Hail Braxton! Many thanks for "Behold A Pale Horse" & the Great "book mark." Author Milton Cooper reveals some important news items, but his major premise of "prophecy" is bogus. His message is that there's nothing we can nor should do, except pray to a sky-jew & buy books from his publisher. This is the jew way, as I see it: If you don't like evil capitalism, there's the false savior of communism, both completely kosher. If you're sick of Christ-insanity, there's kosher Satanism as an alternative or kosher atheism. If you don't like ideologies, there's booze & drugs, supplied by, guess who: Your 'friendly' jew. The commie kike, "Lenin," said that "Religion is the opiate of the masses." In other words, religions, established by jews, put the masses to sleep. And if the masses wanted real opiates, the jews would supply those, too. Business is pleasure & pleasure is profit.

To use the Goy (sheeple) analogy, the jews have fenced us in, so we can escape their pen only by means of the 'exits' (false ones) which the jews have made for us. Since most people are sheeple, through no fault of their own, except for their parents, they tend to copy the behavior of others. As Bertrand Russell said, "Most eat the cake of convention." I studied what others did, since they were here before me, but I was also aware of what I wanted to do & to be. As my parents said, "You were born old." This didn't mean that I was feeble, but aware of what I wanted at an early age. The masses did not appeal to me at all, for I had no wish to be like them. In elementary school, my male classmates wanted to be filling station attendants, while I wanted to explore The Amazon. Many of them got their wish, & I certainly got mine, because that was what I wanted, & I was willing & able to work toward my goal in every way I could. In 1963, I stood on the shores of The Amazon in Leticia, Colombia, & I was not disappointed, after which I returned to my English teacher's job in Cali. My 'exploration' was paid for by my jobs in the areas I wanted to visit. Life is "the art of the possible."

UFOs are another diversion from our Racial Survival. Only if "space aliens" relate to White Nationalism are they relevant to White Nationalism, for I am a White Nationalist, first & foremost. I see UFOs as another "false exit" from our jew cage. "Nice try, Mr. Cooper, but no cigar," as they say in the carney booth. As I say, his book contains some important details, if you are unaware of them from other sources, but the context is more kosher crap. My attitude toward jew "prophecies" is simple: Jewish books are for the jews, & jew messiahs too, so if you're not of jewish blood, what good are they to you?

As I studied the family photos of Author Cooper & his Asian wife or girlfriend, I noted the peculiar facial features of his father: Cooper is often a name used by jews, & his father may be a jew. Oh, whopty-do! The author's Eurasian brat proves he believes in genocide for the White Race, if he is not a jew himself. I wish you better luck on your choice of reading material. The ZOG wants to kill the White Race, so Cooper & his like would do that job without the ZOG. Such a deal! There's no sky-jew-rescue for us, & the jews who invented the Christian crap know that. Our greatest "sin" is that we do to Our Race in fits of Christ-insanity.

Much of Cooper-the-Race-mixer's information I already knew from publicly available sources as well as my own firsthand experience in various places he mentioned, like Colombia & Panama. I discovered The Kosher Cold War Hoax on my own, from observation & Rockefeller publications such as Foreign Affairs. I was jarred by Cooper's typo when he stated that the baby-boom occurred when soldiers "returned" in 1941 to 1945. How did they "return" in the war? U.S. soldiers, sailors & airmen returned AFTER the war, so the baby-boom began in 1946 & continued into the 1950s. I saw that in the rapid growth of suburbs in the USA.

He refers to "The Report From Iron Mountain," which I've read. The theme of the book is how to maintain social cohesion by means other than war. This book was written during the phony "Cold War," so we already had "cohesion" in the form of tyranny in the USA-USSR, much as George Orwell described in his "fictional" book, "1984." As my old professor used to say, "There are no big secrets." But Cooper's method is to present certain facts within a context of lies, with the poison pill that nothing we can do matters, 'cause it's all "prophesied." Hence, we are to ignore the rioting outside & pray until the roof caves in, exactly as ZOG wants. "Iron Mountain" mentions the tactic of a "space alien threat" which could serve to unify 'mankine' alias human cattle alias Goyim under a one world regime alias Jew World Ordure, just as ZOG wants. ZOG has instigated bloody wars on behalf of jew power & profit by lending money to all sides, so that ostensible victors would be in debt to the jew bankers. Could jews also lend to "space aliens?" I think human "terrorists" work better for ZOG. ORION!
