Doctor charged in driveway blast asked to regain prescribing rights

BY THE ASSOCIATED PRESS

LITTLE ROCK, Ark. — A doctor accused of setting off a bomb that severely wounded the chief of the state medical board had pleaded with the panel to reinstate his permit to prescribe narcotics, saying he was unfairly targeted and that his life and business had gone downhill as a result of their decision.

Dr. Randeep Mann's correspondence with the Arkansas State Medical Board reveals a physician

who believed he was unfairly blamed for the deaths of 10 patients who overdosed after "mis-handling prescriptions" for powerful painkillers.

"As a physician, all I have always wanted to do was to help a fellow human in need and not to cause further harm," Mann wrote to the board in 2007.

But Jim Moss, a pharmacist who investigated Mann and others for the medical board, said Thursday the doctor employed questionable busi-

ness practices and attracted an unusually high number of complaints.

"It's the most investigations I've done on a single doctor," Moss said.

Prosecutors say Mann's repeated run-ins with the state board led him to detonate a bomb in the driveway of its chairman, Dr. Trent Pierce, last February. The blast left Pierce with severe burns and caused him to lose his left eye.

Mann was charged Wednesday with using a weapon of mass destruc-

tion in a bombing and other federal charges that could land him in prison for life if he's convicted. He is in federal custody. Mann is scheduled to be arraigned Jan. 21 in federal court in Little Rock.

"To blame the physicians for what the patients chose to do is simply unjust," he wrote.

As regards the infiltration of the BNP, Griffin went to Israel and they made a deal, whereas only Muslims would be attacked and not Israel. The same happened both in Holland and Switzerland. The old tactics was to pour millions of Muslims and others into Europe until there was a reaction and then make a deal with the opposition, to the effect that, since both Israel and Europe have the same enemies, why not unite against the Muslim invasion in both parts of the world. Muslims become the villains of the piece and Israel the victim, like Europe. Thus, opposition to Israel is deflected and the conflict targets Muslims, which is quite correct, since they are the invaders. And it makes sense to support Israel as nobody in Europe, would like some 6 million Jews landing on the Med. coast. But of course, this is a double edge sword, as people who would be too frightened to join an anti-Jewish movement, now gladly support an anti Muslim one. They now become activists and as such are open to further indoctrination from our side. If they can be racists against Muslims, there is nothing preventing of being anti-Semites. The recent Swiss vote against minarets in fact had nothing to do with Muslims as such. There are some 400 000 in Switzerland which are mostly meek and mild and integrated, coming mostly from the Balkans. However there are plenty of them Niggerballs. These are the ones which must be thrown out. The minaret vote follows on the "black sheep" posters from a few years ago, which opened a lot of eyes. In view of the anti-racists laws, nothing can be said publicly for fear of violating the law, so ways have to be found to side step the law in such a way that people understand what is at stake. It is interesting to note that in the canton of Geneva, 17 members of a new 'extreme right' party were elected to the local parliament. Their campaign was "clear the pushers from the Paquis area (where all the Blacks live)". They could not say "Blacks" as this would have been against the law, so they fought "pushers". Big difference! Interesting enough, a lot of their supporters were immigrants from other parts of Europe.

When I left Switzerland, the papers were running the story of the mother of a cocaine addict. She decided to find out where the coke came from and get the cops to do something about it. This led her to the Asylum Centre in Bex, where they put illegal aliens who have thrown away their passports and therefore cannot be repatriated. So she surveyed the site and noted all the drug deals. Then she called the cops and 17 pushers were arrested, all Blacks, of course. The most interesting comment came the next day. One letter to the paper stated: "Those poor refugees, they must live with only SF 300 per month. No wonder they are forced to peddle drugs!" People like that should face a firing squad!

The reason why the previous mailing was wet, in all probability was due to a postal strike and sabotage. Probably left the bags in the rain on purpose.

Anyway, I leave you and wish you all the best for the Winter Solstice. Hoping that next year will be successful for our cause.

Dear Tom: Thanks for yours of 13 JAN 10. Like you, I was struck by the wog-quack who pre-scribes dope for all comers & bombs for his critics. It seems that sincerely-felt messages must be said with explosives, rather than roses or chocolates. Dr. Randeep Mann's trial is likely to be entertaining, when he offers his 'diverse' reasons for bombing his local medical board member. After all, "diversity" does not mean "good" in all cases, despite ZOG's touting to the contrary. The USA has the largest prison population in the world because of its diversity of morals & behavior, which is the outgrowth of its genetic diversity. NPR jewsradio reported that Blacks compose 3% of the Washington state population & 20% of its prison inmates. Is this due to "400 years of slavery?" Show me a 400 year old Black, & I'll consider it, but my own relatives were brought here as slaves before the Blacks, so where is our chip on the shoulder?

I perused a LIFE magazine photo collection which featured Civil War corpses & child labor in U.S. factories of 1911: All White kids, industrial slave labor, just as in jew-ruled Britain. It included pictures of child coal-tiplers sitting over troughs of coal for screening & sorting in the USA. Obviously, any child, 12 years old or less, was acceptable. The black coal smudges on the children's white faces indicated their inhalation of their employer's wares, for which he no doubt docked their pay pittances. Scrooge has had a long life, indeed, in his pursuit & exploitation of cheap labor. But now, machines have largely replaced humans, & Chinese have replaced Whites in many jobs still done by human labor, just as Hitler predicted in 1928. It appears that we live in an era of job-scarcity, so more bodies may be provided to participate in the jew-banksters' wars. As jewsmedia proclaim: "When the economy is down, military recruitment goes up."

Thanks for revealing the kosher connection in the Dutch airport "security." When will we Goyim learn that it is suicidal to put jews in charge of anything, in addition to our economy & our security? Former CIA journalist Marchietti revealed that the Mossad was in charge of the New York Trade Towers' security when a bomb was exploded in an underground parking garage before 9-11. Atlas Security was the Mossad front firm in question. As we might expect, his courageous reportage fell on the ostensibly deaf ears of the FBI et al., much like the information on the Nigerian who attempted to bomb the Detroit flight. I wonder if bomb-making is a qualification for medical certification where Dr. Mann went to school.

As you say, the earthquake in Haiti occurred in the very time & place in which it was needed. Why has no preacher-for-profit chimed in that it was "God's will," because someone had sinned? It was said of post-Katrina New Orleans by at least one businessman of Jesus ben Yahweh, as I recall. Religions are traps for fools & incomes for frauds, as well as trammels for tyrants, as described by this formula: Guilt + Fear = Power & Profit for Predatory Preachers.

I'm glad you observe what most fail to see: The greens & eco-freaks studiously ignore non-White population-increases which serve to pollute & deplete essential resources for life on this planet. It is my impression that Whites are supposed to pay for Earth's ills so muds can carry on with their depredations. Such 'logic' does not & will not compute in terms of ecology nor economy. Obviously, the goal is to 'get' Whitey, then get rid of him completely.

Deserts are usually created by the 3 O's: Over-logging, over-grazing & over-population, as with deserts in North Africa, the Middle East & China, where the Gobi is advancing into Beijing, due to Communist agricultural policies, as occurred in parts of the former USSR. I saw deserts being created by Blacks & their herds in Central Africa. It doesn't take very long.

It's interesting how things are affected by fashions. I grew up in the Nuclear Neurosis of the 1950s & 1960s in which The Bomb was depicted as dangling over us like a Sword of Damocles. The Kosher Cold War was the hair which held it over us, based on MAD, i.e. Mutually-Assured Destruction, should anyone use it. Now, we rarely hear about such a possibility, although nuclear weapons & rumors thereof are in much wider possession now. Israel claims that it will use nukes whenever it feels threatened, by whomsoever. Israel makes North Korea seem 'reasonable.' As for Iran, I see the same old "weapons of mass-destruction" propaganda our ZOG used against Iraq. Alleged intentions are given the same weight as actual possession of nuclear capabilities, by our ZOG, whose "drones of death" do the job we had accused Iraq of "wanting to do." When ZOG points an accusing finger toward others, it points 3 fingers back at itself: If they are guilty, then we are at least thrice as guilty. So it has always been.

I've been advised that jews are offering support to blightwingers in Britain so they will ally with Israel against the Moslem invaders in their midst. Look for the same policy in Judeo-America. This program is similar to the Zionist-Nazi collaboration in sending jews to Palestine under The Transfer Agreement. If an old trick works, why invent a new one? DOWZ!
