

7 SEP 09

Dear Tom: Many thanks for your August letters! Our weather has progressed from hot to halcyon. It was as if someone pulled a switch from summer to fall in 24 hours, including a gift of rain for this semi-desert region. Our normal temperature is in the 70s, which people pay for with heating & air conditioning most of the year. The coming winter should be, well, different, as you say.

Whitey's mania to feed the muds is comprised of greed & Christinsanity. The greedy scum figure they can make money from the tax-payers for feeding the multiplying muds, & the Jesus-juicers believe it is our obligation to feed those who breed & seek to displace us. If we do not oppose these traitors, they will surely do us in.

I agree that the Chinese alias "the jews of Asia" are unlikely to be scammed by paler or darker yids, any more than a Mr. Ponzi could fool a Mr. Madoff into "investing" in his scam. That would make a good comedy skit. As long as the Chinese & jews can fool us, they will do all right, as we do all wrong, to ourselves.

As you say, Whites blunder by sharing their technology with muds before we even understand its positive & negative values to us. A recent jewspaper reports a 'rehab' course to wean people off the Internet. One young Ostensible White was so addicted to some war game that he flunked his college courses. Now he attends a camp for Net-Nerds Anonymous, where he does actual chin ups & other physical work. The Chinese keep their tech achievements to themselves, & they don't want us to know about those White Tokharian mummies in NW China, like the Amerasians re Kennewick Man. When it comes to knowledge, Whites are exhibitionists, no matter who gets hurt, especially ourselves. Hitler warned that exporting White tech to China would put Whites out of work, in 1928! Dare we say he was right, once again? Hitler predicted that the Americas would fall into Chinese hands if we don't get the jew monkeys off our backs. Spics & Blacks are the initial demographic bombardment to soften us up for Judeo-Babelism. Spics are already Eurasians, like "Indians," so a few more Asian faces won't be noticed. I'm at the point of noticing Whites, since they are so few in Brownest Yakima. So much for "The War of the Worlds." This is "The Camp of the Saints," in which we acquiesce to alien invasion, like righteous wimps. The judeo-economic crisis merely points out the competition for jobs & living space which would occur regardless, due to this ongoing invasion sponsored by our Zionist (jew-supremacist) government. Whites 'must' allow this invasion, supposedly because we are 'guilty' for existing in the first place, as preachers tell us. Some Christ-eaters are more equal than others, for if you're brown, you're blessed, regardless of "original sin!" It comes from a jew, so it 'must' be true.

In regard to mechanisms for mind-manipulation, the belief in absurdities is essential. Hegel called it "Thesis+ antithesis" followed by "synthesis." If one can accept the combination of opposites or contradictions, then his brain is softened for the inclusion of whopping oxymorons, as in "Judeo-Christianity" & "Marxism-Leninism." If one can believe at the same time in an all-forgiving god who is merciless in his thirst for eternal vengeance, he is ripe for suckerhood. "My kingdom is not of this earth, so gimme yer dough, suckers!" He might even believe that two bodies could occupy the same place at the same time, & that a finite earth can sustain infinite numbers of polluters & consumers. If we attempt to synthesize the "stop" & "go" of a traffic signal, say, by proceeding slowly through an intersection, we may be rewarded with a collision or a traffic ticket. "But, officer, a collision is a form of synthesis, as I understand Hegel!" This way to the looneybin, or maybe the crematorium.

As you say, a race needs living space or "habitat" in which to live. When we give that up, we also give up our future, by denying space to our own offspring, & the natural resources that space contains. Our wars allegedly fought to defend Judeo-America from foreign invasions resulted in the needless sacrifice of our own kind in return for alien encroachment on our soil, i.e. foreign invasion, albeit expressed in jew jitsu euphemisms, like "refugees & asylum seekers" or "boat-people." They 'need' our land, so we 'need' to give it to them, along with our jobs, &c., just as we 'need' to die for Israel in Iraq & Afghanistan. Are we stupid or cowardly? My suspicion is that we are both.

Unfortunately, we do seem to fight those who are most like ourselves, for we compete for similar things. Warfare is a form of communication, so we can understand how bemused were Judeo-Americans when the Japanese would proclaim "Victory!" after the death of Japanese defenders on some unnecessary island in the Pacific, which the Americans should have skirted, after knocking out Jap air & sea supplies. But our ZOG wanted to waste White Americans, so into the kosher slaughter we went, like 'good' sheeple. The Japanese island garrisons were,

2)

in fact, prisoners who were immobilized & in danger of starving, but we had to attack them while they still had means to resist, much to our cost! T.E. Lawrence had done the same to the Turkish 4<sup>th</sup> Army in Medina by denying them supplies sent via the Hejaz Railway which were barely sufficient for them to remain in Medina, **entirely unable** to mount an offensive. When it was appropriate, Lawrence cut the railway, causing the Turks to retreat, so they were victims of the desert, the Bedouins & the pursuing Brits. The Japanese definition of victory was twofold: Either they defeated the enemy, or they died bravely for ancestors, honor & Emperor. Japs believe in an "afterlife," like Crusaders & Jihadists, so death is equated with "victory." Judeo-Americans were skeptical about that, & declared that the Japs were "fanatics!" Oy veh! Yes, War Criminal McNamara was a "Strange" one indeed. "A man in time," as Savitri Devi would say.

Thanks for the demographic information on the diminution of White-held territory in the Middle Ages. That rebuts ZOG's propaganda that Whites have been the most rapacious invaders & conquerors of all times. It seems to me that the EW invasions swung back & forth like a pendulum. Alexander the Great & the Romans conquered in the east & Genghis Khan & Attila reversed the process. The Whites exhausted themselves in World Wars I & II, so the East has come west again. According to my information, Spain is now becoming an Afro-Moslem entity, so the Moors are back, in force. In this invasion, the stupid Whites under jew-rule welcome their would be destroyers, from southernmost Europe to the Arctic Circle. Whites take The Pill & muds take their land. As jews say: "Such a deal!"

Yes, the wealthy have no nobility, & their wealth reveals their disservice to their host peoples. Will the growing economic, demographic, political crisis 'cure' them of their parasitic predations? Stay tuned. I recall an old fable: The Lone Ranger & his faithful Indian sidekick were in a real bind. The Lone Ranger said: "Tonto, we're surrounded by at least 100 hostile savages & we're down to our last few silver bullets, so it looks as if we've come to the end of our trail, old buddy." "What you mean, 'we,' White man?" said Tonto. End of series.

I'd heard from an architecture student that Frank Lloyd Wright was well-known as a philanthropist, but I'd never heard about him being an arsonist, murderer & race-mixer. Maybe he thought that his reputation as an architect allowed him imperial privileges. If you wanted him to design a house for you, a portion of his fee would include your wife. Wright must have had lots of charisma, even if he weren't Michael Jackson.

As you say, motorcycles are losing their image of Marlon Brando "Wild Ones." They are becoming geriatric symbols of youth, on the somewhat 'wild' but law-abiding side. In heavy traffic they are dangerous for their riders, since motorists don't seem to see them, as in the case of bicyclists on streets. A cheaper image, & much safer, would be to wear an eyepatch & talk like a pirate: "Aargh, pass me the grog, matey, & I'll splice the main brace." Bartenders would need to learn pirate vocabulary so such customers could be served, of course. Hunter S. Thompson described "bikers" as lacking motorcycles, but wearing biker garb with their drinking buddies in "biker bars," where one sees no bikes, but lots of drunks dressed like bikers. They may converse using biker slang or jargon: "I 'bout threw a rod when he came in," or "she like to bust my chain," &c. One could be bilingual, using pirate slang in one bar, then biker jargon in another, or by acting as interpreter in conversations between bikers & pirates. "A 4-masted crotch-rocket for your thoughts, me hearty." That would signify that the customer was a biker-pirate who'd had too much to drink. Stay tuned for biker-pirate-cowboys, 3 good reasons for avoiding bars & booze!

I treat technology as a convenience, since I don't have to use it at work, after my last job left for India. The best invention since the telephone was the ringer OFF switch. Being on call 24-7 is my idea of cruel & unusual punishment. Several correspondents want me to go "online" & accept E-mail, but I prefer "snail-mail" which I can collect when I want it, rather than have others impose it upon me according to their whims, no matter what I'm doing. Yes, I also use my light switch to good purpose, by turning it off when I want to sleep or foil a potential sniper when I hear gunshots nearby.

"Prophecy" is sure a good rationale for doing nothing when the going gets tough. The promise of an "afterlife" is a Ponzi scam that could make even Madoff jealous: "Why didn't I think of that?" he might wonder. "My kingdom's not of this earth... God is unknowable, so I shall proceed to tell you all about him, after we pass the offering plate around. Don't donate & you'll go straight to hell." I think Sinclair Lewis described such preacher types in "Elmer Gantry." Jefferson wrote that a Christian is "either a fool or a fraud," & seeing is believing. DOWZ! ORION!
