

TO BE OR NOT TO BE, WHITEY? By E. Thomson

Whites have been the victims, draft animals, slaves & cannon-fodder of alien masters & alien creeds for centuries. But most of all, we have been dupes who provide our alien masters & their minions with power & wealth made possible through our heroic labor & sacrifice, at the expense of ourselves & Our Race as a whole.

History records our victimization in ancient times, when the Habiru Sagaz alias Hebrews alias Desert Cutthroats introduced ancient Greece to gold & internecine wars, which destroyed the Greek Nation sufficiently to leave it open to alien invasion. The allegedly wise Greeks became dupes, 'useful idiots,' in fact, for the hostile Hebrews who intended to destroy them, best of all, by getting the Greeks to destroy themselves, by means of gold.

Whites have proved themselves no wiser in the centuries that followed the Peloponnesian Wars, which bear a strong resemblance to World Wars I & II which devastated European & colonial Whites around the globe. This time, we did it to ourselves for kosher credit, rather than actual gold, so we have become no wiser, but the jews have refined their rackets.

We Whites of the Rothschilds' Bank of England Empire share similar colonial experiences in our unwitting &/or unwilling servitude to our jew masters of usury. The useful idiots amongst us perceive their sheenie shackles as if they were medals of honor, albeit heavy & uncomfortable. From our alien masters we have inherited not only the 'glorious' memories of our sacrifices, to which we pay homage, but also our masters' institutions of oppression & control, on behalf of White genocide, such as the Judeo-Christian churches & the Judeo-Capitalist central banks, which preclude the sovereignty of 'our' governments. For over 1000 years, Whites have never been sovereign, that is, self-governing people. The White Nation has never had its land free from alien occupation & domination.

It is obvious, but worthy of being stated: To enslave people, one must first enslave their minds, for their bodies will then carry out their tasks as obedient slaves. The Judeo-Christian churches performed the totalitarian functions now accorded to the jewsmedia of information, entertainment & 'edjewcation,' but the decaying body of Judeo-Christianity lingers to poison the people in the present, as well as in the past, with the inoculation of guilt, sheephood & undue reverence for all things jewish. The message of the Judeo-Christian churches & the jewsmedia is being intensified against Whites in particular, in a pernicious form of 'ethno-masochism,' the hatred of Whites by non-Whites & by Whites themselves. This policy is now quite obvious in the Empire of Usury, mislabelled "British Empire," for White displacement & defamation is a consistent program throughout Britain, Canada, USA, Australia & New Zealand, as well as in formerly White Europe.

Too many Whites seek 'safety' in clinging to their masters' & executioners' institutions, based on their perceptions of the past: "If only we could return to the days of World War II," they seem to say. But the proof that we fought for our foremost enemy is here for us to see & feel in the present, so there is no use attempting to turn back the clock, even if that were possible: The evils of the past gave birth to the evils of the present. I have a memory which informs me that I did not see some evils previously, such as the kosher conflict between White men & White women, nor the Judeo-Soviet style break up of White family life current under Judeo-Feminism & non-White 'empowerment' via preferential hiring & placement throughout the Judeo-Bankster Empire of Usury. The intended outcome of these Zionist policies is equally obvious: The genocide of Whites, worldwide, so we should think about whom we serve by our present behavior: Certainly not Our Race, nor in great part, ourselves!

Too many White sheeple try to dodge the economic, demographic & political crises in escapist fantasies, assisted by hope of a 'Big Sky Jew Rescue' on earth or a flight up to The Big Pawnshop in the Sky for a slice of kosher pie in the sweet by & by. Others try to change the subject by courting ersatz nirvana via drugs & booze, in hope that Tomorrow May Not Come. Anything in lieu of righteous relevance for White Survival!

It is easy to blame indolence & incompetence on intoxicants, but there is no excuse for alleged homo sapiens' failure to exercise their critical faculties, for we are apt to use the jews' mischievous definitions in our own attempts to think, thus precluding us from thinking in a constructive way about ourselves & our problems, which are largely of our own making, with 'help' from our Zionist masters. I therefore offer these correct definitions so as to clarify our thinking: Nation is a people, not a place. Inflation is theft. Deflation is sabotage. Usury is slavery. Unstated policies are conspiracies. Credit is debt.

Eschew the jew, or you're through, Whitey. Our Race Is Our Nation! = ORION!
