Dear Claude: Many thanks for your mailing, including your excellent letter to Wayne, who has lapsed into an escapist Star Trek fantasy. I asked him what he'd do if he got a Black convert to his alleged religion, but he thinks that would be impossible. I've read of Blacks who saw themselves as Odinists, with one who thought Thor was Black. You clearly explain the gap between ideology & biology. Religion is thinking. Race is being. There is no escape from being or non-being, certainly not escape into space under present circumstances. Wayne admits that ZOG controls our money, but he can't see how that control also controls our space program. As I mentioned previously, he began to send me snide, insulting letters, ignoring my replies, so I refuse his letters. "Correspondence" is a two-way street, so disagreements may be presented logically & intelligently. Wayne demeans racially-aware Whites, so I guess we would not be welcome aboard his imaginary spaceship. I don't think we can save a race by avoiding racial appeals to its existence. This would be like using an indirect approach to encourage hungry people to eat. Whites must hunger for survival before they would consider Wayne's indirect approach. No wonder he has so much time to write to us. There is likely no interest in his space program amongst the denizens of cyberspace! Your view of religions is far more accurate than his: They must appeal to children, like good fairytales.

Thanks for the journalists' views of Obama's "Credibility Gap." U.S. jewsmedia shy away from pointing out the obvious discrepancies between his campaign promises & current policies. I also appreciate your trenchant reviews of anti-German books & columns. I'm intrigued by the download about Rockefeller agent Brzezinski advising Obama to attack Israeli jets if they strike at Iran. It seems that major power blocs are in movement. In my own opinion, international jewry does not need Israel, especially if they want a Chinese jew world order. But jewry wants the USA & Russia to disarm their nuclear arsenals, not Israel or China. I understand that China supplied Pakistan with nuclear weapons technology, while Russia supplied India with same. There is some tension on the China-India border, according to jewsmedia, as occurred in 1963 when India tried to occupy the former Belgian Congo as "U.N. peacekeepers." Meanwhile, USA continues to harass the Moslem world. Post-Saddam Iraq shows no signs of becoming quiet. The USA "allies" in Afghanistan are the same groups as were the Soviet allies when the USSR occupied the country. Moreover, the USA wants to enlist the Georgians & Ukrainians in their version of the Soviet occupation, so the Taliban is fighting the same enemies it faced under the Soviets. Will the USA renew its partnership with Russia, against China? I doubt it. Israel could nuke the USA if the jews want their war with Iran. Then what would this ZOG do, blame the Iranians? Jewsmedia will say that "Iran had nukes all along," like Saddam's 'WMDs.'

As Pearl Harbor Day came & went, I recalled my jew history professor Rappaport who said that Pearl Harbor was "necessary" to get us into the war. I thought, "What do you mean, 'we', Mr. Jew?" All my jew professors believed that the USA's entry into World War II was "necessary." Eventually, I put jew & jew together, as I realized that their interests were not my interests, nor my fellow Goyim's.

Would China see a war between India & Pakistan to China's advantage? Maybe we'll see. USA jewsmedia have carried stories about the Pakistani, Headley, who allegedly helped set up the Mumbai raid. Headley lived in the USA. Speaking of terrorists, I note jewish faces amongst certain "Swiss" banksters in the news. Just how Swiss are Swiss banks? Flight from the U.S. dollar continues apace, so Judeo-Americans face a possible Weimar, or even Zimbabwe inflation. Goyim behave as if ignorance is bliss when it comes to banksters. Too bad that's not so. Maybe they'll pray to Wayne for an escape into outer space. But most say they believe in a Big Sky-jew rescue, accompanied by Armageddon. Sorry, Whitey, there's no chance of that, either.

Occasionally I am called up for jury duty, but this time I went through the selection process presided over by a judge named Schwab, who I understand to be a big landowner (jew?). He told us how privileged we were to live in this "democracy" which enjoys the 'freedom' of jury trials. He also told us that "brave Americans" had fought to save our right to trial by jury, a 'warm-fuzzy' Norman Rockwell image of the USA, WHICH NEVER EXISTED outside of mythology.

The judge was offended when I spoke about jury nullification of statute law, as occurred in the Canadian trial of jew abortionist Morgenthau whom the stacked jury found not guilty, despite his violation of the law. Clearly, I knew more about Anglo-Saxon law & case law than he wanted a juror to know! The abortion trial jurors were picked by a Jew York Shitty jury selection firm. As I understand from reports, Christians were excluded.

During the course of our jury selection we were asked to answer the questions on the reverse of this page. This was the first time I was able to state my case against FEDZOGUSA before an audience of ostensible Goyim who were paying attention! Needless to say, what "our government" did to me, it could do to anybody. No, I'm not a Zud who pleads only for himself. I bear witness against our ZOG, so others may be warned. ORION!

Eric
