## The Secret History of Rothschild World Domination

In *The Synagogue of Satan*, author Andrew Carrington Hitchcock has given us an absolutely spellbinding, year-by-year and blow-by-blow account of how the Rothschild family made themselves into the most influential and wealthiest family in the world. In introducing this book, publisher, author and radio show figure Texe Marrs says:

One group and one group alone is responsible for virtually all wars and bloodshed on the face of this planet. This evil cabal is few in numbers, but like a deadly octopus its tentacles reach out to grip and strangle multitudes of innocent victims. The initiates of every secret society and international organization, from the Council on Foreign Relations and the Jesuits to the Bilderbergers and the Order of Skull and Bones, obey the dictates of this sinister group and tremble when standing before its leaders.

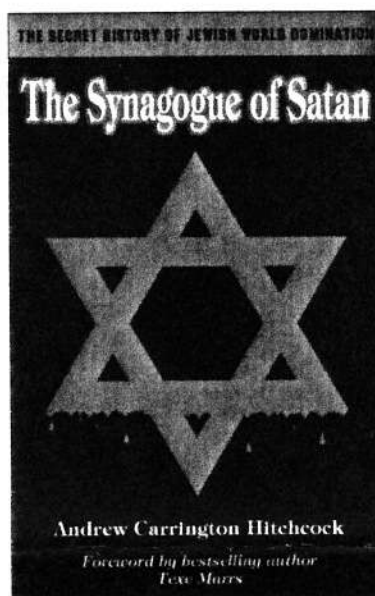

Starting with the year A.D. 740, the book traces the spoor of this incredible family, bound together by a fearsome discipline which permits no deviation.

From the beginning, the Rothschild goal has been ultimate control of the peoples and assets of the globe.

Hitchcock's chronology begins in the year 1649, when Oliver Cromwell executed King Charles I and admitted Jews to England once again.

The Jews had been expelled from England in the year 1290—as they have been expelled from European countries some 40 times since A.D. 1012.

It was then that England assumed an interest-bearing national debt and came under the dictatorial sway of the international masters of money.

The Rothschild chronology begins with the birth of Mayer Amschel Bauer in 1744 in Frankfurt, Germany. He painted a red shield on the door of his modest counting house. "Rothschild" is German for red shield, and this is the derivation of the name.

In 1811, Meyer Amschel Rothschild died. In his will he laid out the specific rules that the House of Rothschild was to follow:

All key positions in the family business are only to be held by family members. Only male members of the family are allowed to participate in the family business. The family is to intermarry with its first and second cousins to preserve the family fortune. [Interestingly, according to the *Jewish Encyclopedia* of 1905, of the 58 Rothschild marriages to that date, exactly half, or 29, had been to first cousins.] No public

inventory of this estate is to be published. No legal action is to be taken with regard to the value of the inheritance. The eldest son of the eldest son is to become the head of the family. However, this condition can be overturned if the majority of the family agreed otherwise.

By Napoleon's time, five Rothschild brothers had banks in Frankfurt, London, Paris, Rome and Vienna. By 1900 it is estimated that the Rothschilds already controlled half of the wealth of the world.

It is impossible today to estimate closely the Rothschild wealth, but it is surely in the trillions of dollars and represents a sizable portion of the world's goods. The political influence of the family, when they choose to use it, has to be irresistible.

The above is the merest synopsis of what author Hitchcock has amassed in this important book. ❖

Hail Braxton! It was good to receive your letter of 12 FEB 10. In answer to your questions:  
#1. How might 5 million people join hands in brotherhood? First, they need to know WHO they are. Right now, they don't & most don't want to know.

#2. Panzers are obsolete. In U.S. Army Basic Training, I was informed that infantry's job was to protect the tanks, not vice versa. The Battle of Kursk proved that, when German tanks were defeated for lack of infantry support. 'Armored' vehicles may be constructed at home, but they first must have a purpose.

We have no time to waste, but Our Folk seem to think we do, so they will not heed us. We are in especially bad circumstances to discuss any laying of "groundwork," as you put it. I know that is frustrating, to pursue knowledge, instead of action, but you are in no position for action, as you know, & we cannot predict the specific aspects of the future. I can see political, demographic & economic trends, but these may intensify sooner than we expect. Our Zionist rulers can choose what they want to happen, & we are their targets for abuse & extinction. Do Our Folk know this? Not that I can see, for they don't want to know.

White Nationalism is not hate, it's hope. Without it, we have no hope as a race. Our ZOG says that love for Our Race is "hate," & we'd be fools to use their terminology. As Orwell wrote: "Who defines controls," so language is our first weapon against Jew propaganda. Christ-eaters preach that we "should love our enemies." See what our love for Jews has done to us. Love your enemy & you're dead. This is why we're losing our war for survival: We fight FOR our enemy.

I appreciate your ambition, but take care that the enemy does not use it against you & Our Race, as they did in the case of Martin Luther & Napoleon. The Jew banksters also used Lincoln. When all 3 did their job for the Jews, they got snuffed.

I'm doing my best to establish contacts & network, but Goyim view my efforts to inform on behalf of organizing for action as mere entertainment & speculation. Wannabe White leaders are full of "me-me-me" & "gimme-gimme-gimme," as you will find out. If your message is too effective, they will try to hide it, ignore it, & never mention it.

Time & distance are also weapons. I've outlived many of my enemies. That's why I'm back in the Jewnited States. But this does not mean that I have achieved any worthwhile support in my decades of attempting to contact my Folk.

I try to spread the message of White Survival through White Nationhood to everyone I meet, not for myself, but for them. Most cannot comprehend what I'm saying, for "White Survival" is entirely alien to them. They don't know they live on enemy territory, with a government that wants them all dead, after squeezing them dry of anything useful to our Zionist occupiers & rulers.

Our progress is not only slow, but it is difficult, as you know, because of who we are. Revolutions are not tax-deductible, & our struggle is unlikely to be easy.

If you find anyone who is DOING something, aside from writing & talking for Our Cause, please let me know, for I do not. I know too many who pretended to be on our side, but who worked for the ZOG, if not as paid agents, then as "useful idiots." When something is done, we must ask, "Done for whom?"

At the rate history is speeding along, if we live to see 2020, the world is likely to be severely changed, into a different 'ball game.'

Victory is a 5-step program. We must start with The Idea. Then we must inform others about it, so as to build the Organization to take the necessary Action to achieve The Idea. So we need: 1) The Idea; 2) The Information about The Idea; 3) The Organization for 4) The Action to 5) Achieve the Idea. Even a week end fishing trip requires these 5 steps.

So far, you've told me of your idea of achieving wealth & power, but not what you'd do with it (not that you should!). But when you are out of ZOG's gulag, you will need to state your Idea clearly & forcefully, as you would if you were selling a product, in order to get supporters. They must see your Idea in terms of benefit to themselves, so you will need to be a good salesman.

Until then, "keep your powder dry," as American revolutionaries used to say. See if you can find "The Fall of the Roman Empire" by Gibbon, for it closely resembles the fate of Judeo-America, & teaches us what to avoid. Keep up the good work & take care.

ORION!
