Government Policy E-mail Project:

Concerned Citizens Expose Mismanagement
and Hold Public Servants Accountable

-by Michael Nelson

29 OCT 09. Hail Michael! Many thanks for the outstanding paper on the Government Policy E-mail project. I don't believe that any effort at informing people is a waste of time. Best of all, your project includes information affecting the tax-payers' pockets & the public interest(s) plus a convenient means of activism.

As we know, power is arranged in a pyramid with an elite or criminal minority making decisions for the masses at the top & the various levels of society from middle to bottom. The "political process" is mainly a sham of proverbial smoke & mirrors to bemuse the Goyim, i.e. the masses. In terms of Realpolitik, society is organized on a ruler's need to know basis, which he & his oligarchs direct via the media of information, entertainment & education. We live in a society structured like that of the Judeo-Freemasons & the Judeo-Assassins, in the form of a cone segmented into various levels, in which more information is available as one approaches its pinnacle, where, in theory, the one at the top knows the most.

Government therefore exists in the minds of the governed, so truth never hurts if the body politic would remain healthy. Politics is, after all, people-power, & people need to understand reality. As for an omnipotent, omniscient ruler, he is at the mercy of his own informants & advisors who may tell him what he wants to hear, rather than what he needs to hear. As for the majority (masses often of asses), they tend to believe what they want to believe, especially if it pays them, as Karl Marx alias Mordecai Levy noted.

I therefore suggest that you divulge to zoggies in the gulag system that which is to their advantage to know, within their restricted purview. Perhaps they would not wish to comprehend the full dimensions of The War Against Whites on this planet. It is up to leaders to cut up problems into bite-sized, manageable pieces, as with sailors who need to manage the rigging, rather than learn about maritime economics. Gulags in Mexifornia have learned to segregate inmates racially on behalf of viable prison management, rather than comprehending that ZOG's racial programs are wrong from top to bottom: That enforced race-mixing = strife. Of course, those zoggies who are paid to inflict racial strife may retaliate on orders from the top, but this is the Judeo-American society in which we live. I'd prefer to die in the service of my Folk than be shot down in a random gang-bang shooting, as occurs often in Brownest Yakima in normal, lawful occupations such as going for groceries or watching Talmudvision in one's livingroom.

When I asked Missouri State Pen Warden Bill Armontrout what he saw as the major problems in the U.S. prison system, he replied: "Race & AIDS, & AIDS is catching up fast." He recommended we consult Fred Leuchter alias Mr. Death for information on how real lethal gas chambers are built & operated, as opposed to the Hebrewood fantasy versions. It was Leuchter who took forensic samples from alleged gas chambers in all alleged "death-camps" operated by the Germans. The Prussian blue residue of Zyklon B was barely present, if at all, in places where "millions" were said to be gassed with the substance, which was in general use before DDT as a delousing agent in such places as Ellis Island. Leuchter found large concentrations of Hydrogen Ferrocyanide blue dye in places which were used for delousing clothing & bedding, but where nobody was said to be "gassed." Hence, where "millions were gassed," there was little or no Zyklon B residue, but where nobody was gassed, there was lots of it: Jewish 'logic.'

Thanks for mentioning the relevance of the Lockerbie material. These items were the result of memory + recent news on the subject. Memory is the enemy of tyranny. Even Goyim may be able to comprehend the role of the U.S. government in this crime, as Israeli accomplices. As long as we are jew-slaves, the crimes will continue. If such knowledge saves the life of a single Goy who avoids service in ZOG's wars as a result, the effort is worth it.

By all means, send your "Buzz about Beekeeping Prisoners" to zoggies. It may keep them out of gang-related activities. They, too, may be rehabilitated as useful members of society! Hope springs eternal...

Congratulations on finding a colleague who is capable of transcribing "hard copy" onto the Internet & vice versa. I shall send the Wilen CD + your document on Government Policy/Mismanagement to Bryce Holbrook forthwith. You have covered important issues in regard to government & the governed succinctly & diplomatically, I think, for this issue is becoming relevant to thinking Goyim, as "taxation without representation" became for those of 1776. But Goyim learn all too slowly & forget all too quickly, as our Judeo-American history proves, so we must struggle eternally to overcome the folly & crimes of the past, on behalf of survival. A public servant should serve the public, not a few plutocrats. As one critic noted: "We have private profit & socialized losses." This "republic" has long been a racket for the rich.

All the best. DOWZ! AZABAZA!

Eric
