

THE WAR AGAINST WHITES (CONTINUED) by E. Thomson

Zionist Britain & Australia have sounded retreat for Whites with their **abject** rulers' declaration of White Guilt for reproduction, colonization & attempts to **acculturate** native peoples to such 'evils' as English, Christianity & Capitalism. As students of history know, The so-called British Empire was a creature largely of Cromwell, who brought the jews back into Britain allegedly on behalf of Old Testament Protestantism, but mainly for gold & the power derived therefrom.

As Whites, we are 'guilty' not for slaying other Whites in jew-instigated & financed internecine wars, but for occupying & governing non-Whites' lands, which were largely unoccupied by non-Whites, save for India & China. To the existing White slave populations were thus added non-White slaves, servants, laborers & soldiers. Were we evil in doing this? We should ask our masters whom we served, willingly or unwillingly.

As Whites, we have been both tools & fools, for we fought & slaved for aliens with their hostile alien agenda of Old Testament trickery & thievery, as did the Romans for their republic of the rich, so well described by Tacitus.

But let's review the beginning of these human imperial enterprises: Population increase. It has been noted that the Black Death in Europe acted to reduce the supply of labor, thus improving the lot of the peasants under their 'noble' ganglords, for they had to increase the rights & rewards of peasants in order to retain their needed labor. No peasants, no manor, as any lord would see when sober. Why, he might even have to do useful work himself! As we know, that would be jewish hell. As one jew observed: "Work is for horses, be they four or two-legged." In Judeo-Christian or Islamic societies, it was much more respectable to beg, but never to work. A gentleman could beg for a living, but never work for it.

This anti-social mentality was well-described by Veblen in his "The Theory of the Leisure Class," in which those members of society who are least productive are most rewarded, such as David Rockefeller, Ben Bernanke, the Rothschilds et al., who form the 'legal' tier of the Mafia of Money. Lesser crooks are also rewarded with wealth & power in our plutocratic hypocrisy, which has "the best government money can buy." Veblen would say, "I told you so."

Our Zionist (jew-supremacist) bankster rulers have announced certain 'principles' which they seek to impose on Whites, but negate for non-Whites. As the Marquis de Sade stated: "All men are created equal," but as Orwell noted: "Some are 'more equal' than others." The jewsmedia pundits claim that "race does not exist" & that "only Whites are racist." This is like saying that unicorns do not exist, & only unicorns can be 'unicornist.' Yet, Whites do not point out the absurdity of such statements, so Blacks & Yellows exist, but 'not Whites.' Yet, Whites are 'guilty' for living & for reproducing their own kind, while other races are not. Non-Whites are therefore free to invade & occupy lands on which Whites live, because our Zionist masters claim that non-White imperialism is NOT imperialism. Orwell's observations were correct: As long as we permit our enemies to define the terms under which we live, they are in control. In order for us to live, we must take control over our own lives, but we persist in our stupidity by seeing ourselves as our enemies see us.

Will the extinction of Whites improve life on this planet? If so, then the extinction of all races of "mankind" would be truly beneficial for the ecology. Let's poll the elephants, polar bears & whales!

As I see it, "humans" must seek to live within their means in terms of reproduction, for it is not only "the love of money" which is the "root of evil," but featherless bipeds' own feckless fecundity. Such dysfunctions lead us into wars & famines. Much strife is instigated by profiteers, but most of it is due to our numbers themselves. Sometimes we are too few, but most times we are way too many to live within our spacial & material means under any system of distribution & production. These crises are compounded when we permit criminal minorities to rule our societies for their predatory purposes, with the addition of ever more parasites into our midst.

It is said that "government exists in the minds of the governed," & so, too, does revolution, which must begin in the mind before it takes place on the map. Our duty is to become Problem-Solvers, rather than Problem-Makers, by rejecting the doctrines of White Guilt & White Duty to Feed parasites against our own interests in White Survival & White Continuity. No change of place can save Our Race. Only change of mind can save Our Kind. ORION!
