

14 AUG 09

Dear Tom: Many thanks for yours of 5 & 8 AUG 09. Yes, I, too, have been appalled by the deep & broad jewification of society in what I now call Judeo-America. It is not that we have become jews (the 'Master Race') but that we have become such jew-slaves, largely by worshipping their puppet god-for-Goyim, Jesus, The Scapegoat. From Christ-eaters I receive the consistent line that "all has been prophesied, so there is nothing we can nor should do" in attempting to defend ourselves from oncoming events planned for us by our rulers. We should just pray & send money to our respective churches, which give it to the needy non-Whites.

Meanwhile, the smiling Chinese continue to rake in ZOG's shekels on behalf of taking our former real estate. As you say, this is human nature: To seek land for one's racial group. Whites are in such a bind because we've allowed jews to denature us into bloody folly, as we concentrate on frivolity induced by the jewsmedia of entertainment, information & edjewcation. As it says in The Protocols: "Our watchwords will be Force & Make-Believe." In jew-illusions we trust & under jew banksters we're bust, 'cause our brains have gathered rust. This is why we are marching righteously into the dustbin of history.

I read a news item headlined: "WTO win could open China's door to American companies." This means that Judeo-American companies will relocate in China, where they will become Chinese companies with branches in the USA, as well as overseas. Goyim forget that companies are owned by shareholders, & Chinese have lots of zogbucks to buy those shares, so what we see is the jews' departure from this bled-out host people, onto their new hosts, the Chinese. This is really nothing new, since companies are "globalist," meaning they have no loyalties to any political state, on behalf of grabbing international profits. Obama declares that he is a globalist, so his "buy American" statements are empty words, as they must be. As one comedian said: "Be American. Sell out!" What fools, childish fools, we are!

I recently read Kevin MacDonald's review of E.P. Kaufmann's "The Rise & Fall of Anglo-America." Kaufmann, being jewish, omits the jews' role in this fall, which is described as "suicide by idea," jewish ideas, in fact, of phony (anti-White) universalism touted by our Foolish Founding Felons. The USA was built to fail on behalf of Novus Ordo Seclorum.

Greed was partially disguised with typical Anglo hypocrisy, as when Blacks were brought in as slaves in order to "Christianize & civilize them." The majority White slaves who built this economy were already Christians, so the less said, the better for our rulers. Greed was expressed in such terms as "providing liberty to oppressed peoples," who were invited to fill our living space. The illusion that all aliens would somehow become spiritual Anglo-Saxons was apparently believed by Anglo-Saxon intellectuals, A.S.S.es for short. Hence, we see the progression from Anglo supremacy + alien assimilation to anti-Anglo, anti-White ideology, that of today. The Judeo-American experience illustrates that rich fools are no better than poor ones, but they certainly are more harmful!

Kaufmann & MacDonald confirm my findings that White Nationalism is necessary to defend White living space, & White livelihoods therein. For lack of White Nationalism, our livelihoods & living space are lost. Don't bother to read about it. Just look around. Of course, we cannot begin to cope with problems if we don't recognize them as such. If we keep tripping over something in the dark, we need to turn on the light & remove the obstacle. But we keep on tripping, & are unaware that we need to turn on the light, 'cause we're such stupid Goyim. Perhaps an enterprising jew will offer us 'therapy' for 'chronic trippers.'

I recently spoke to a young, Ostensible White couple. The male thinks there may be a problem in our society & our economy. He knows that gun sales are sky-high & that ZOG is taking measures to curtail ^{them} by restricting ammo, &c. For almost an hour I spoke into a void of knowledge in regard to economics, politics & demographics. His girlfriend looked bored. She turned out to be a Christ-eating 'prophecy' proponent, as well as ignorant even of Jesus quotes. Her message was succinct: My words were of no account, & her boyfriend will get no sex from her unless he kowtows to her churchianity. I concluded by saying that Americans are well-armed with weapons, but unarmed with thought.

Whites seem to believe that technology changes human values & behavior. In reality, inventions are no better than those who use them. Fools simply extend their folly via smart machines, & abundance breeds more fatheads. Maybe some of us are finally learning that our fortunes lie within our genes, rather than in the stars or our cars. Truly, we have lots to learn & very little time to do so. The freight train of history is bearing down upon us, & we don't seem to know we're standing on the tracks.

I have a rule which I refer to: If a situation is serious, but not hopeless, I strive to address it with urgency. But if a situation is hopeless, but not serious, I shrug. What say you, Whitey? DOWZ! ORION!

Eric
