

WHAT HATH ZOG WROUGHT, WITH OUR HELP? by E. Thomson

The Chinese military sage, Sun Tzu, would shake his head in disgust at Whites' behavior, but he would not be surprised, since we are described as "monkey-faced, long-nosed, round-eyed devils & ghost-people," in Chinese lore & discussions, into the present.

The monkey-tricks we have accomplished recently (in Chinese thinking, events occurring during the past 1000 years are "recent") have been (1) To slay ourselves en masse in the 2 world wars of the 20th century; (2) To reduce our numbers further via abortions & other ways of birth-control; (3) To destroy our racial identity through miscegenation, that is, by adultery; (4) To reduce the quality of White people by taxing the fit & supporting the defective; (5) To threaten Whites with extinction by opening White living space to non-White invaders, & by further taxing Whites to PAY for this invasion, worldwide! The Chinese also plan in thousand-year periods, so they have no doubt planned for the extinction of Whites, within the next 1000 years, judging by current White-monkey behavior. To bring this about, the Chinese need do nothing, just allow us to carry on, as we are now doing.

Whites are certainly known to fight, but not as a race which fights for its survival as a race, & in defence of its culture. We used to fight in defence of our living space & our touted 'way of life', but no longer. Now we are told that 'our way of life' must include the alien occupation of our former living space, & the consequent modification &/or elimination of our alleged way of life. Who tells us this? Why, our Zionist rulers do, with all the media at their disposal, combined with physical coercion & threats thereof. Welcome to The Jew World Ordure!

I have not visited Europe for decades, so I probably would not recognize it as "Europe," due to the immense demographic changes since I was last there in 1976. In 1969, I arrived in London, England, alias The United Kingdom or The Land of Uk as some denizens call it. My demographic impression of the city was how un-English it was, in terms of all the foreigners & non-Whites I encountered. This is **not** unique for many large cities of the world, that are often atypical in terms of their host peoples. Paris is not really as French as are the other parts of France, nor is Hong Kong as Chinese, &c. Foreign visitors have expressed astonishment when they arrive in New York City, which is so unlike the rest of the America they later encounter, as they tell me. We can acknowledge the fact that such large, trade-oriented cities would be places with multi-racial, multi-cultural, polyglot populations, as Marseilles has been since ancient times, as are other port cities of the Mediterranean. The euphemism for such Babel-cities is "cosmopolitan"; the euphemism used to describe Jews in the former USSR included the term "rootless cosmopolitans." Such trade/conquest-based intercourse has led to the composition of a people who populate the coastal cities of the Mediterranean as "Mediterraneans", who resemble one another from one end of the sea to the other. Naturally, these people are racially Afro-Eurasians, that is, tri-racial, with more of one race evident: some with more White, others with more Black or Yellow admixtures. Sickle cell anemia prevails in this region, as evidence of Black genes in the Mediterranean population. These people also speak a common language made up of Arabic & European tongues. It is called the Lingua Franca. Such languages develop from trade amongst all sorts of different peoples. In Asia, I've heard lots of "pidgin English"; in Africa, Swahili & Chalapalapa. English developed as the Lingua Franca of trade between Germans & Scandinavians, who invaded previously Celtic Britain. This is human history, as well as pre-history, according to archeological discoveries, so we know what happened, but that does not explain WHY it happened. What would possess a people to give up their living space & their culture, or way of life?

Invasion & conquest, followed by displacement, slaughter & miscegenation have been the themes of human history, along with war & slavery. The motives for these actions are the usual ones: population-pressure, enhanced by greed. The first factor is evident from numbers, but greed is much more human & therefore, multi-faceted in terms of human behavior. Greed is expressed by theft, & where theft is inexpedient, by trade, in which the warning, "Let the buyer beware," is both ancient & appropriate. Trade is synonymous with economics, & wise men have called economics "war by other means," like politics. Those who are taxed & robbed by inflation are therefore victims of war waged against them, usually by their own rulers. Greed is the servant of power & vice versa, for greed includes the lust for power & the wealth which comes with power. Wealth takes as many forms as greed. So does power, for both exist in men's minds, along with their physical attributes. Greed is expressed in the desire to possess that which most men call wealth. Power must likewise be desired, along with the means to obtain it.

2) Plato claimed that greedy men are unhappy, for they always seek more. When the jew labor leader, Samuel Gompers, was asked what he wanted, he shifted the cigar in his fat chompers, & in his thick Jew York accent said: "More!" But was Gompers unhappy? I don't think so, for that was what gave his life meaning. People are not greedy because they HAVE to be, but because they WANT to be. This is the human reason why anarchy cannot exist, nor is there any evidence that it ever existed, as madmen like Rousseau, Jefferson, Marx et al. have lied. Because men are never equal in any way, some men will want 'more' than others may want, & they will use every means, fair or foul, to gain it. It is for wiser men to keep them in check, so as to avoid the dire fate now befalling the Whites under ZOG. The greedy members of Our Race have done the bidding of the jew enemies of Our Race, so our enemies are Zionists, which include jews & their Goy stooges. The crazed Pat Robertson is not a jew, but he sounds more Zionist than Ariel Sharon, in regard to jews seizing & holding land stolen from the real Semites, the Palestinians!

Since men are not equal in abilities & needs, we can thus understand why there are men with weapons, but no will to achieve power, as well as men with wealth sufficient that they desire no more. Then there are men who serve their families & their peoples, who behave as greedy men do, but not in their own personal interests. As Talleyrand observed: "A man with family will do anything for money."

As we know, greed has many manifestations & so does trade. Workers trade their labor for goods & services, usually in the representative medium known as money. Those who create money are the masters of an economy, because they control the medium of exchange, in which all goods & services are bought & sold, & their 'value' calculated. As Meyer Amschel, who founded The House of Rothschild, wisely said: "Give me the power to issue money, & I care not who makes the laws!" Obviously, the Goyim weren't listening! No present government on earth is sovereign, since their money is created & controlled by banksters, not by the state. That's why Hitler & John F. Kennedy so upset the jew-banksters & their people! Those men 's states created their own money, rather than BORROWING their money from the banksters, at interest. In Christian mythology, Jesus was crucified 3 days after he drove the money-changers from the Temple. Money-creation is the 'third rail' of politics. Touch it & you will find out.

Power & wealth exist as symbols & as substance. Money is not a good in itself, for the paper & metal rarely have any value compared to the numbers stamped or printed thereon. A document written on paper has no more value than the concepts in people's minds, which that document claims to prescribe. Symbols & substance connect in the mind of man, so they are accessible in the realm of imagination & communication which take the form of persuasion. This is how conmen can acquire wealth & power, as well as teachers & leaders, artists & writers. That which man can conceive, he may achieve, even at others' expense. It is up to others to protect their own interests, on behalf of their own achievements.

Often, greedy men sacrifice real wealth in their desperate pursuit of trinkets, baubles & fleeting fancies. Europeans laugh at the Indians who sold Manhattan for trifles, whereas the Indians thought the Europeans to be the fools, for in their culture, no one could 'own' land. The Indians supposed that the White men would be gone, after they'd hunted out the game & the fish in the vicinity, which the Indians may have done already. Land was, to the Indians, worth only the game it could carry, but to the Whites, it was worth more, in terms of the food which could be grown thereon, the livestock it could bear, & its strategic location for trade & manufacturing. The Indians were no doubt surprised to find the White men still on Manhattan, & in much greater numbers at year's end.

Land is wealth, the basis for life & for power, & those who occupy it reap the benefits, provided they know how to use it. Lands & peoples who occupy them are not equal, for we see rich people on poor land, as in Denmark, & poor people on rich land, as in Colombia. A gold bar in the hands of a White man is deemed wealth, but in the hands of a Bushman, it is deemed a burden, best dropped on the ground from whence it came. Air & water are real wealth, since we need them to live, whereas gold bars are not at all real in that sense, but are heavy tokens of symbolic wealth, with few essential uses in & of themselves. Thus we see that wealth exists in the eye of the beholder. Since wealth cannot exist apart from the people who perceive it as wealth, we see the importance of understanding in the value of wealth & power. This understanding resides in the minds of people, therefore we must appreciate the wisdom of The Bhagavad Gita: "From the corruption of women proceeds the confusion of races; from the confusion of races, the loss of memory; from the loss of memory, the loss of understanding, & from this, all evil!" Yours, as always, for a Whiter, brighter world. ORION!
