Montana State Prison

Greetings!

We probably agree that you and your staff are authorized to restrict inmates' access to certain information and other items for the perceived good of your gulag and your jobs. With this understanding I must, as a U.S. citizen, draw your attention to certain facts in regard to receipt of First Class Mail:

1. Payment of 1st Class postage includes the cost of returning the 1st Class item to sender, anywhere in the world, including the U.S.A.
2. The addressee may not be in a condition to receive the 1st Class item because of absence or censorship.
3. Authorities are permitted to inspect, peruse and/or copy the information contained in the 1st Class item.
4. Authorities may forward the item, in whole or in part, to the addressee, or they may decide to deny the item entirely to the addressee.
5. If the addressee is forbidden to receive the 1st Class item, it must be returned to the sender. Failure to return First Class Mail is theft.

Government is said to exist in the minds of the governed. A government perceived to be unjust falls into disrepute, and thereby loses its legitimacy. When legitimacy is lost in the minds of sufficient people, a regime change may occur, as is recorded in American history.

As a former civil servant, I am quite aware of these facts, and that justice must be seen to be done. If thieves are inmates of prisons, it would seem futile and corrupt to have thieves in charge of prisons, also. A government tolerant of corruption thereby endangers its own existence.

Since you are entrusted with handling your inmates' First Class Mail, your prompt attention to this matter would not only be appreciated. It would be to your advantage.

Yours faithfully,

  
Eric Thomson

18 Jewlie 09

Hail Thomas! Thanks for your letter of 14 Jewlie 09. It appears that your zoggies are tampering with your First Amendment rights in violation of the laws by which they claim to abide. These laws include Article 119, I believe, of The U.N. Charter of Human Rights & The World Postal Union Treaty re 1st Class Mail. I've long noted that "A corrupt society is known by the number of its laws, & a tyranny is known by the number of laws its minions break." My last letter to you was dated 30 June 09, so you should have received it by now, ZOG willing.

So you upset a Christ-eater & she betrayed you for expressing your well-informed opinions. Yes, they are indeed \$ervants of the \$erpent, i.e. The Midgard Serpent or The Snake of Zion. In my experience, any good a Christian may do is in spite of his Christinsanity. If you were a jew or Moslem, your zoggies would treat you with the proverbial kid gloves. As truth reveals, your only 'crime' is being White.

Consider the Swastika: This symbol is a typical sun-sign, a cross representing the 4 seasons, as **does** the cross adopted by the Jesus-eaters. According to a research feature entitled Zeitgeist, all major religions are derived from sun-worship, including those of the Mayans & Aztecs. The sun is the giver of life, & its phases, seasons, sunsteads or solstices affect all living things, particularly in the northern & southern hemispheres. Zeitgeist reveals that the biblical Jesus is one more representation of the sun god, like the Egyptian Horus. All sun gods were "born of virgins," had 12 disciples (months & signs of the zodiac), had major events at the winter & spring solstices, which are sun worship holy days or holidays, & fought darkness (Set in the Egyptian religion).

I understand that the Swastika was adopted for a time by jews, who also had a lion symbol (the Lion of Judah), but they chose the Seal of Solomon, Star of David, Jew Death Star in current times, which is the geometrical representation of their own biblical Beast with its 6 points, 6 triangles & 6 internal angles which conform to the magic number of The Beast: 666, in jewish cabalism or black magic. Those who do not bear this mark are known as Goyim, i.e. Gentiles & "soulless cattle." What could be more hateful than this belief? When jews speak of "human beings," they refer only to themselves. Let "Dr." Peak deny this & thereby enter the ranks of the so-called "anti-Semites." He may **as** well know that what we write goes to the world via Internet, so I can testify that Peak alias Nadir is a 'good' little zoggie with lots to learn, if he isn't jewish.

The Swastika or Sunwheel is a **sacred** symbol to most people, including the Hindus & American Indians. The Buddhists also use it, since their religion is a heresy of Hinduism. Indian ships have big Swastikas painted on their bows, thus shocking the jew-dazed Goyim of Judeo-America, where it was considered a "good luck" sign in presidential campaigns before the anti-Aryan mania. Your zoggies dare not ban the Swastika on American Indian publications, for fear of racial sanctions, so their only consistency is their anti-White policy. If you're a non-White, a Swastika's all right. Honest Injun! To equate the Swastika with Hitler is to deify Hitler! Thanks a lot, zoggies.

I have on my bookshelf a book by Rudyard Kipling prominently decorated with Swastikas, with his poems & ballads, published by P.F. Collier & Son, New York City. The book's Swastikas are facing the same direction as those on the German flag of The Third Reich. Would your zoggies ban Kipling, who was a Freemason & therefore a jew-bankster servant? Or would they blot out all the sacred Hindu symbols? Being "politically-correct" is like having a compulsion neurosis, eh Dr. Peak? Unfortunately, I find no date of publication, just a pencilled dedication of 1912, the year my father was born & The Titanic sank, 2 years before World War I, the big jewish harvest, & the mutual genocide of Our Race.

Life is Struggle. What's the point of eating? We only get hungry again! But life is also informative, exciting & even fun, as a Viking warrior & seaman could tell us. In battle, we must know our enemy. Your arguments with zoggies are instructive & make you stronger on behalf of Our Race. Battles are only lost if we, ourselves, give up. In Valhalla, or Viking Heaven, battles are fought every day, with winners & losers, who are renewed to do battle the next day. Between battles, I understand that warriors frolic with females & imbibe lots of mead. Pretty scary, eh zoggies? When the Spartan leader was told that the Persian invaders' numbers were such that a volley of their arrows could darken the sun, his reply was: "Good, that means we can fight in the shade!" Some struggle to live, but others live for the struggle. As the German Frontschau films ended: "Der Kampf geht weiter" (The Struggle continues). Strength through Joy to you. ORION!
