wrote in his study of Jews & capitalism that "The USA is the distilled essence of Judaism." The USA is a study in entropy. E.T.

16 JUN 09

Hail Thomas! Many thanks for your letter of 12 JUN 09 & the great essay on "Soulful Existence," which captures the essence of Carl Jung, as well as Alfred Rosenberg. Congratulations!

By all means, make use of ORION! I give all my ideas to Our Nation, with the only condition that they not be sullied by adulteration with un-Aryan content, i.e. such as defining jews as "White," which they are not, no matter how blond! Read "The Genetics of the Jews" by A.E. Mourant et al. Oxford University Press. What I do for Our Race belongs to Our Race.

Our survival as individuals depends upon the survival of our group. Nations must be exclusive as well as inclusive, so it is up to us to make such judgement calls. I've heard some Ostensible Whites say, "She must be White, 'cause she's a good lay;" "He can't be jewish, because he bought me lunch;" & "How can he be a jew? He bought me a jeep!" Of course, we must dismiss such childish imbecilities if we are to survive as a racial nation. How exclusive must we be? I advise we use 2 criteria: DNA & quality, such as intelligence & physical fitness. The third quality, character, is less apparent, but of utmost importance, for that determines if we have included a traitor within our midst.

How inclusive must we be to assure the survival of Our Nation? Well, we must accept as fellow Whites those who can contribute in productive ways to our group survival. The idea is to move the physical & mental "bell curve" toward improvement, with every generation. What we are doing most actively, under ZOG, is the opposite. Instead of eugenics (racial improvement) we promote racial destruction (dysgenics). When we put selfish interests above Our Nation, we serve ZOG, toward our racial extinction.

Jewsmedia have even mentioned "the culture of corruption." On today's jewsradio program I heard about corruption in Kenya, Africa. The feature was entitled: "It's Our Turn to Eat." this referred to tribal politics in which any tribe which takes power in government steals whatever is in the treasury, thus assuring that Kenya will always be broke, dishonest & underdeveloped. General Butler of the U.S. Marine Corps called war a "racket," for it served to benefit very few at the bloody expense of very many. Economist Werner Sombart called wars "jewish harvests." In the 19<sup>th</sup> century U.S. politicians spoke of the "spoils system," as in "To the victor go the spoils," i.e. rewards. This term meant robbing the treasury & giving jobs to the party faithful. Blacks have no monopoly on corruption, which remains rife in China.

Jews are noted for their use of corruption on behalf of jew power & profit. We Goyim must learn that control of money in a money economy provides the controllers with power over those who use money. As Dr. Oliver wrote, "Few can resist the sound of a \$100 bill being crinkled, & for most (sheeple) the sound of 2 \$100 bills rubbed together is 'the voice of God!'" In Mexico, one is offered "Plata o plomo?" (Silver or lead?). How many do we know who'd refuse the silver?

I believe Plato discussed the prospect of one dishonest man in an honest society & one honest man in a dishonest society. I see our situation as one of mendacious mediocrity, in which some of the people are honest some of the time, but not all of the time, not even to themselves. Living as we do in a Zionist Hypocrisy, we use jewspeak, so we lie as a matter of routine: "If it pays, say it." Hebrewood portrayed evil pretty well in the movie, "Outland," in which Sean Connery, the Marshal, tries to protect a society on a mining asteroid from itself, by stopping the corruption which could destroy it entirely. He gets neither thanks nor help from the powers that be. The Marshal was motivated by enlightened self-interest, for he knew that the corruption could destroy him, along with the asteroid, & he also wanted to do his duty on behalf of his society. But his society objected, with the exception of the female doctor whose knowledge put her on the side of the Marshal.

Why are people corrupt? They may be stupid, but often they see that they may advance their private interests by selling out their Folk. That accounts for Charlemagne slaying his Saxon chiefs on behalf of Christinsanity, & Cromwell who gained power in Britain by bringing in the jews' money & the jews themselves, on behalf of Protestantism. Such a deal! That's why Ian Smith sold out the Whites in Rhodesia, now Zimbabwe, & the Blacks as well. A senior baboon would not betray his troupe as Whites have betrayed their own.

Plato said that virtue is its own reward. As a child, I thought that was Victorian prudery. As an adult I see it as wisdom on behalf of individual & collective survival. In the military, sleeping on sentry duty is worthy of summary punishment: Being shot on the spot. Opening the gates for the enemy's entry is pretty much what our ZOG has been doing to us in the USA, albeit in the name of "democracy." Now we 'must' give to all who would take, so we can get our heavenly pie in the sweet bye & bye. If you believe that, there's a nice bridge in Brooklyn I can sell you, for a good price. Strength through Joy. ORION!

*Eric*
