Your Mother
(Direct English Translation)

"When your mother has grown older,
When her dear, faithful eyes
no longer see life as they once did,
When her feet, grown tired,
No longer want to carry her as she walks -

Then lend her your arm in support,
Escort her with happy pleasure.
The hour will come when, weeping, you
Must accompany her on her final walk.

And if she asks you something,
Then give her an answer.
And if she asks again, then speak!
And if she asks yet again, respond to her,
Not impatiently, but with gentle calm.

And if she cannot understand you properly
Explain all to her happily.
The hour will come, the bitter hour,
When her mouth asks for nothing more."

Adolf Hitler, 1923.

THE AWAKENED DREAM

I dream of land of yesteryear
of tempered grace without the fear.
A world designed just for my kind
a place with others of like minds.

I dream of bold, courageous days,
a time when others know the ways,
Past days of glory, days so bright,
the reign of men with skin so White.

I dream because I am a man
who must believe and take a stand,
For I won't hold these dreams inside.
I speak aloud my faith and pride.

So dream with me not of the past,
For never do such dreams last.
Dream instead of The Holy Dawn.
Dream that Our People carry on.

But remember on this darkened night
That dreams may never see the light.
So live your dreams with open eyes
And see our dreams be realized!

24 JAN 10

Dear Tom: Thanks for your letter of 16 JAN 10. It is indeed tricky to tune in a crystal ball in regard to forthcoming events, when we consider all the options open to our jew masters. For reasons unknown, Britzdogland is on high alert for some act of "terrorism," as a German language newsletter, "UN", which stands for "Independent News" announces a groundswell of pro-European developments against Moslem arrogance. The jew mayor of Amsterdam wants to deny women unemployment payments if they cannot find work because they insist on wearing body-concealing Moslem garb (burkas). His name is Job Cohen. Thus we see growing jew support & instigation of European reaction against the Moslem invaders, so a major conflict is brewing, which may lead to wider war in Europe & the Middle East, on behalf of Israel, of course.

Fedzogusa propaganda strives to equate Moslem with "terrorist" in the dim minds of the sheeple, so the anti-Moslem movement is growing in predominantly non-Moslem countries, including China & Russia.

It seems to me that the jews consider the Chinese their new hosts, so they'll dump the now-depleted USA in favor of their Jew World Ordure. There's nothing to hold them back, that I can see. As you say, Blacks are indeed 'surplus' to jews' requirements, so all their jewsmedia yammers of concern for the Haitian niggers may be eyewash to disguise their genocidal intentions to rid Africa of its Black Overburden, which impedes their Chinese hosts from obtaining valuable mineral wealth. The Whites created the Black population explosion, & the Chinese will reverse it, by all appearances, as the White role also fades from history & territory. A jew version of "Hamlet" might have the line: "Alas, poor Goyim, you've served us well," in regard to White folly.

I agree that Obama is on thin ice, especially if he tries to get tough with the jew bankers. I think his bark will lack bite in this matter, unless he's really dumb & disposable. He is certainly surrounded by jews, including Hillary Clinton, whose daughter is to marry the son of a jew crook, so as to keep it "in the family."

Change has occurred rapidly on the demographic front, in which mestizos from the south are shoving Blacks away from the ZOG feedtrough, along with Chinese in high places. It is interesting that Obama has made the Chinaman, Locke, head of the Department of Commerce, which now has custody of U.S. missile technology. The fox is now in charge of the chicken coop, but the situation is much worse when jews are in charge of our economy! Optimists worry about a rerun of Weimar & pessimists worry about a rerun of Zimbabwe. Of course, Obama may depart from office in a sudden, irregular manner, ZOG willing.

If the Republicans can't provide a better kosher puppet, then how about Vice President Hillary & President Biden? Years ago, jewsmedia revealed that the USA has "a shadow government" which is prepared to take over if the present politicians are vaporized by some 'mischance,' ZOG willing. A repeat of 9-11 could be the pretext for removing Obama & replacing his 'team' with such 'shadow' figures. How about Henry Kissinger & George Soros?

Since we are 'just Goyim,' all we can do is guess, based on the things we think we know. I believe that some top-kick kikes know what is to happen, so what will happen will be at their convenience, not ours. My guess is that we are in a similar position to Goyim just before the attack on Pearl Harbor. The jew, FDR, & his commie cronies were in the know, so only we were surprised. My feelings of foreboding are based on my present information/disinformation, as well as my knowledge of history, so another kosher crisis, be it economic, military or political will not surprise me, as I suspect it. This does not mean that I know what to do until the dire event takes place, for my crystal ball is hazy.

Ever since I came aboard the USS TITANIC in 1992, I've had the expectation of disaster, for I can see the equivalent of icebergs all around us, for which we are heading, ^{at} full speed. A few detractors have accused me of "negative-thinking," but I see it as a rational acknowledgment of factual risk, similar to my experience in countries in the midst of civil wars involving mines, bombs & snipers. Thus I don't see myself as being unduly alarmist, for I don't like to stampede the Goy sheeple from their feedtroughs or their cud-chewing exercises.

ZOG politicians prate of "the need for change," which is usually change for the worse, & I definitely think that big changes are oncoming, whether we like them or not. As my colleague, Robert Frens, used to say: "Don't get hit by the falling pieces." It is likely that the ZOG will prosper when their Judeo-American golem (USA) crumbles like the buildings of Haiti, toward the Novus Ordo Seclorum desired by our Founding Felons of 1776. So what's not to hate, already? All the best. DOWZ! ORION!
