

11 Jewlie 09

Hail Solo! Thanks for yours of 1 Jewlie 09. Yes, The Law of the Contrary is truly in force. "Mein Kampf" is not scarce outside the ZOG gulag; inside is when gulagniks want it most! A collection of words falling just one short of 15 is most proclaimed where they are least relevant. Would that such interests persist when people graduate from the gulags!

As you say, our job, inside or out of the gulags, is to make our time work for us. Gulag life resembles college life to the extent that residents have time to spend on things other than procuring food, clothing & shelter. Universities actually do provide time in which to study, discuss & learn knowledge which should turn out to be useful on the outside. Much of this 'knowledge' may be indoctrination extended from our public schooling. Most Goyim (Gentiles) are sheeple, which I state as a fact, rather than a slap, contrary to our indoctrination that "all men are created equal." That lying Founding Felon, Jefferson, even contradicted himself when he also stated the existence of a "natural aristocracy" amongst men. Indeed, fewer than one out of 20 men have any leadership potential, according to Chinese findings re U.S. P.O.W.s in Korea. I heard these facts from Pentagon tapes I heard when I was in Air Force ROTC in college, in 1956. The instructors seemed not to know what they were really teaching us: In practice, democracy does not & cannot work. Oops!

We are all self-educated, regardless of our attendance in 'institutions of higher learning.' I learned new things in my discussions with fellow students, including how to argue in support of one's views. I also learned more about jews, & I received a Communist edjewcation at Red Berkeley, CA, where I graduated with my first academic degree in 1960, in Latin American Studies, since I'd decided to visit The Amazon when I was 8 years old. One professor described universities as "supermarkets of ideas," so I strode the aisles to see what was offered & to take what I wanted. My purpose was not to acquire knowledge per se, but to inform myself on behalf of my own chosen course of action, which was to see the world & understand what went on in it, so I could best invest my time, money & labor therein. I wound up with an M.A. in International Relations, which gives me an understanding of life in Judeo-America, so I don't fall into many Zionist Bankster traps.

Before I continue, please give my best regards to Chad & James when you get the chance. Good minds are rare & precious gems amid this herd of Goy cattle en route to the kosher slaughterhouse.

Vocational courses are useful in regard to contemporary knowledge, but they are often prone to obsolescence. That's why I chose to study German instead of coding machines in the U.S. Army. Intelligence is being "born old," to some extent. In Spanish it is said that "The Devil knows more because he is old, than because he's the Devil." Vocational skills which contribute to one's survival in the wilderness are less prone to irrelevancy than are so-called 'cutting edge trades.' My woodworking skills, such as they are, are now more useful than my printing skills. At least I can make a table or chair which is sturdy, but I cannot earn a living as a printer, nor as a coding machine operator! A friend of mine who is a mechanical engineer & computer draftsman is now driving a truck, since his job left for China. Whites are becoming obsolete because we are too expensive when our technology goes to China, as my last job did to India. Hitler predicted this outcome in his "Secret Book" of 1928: Export of White technology means export of White jobs. This is called "globalism."

Mathews' idea of forming a White community within the belly of the beast, i.e. ZOG, is prone to disaster, since just one phonecall to ZOG-minions can destroy it. Hence, any such community would have to be kept outside of ZOG's ken. All known White communities have so far failed because of incompetence, economics & betrayal. First, under ZOG we can own no property. We must pay taxes thereon, so we merely rent it. ZOG is our landlord, so we shall always want. History should teach us how to go about land-acquisition: The Pilgrims came to America, with their White slaves. They did not become Pilgrims after coming to America. They set the stage for it to become Judeo-America, as it now is. The Mormons did not occupy the territory of Utah first, & then become Mormons, so land without Nation is a commodity, not a community. Hence, we must establish Unity in Dispersion in order to achieve a unified Nationstate on a piece of land. Jews & Gypsies can do it, & so can we, when we achieve White National Consciousness. Jews & Gypsies are conscious. We are not, so far. Community must begin in the Mind before it can occupy a piece of land. Hey, time for the Goy cheer, loud & clear: DUUH! The main refutation of the real estate approach to Nationhood is visible in former White countries now open to alien invasion, for lack of National Consciousness. The English had the land of England before they gave it to Pakistan, Nigeria et al. To the extent their nationalism has gone, so has their land. If their nationalism returned, they

might regain their former living space, but first, they must become Whites in all respects.

My understanding of politics (people-power) is that our words & deeds occur within a context of the status quo. Propaganda of the Deed is not necessarily what we like. It is what works. Von Brunn would have gained more sympathy for the Cause of Truth, Freedom & Justice had he appeared in front of the Holocaust Museum with a cogent picket sign, rather than a howitzer. As long as the blightwing exists, ZOG will need no friends.

Thanks for offering to send funds. I can accept stamps, cash or U.S. Postal Money Orders. One person recently sent me a "personal money order," which I returned, because the hassles in cashing it would net me a fraction of its face value. Such a deal!

Home education as opposed to public edjewcation is a fundamental necessity in raising a new generation of Whites. That's why ZOG is bound to forbid it, as it does in Zionist Occupied Germany. I understand that U.S. public schools (the little RED schoolhouses) began after the U.S. Civil War. Children were literally roused from their homes by ZOG-thugs with bayonets, as occurred in anti-White Ike's forced school-Africanization of the 1950s. Had it been up to my over-priced judeo-public schooling in Southern CA, I might never have learned to read, tell time, do fractions or multiplication tables. My American grandmother taught me at home, without difficulty. She did not have time to supervise my handwriting exercises, so I wrote with a slow scrawl. Mom accused me of "drawing my letters." Our kosher commissars banned handwriting exercises in elementary school, claiming that it was "fascist regimentation." The criminal, John Dewey, apparently taught that we all should "do our own thing," rather than copy what was done by others. Hence, our writing could be whatever we pleased or suffered, regardless if others could read it or not. I wonder why he didn't say we should all speak our own private languages? Then we could enjoy Babel without race-mixing! Imagine Dewey applied to drivers' ed. (CRASH!) True Dewey children are autistic. Diversity is ours.

Whites will therefore have to appear to conform to kosher norms in order to survive. We are in the midst of a war for our lives; a war of stealth & attrition, as were the Hungarians under Judeo-Communism, & now, under Judeo-Capitalism. As Rockwell predicted: Our skins will be our uniforms more & more as we become THE visible minority in this Zionist society.

Economics is the basis of freedom or slavery, as the Spartans knew. Thus, your objective of economic self-sufficiency for a White Community is essential, despite our being in enemy occupied territory. Jews & Gypsies do it, & so must we. Jew control of our money & hence of our economy gives them power over us, as stated in The Protocols of Zion. As Meyer Amschel Rothschild declared: "Give me the power to issue money & I care not who makes the laws." We have done so. We have armed & supplied our enemies, & now we must deal with the consequences. As you say, we have a huge job ahead of us.

The jew dictator of Communist Hungary decreed that women, including wives & mothers, would have to work outside their homes. Hungarians knew that would mean the destruction of their history & way of life, so they revolted. Under Judeo-Capitalism, the income gap for families with one wage-earner, especially the despised White male, is probably too wide for a mother to raise children & home-school them, but life & politics are described as "the art of the possible." According to my information, what is possible may not be likely. Both my parents worked hard at fulltime jobs from their childhood until they became too feeble to do so, or the jobs dried up. Any home-schooling was done by my grandmothers, who themselves had to work & get help from my parents, in addition to their "Social Security" pittances. We had a grandmother living with us during my childhood, as "quality day-care." Now I know young people who earn so little at part-time jobs that they must live with their parents. The "American Dream" yields to Third World Reality. My American grandmother inherited considerable landholdings on the premature death of her husband, but they were lost to taxes imposed by ZOG in the 1930s. Wealth must be defended. What you cannot or won't defend is not yours. My Scottish grandmother was born into poverty & died therein, so she had nothing to lose. She had to work as a housemaid well into her sixties, so Janis Joplin was wrong to say that "Freedom's just another word for nothing left to lose." Granny had nothing, but she wasn't free, 'cause she was hungry. As Nietzsche observed: "Man has his stomach to remind him that he is not a god." Indeed, life is struggle. As Hitler said, "Those who are unwilling to struggle are unfit to live."

In Mexifornia they say, "Victorville or Vallejo!" Strength through Joy to you. ORION!
P.S.: The oncoming collapse of the USA will mean the strengthening of the Jew World Ordure, i.e. the ZOG, so put your rebel flags away & prepare for the Chinese occupation of the land they now own.
