Ernst Zündel is declared a security threat by Canada

Holocaust-denier facing deportation to Germany

WHILE almighty Uncle Sam in the shape of President George Bush has been ever interminably intoning America's sublime devotion to freedom and justice, not only as present within its own bounds, but also as his desire and intention for forcible implantation in other parts of the world including Iraq, the spuriousness of it all has been revealed by the treatment by the U.S.A. and its close ally Canada of a law-abiding citizen who, after living for decades in the latter country, married an American lady and then moved to the U.S.A.

ERNST ZÜNDEL, born in Germany, emigrated to Canada in 1958 and built up a successful business. He twice applied for Canadian citizenship, but was refused each time with no reason given. What eventually made him extraordinary, indeed turned him into a monster in the eyes of Canada's multi-racial and Jew-deferential regime and media, and a prime target of the hugely powerful Jewish community, was that he came to question the story of the Jewish 'holocaust' colossally propagated to denigrate his fellow Germans and disqualify their National Socialism and any offspring from it for ever. He came to do this widely and effectively in the literature he produced.

NOW this conduct was in current Canadian thinking a crime of crimes, so he came to be prosecuted for this supreme wickedness of free speech in the Canada of glorious freedom and justice. For years he was subjected to a life of constant harassment and jeopardy. He was in and out of court constantly with trials and appeals and connected hearings. He suffered physical assaults, parcel bombs and attacks on his premises including major arson but he still kept going, giving a tremendous example of stamina and fortitude. Finally he defeated the charge of spreading 'false news', coming from those who falsify habitually, but his victory incensed the enemy array to seek out any and every other way to hinder and harm him and get him behind bars or out of the country.

THEY particularly set out to get him - ironically in their frenzied desperation - under the Canadian Human Rights law, arguing that he had breached it because his material on the 'holocaust' had been put on an Internet site in the U.S.A. operated by an American lady who later became his wife. Realising that he was now in a 'cannot win' situation, he went to live in the U.S.A., marrying the lady in January, 2000, and for a couple of years enjoyed rewarding repose in the Tennessee countryside.

BUT the enemy was still and no less in the business of vengeance, conspiring to get him, and on February 5, 2003, they struck. He was arrested for not attending an immigration hearing he believed had been postponed because his lawyer had communicated an inability to attend on the date set without as yet a new date being notified by the authorities. He was stuck in a cell in a county gaol which lacked chair or table or window, and then deported to Canada and another gaol and again denied bail. From there at the beginning of May he pencilled me a letter in which he told me that he was

being kept in a cell where the light was never turned off, and would shortly be taken a two-hour journey in both handcuffs and leg irons to a Toronto court hearing. His address then was:- Ernst Zündel, Niagara Detention Center, P.O. Box 1050, Thorold, Ontario, L2V 4A6, Canada. Do send him a card of solidarity, but do understand that, while helpful to morale and undoubtedly appreciated, the limitations on mailing facilities are likely to prevent any acknowledgement.

ON his way to Canada he was given an order prohibiting re-entry to the U.S.A., where his wife remains, for twenty years, thus until he is well over 80. Three times he has contacted capable lawyers, engaged them, paid them a retaining fee, and then they have backed out, probably having been got at by the unscrupulous enemy of freedom and justice. His loyal wife, overwhelmed with work on his behalf, urgently needs money, much of it, to meet the mounting bills for fighting his case. Her address is:-Mrs Ingrid Zündel, 3152 Parkway, Suite 13, PMB 109, Pigeon Forge, TN37863, U.S.A. Donations from the U.K. can be sent by U.S. dollars bought at the foreign currency counter of a main branch of a U.K. bank, or (for large amounts, justifying the large bank charge) a bank's international money order. Her e-mail details are:- irimland @ zundelsite.org. Her Internet Zündel site is as follows:-www.zundelsite.org

THE joyful Jewish Chronicle of London, whose frontpage caption provides our heading on Page 1 to this article, says 'Canada has declared Ernst Zündel a national security threat, making it virtually certain that the 64-year-old Holocaust denier will be sent back to his native Germany' where questioning or denying the Jewish 'holocaust' story is against the law and can earn years in gaol. This deportation to Germany is the enemy's ultimate aim for the German regime in its denial of freedom and justice holds Zündel, the freedom fighter, responsible for his literature circulating in Germany, and is most eager to get its hands on him and lock him up for years.

CANADA'S real security is not endangered or breached by Ernst Zündel and his contribution to free discussion and quest thereby for truth, but instead by the very forces who have harassed and hounded him for years, and who persecute him now while with sickening hypocrisy pretend and proclaim their idealistic purity in overthrowing Saddam Hussein. These are the forces who have more and more restricted free speech in Canada, intimidating and penalising exposure of Jewish power and practice, and vilifying and preventing and prohibiting agitation for keeping Canada Aryan as they allow in and patronise more and more Coloureds with the final result a mongrelised Canada.

A federal court will now review the national security certificate issued against him, give Zündel a summary of its evidence, and nominally invite him to respond. If the judge decides the certificate from Zündel's enemies is reasonable, it will automatically become a removal order, and he will be sent on his way to gaol in Germany.

DO not leave Ernst Zündel, the old warrior, on his own facing this! Do voice your protest today, calling on the Canadian Immigration Department to grant his application for refugee status in Canada. The Minister of Immigration can be written to as follows:- Hon. Denis Coderre, House of Commons Ottawa, ON, K1A 0A6, Canada. E-mail:- Coderre. D@parl.gc.ca

----- GRIFFIN'S BNP GOES MULTIRACIAL - ACCEPTS COLOURED POPULATION AND RACE-MIXING CANDIDATES

Our last issue showed the British National Party declaring itself anti-Nazi in its pursuit of votes at any price. Now it is shown below abandoning White racialism in the same sordid pursuit. The driving urge in this was voiced by N. Avery in the BNP newspaper Voice of Freedom (February 2003): 'It is impossible to have such a thing as an all-white Britain and thankfully most members of the British National Party today fully acknowledge that fact ... Win the votes of loyal patriotic non-whites and the BNP journey to power will be that much quicker.' Just one reader's view? Not so. This revolting time-serving defeatism was given official endorsement by leader Griffin in an interview on TV Channel 5, 10 p.m. news on 2 May, 2003, when he himself said 'an all-white Britain is impossible'.

Illustrating this, the same BNP newspaper as above and in the very same issue presented approvingly a photograph of a BNP election candidate for Barrow in Furness, Charles Bickerstaff, embracing his Zimbabwean son-in-law, and another of his two half-African grandchildren whom he said he loved dearly. The same paper runs a regular feature entitled 'Raj on Britain' by turbaned Rajinder Singh of the BNP's Ethnic Liaison Committee. The BNP election candidate for Ribbles Valley, Ivan Duxbury, married a black African woman,

IRAQ DEMOCRACY'S DIRTY BUSINESS

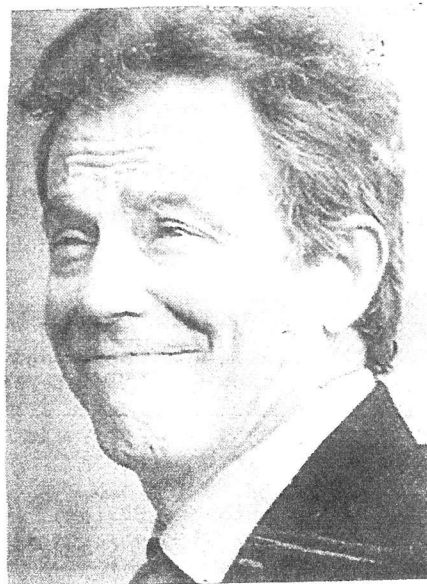

- A WAR FOR OIL AND ISRAEL -

If you are a dupe of Democracy - the fraudulent system which makes out that the people rule, and thereby ensures that just certain, chosen people do so - you will have been taken in by the great performance of persuasion throughout past months by its pair of paragons, US President George Bush and UK Prime Minister Tony Blair that we had to wage war on the Iraq of Saddam Hussein until we had ousted him and his system because he was a hideous tyrant with horrible weapons of mass destruction and the intention to use them against us. If you are not such a dupe, you will with the help of this article come to see that all this has been a massive deception by a couple of political crooks, out to advance the interests of big business and the gangster state of Israel behind a flurry of professed but bogus principles of compassion and benevolence. The truth behind their smokescreen of lies is that it has been a war for oil and Israel.

At the start of their campaign the point of thrust in their propaganda about fearful weapons facing us was the demand for unconditional access for weapons inspectors to the entirety of Iraq regardless of considerations of national sovereignty. They expected and hoped that Iraq would not agree to this and so give them an excuse for going to war. When Iraq to their disquiet gave way and allowed that access and nothing significant was found, since the crooked couple were intent on war regardless, they argued that, on the basis of their intelligence reports details of which naturally and conveniently could not be disclosed, they knew for a fact the weapons were there and merely well hidden beyond the capacity of the inspectors to detect, and anyhow there was - now - the need to oust the monster and install the delights of Democracy in his place. Even after Saddam, in the desperation of defeat, did not by use reveal such weapons, the crooked couple were still insisting that they are there in hiding, presumably until such time as the bright boys get around to faking them for presentation.

Last century, when the same sort of evil forces were intent on forcing war on National Socialist Germany because of the dangerous inspiration of its system of national and racial rebirth, they ceaselessly vilified it as a hideous tyranny threatening the people of Britain and America by seeking to conquer the world. Hitler had to be done away with then as an enemy of the Jews, just as Saddam had to be done away with this century as an enemy of Israel. Just as the latter was accused of harbouring hideous weapons as a pretext for war just waged, John Toland in his book 'The Last 100 Days' (Phoenix, London, 1996) reveals (P. 142) that bomber crews being briefed for the horrific atrocity of the raid on harmless and defenceless Dresden were told a target was a large poison-gas plant.

The country which more than any other has weapons of mass destruction is none other than Bush's own America. Its armoury of these weapons is enormous and constantly growing. The New York Times has revealed that Bush's scientists are currently working on a bomblet for dispersing lethal germs and on genetically modified anthrax, all for high-minded use of course in the name of and for the purpose of freedom and Democracy, Bush-style.

THE TYRANNY AND TERRORISM OF UNCLE SAM. Besides tyrannising by its blatant or insidious bullying worldwide, America has sponsored or engaged in terrorism throughout the world. Its CIA, in name restricted to intelligence gathering, has in fact operated across the globe as an instrument of murder, bribery, defamation, incrimination and intimidation. Decades ago it was trying to assassinate Egypt's Nasser and later Libya's Gaddafi. Having bombed women and children on a gigantic scale in World War II and on a lesser scale in the first Gulf war and in Afghanistan, the Bush men, bringers of freedom and democracy in their bomb loads, have been slaughtering civilians, men, women and children, in their terrorism from the skies in their second onslaught on Iraq just concluded.

Typical of the false pretences of the terrorists of the White House and Pentagon has been the professed concern for the Kurds in Iraq, whereas the repressed Kurds of Turkey have received no similar concern. Why? Because Turkey is a friend of Bush and pro-Israel.

At the end of the 1939-45 crusade for democracy by America, Britain and Jewry came the victors' show trial at Nuremberg. Article 6 of the court's charter, applied with partisan peculiarity against the leaders of National Socialist Germany, proclaimed a crime against peace as including planning, preparation and initiation of war, all of which terrorists Bush and Blair have engaged in against Iraq.

As for the freedom of the Bush and Blair regimes against the tyranny of Saddam Hussein's regime, some of us have already had grim experience of the rigorous reality behind the dishonest facade of democracy, suffering acute harassment and police raids and imprisonment because, in the face of state-enforced multiracialism, we have persisted in opposing the Coloured Invasion and the Jewish ascendancy, and calling for a Britain for the British. However, our oppressors are not content with the tyranny already achieved, and a major part of the purpose of the campaign against the terrorism of others, provoked by the terrorism of the Axis of Evil of Bush & Blair & Sharon has been to use it as a pretext for introducing more severe control and suppression in America and Britain. It only requires nationalists and National Socialists in those countries to be construed and labelled as 'terrorist', as Ernst Zundel has been labelled by the Canadian regime, for the equation to work to facilitate the tyrannical persecution of dissidents.

It is thus that the chief of terrorists Bush has put into force drastic controls under the heading of 'Homeland Security', and his nearby associate Canada has caged and put in leg irons non-violent Ernst Zundel. It is why parcels of books from America to the U.K. are being opened and then resealed with tape saying 'opened in the interest of national security' as part of the extended surveillance being imposed on the public. In Britain new measures against 'terrorism' which have now been put in place, thanks to the triggering event of the demolition of the New York Twin Towers, conveniently allow for rounding up and crushing fighters for a Britain for the British, if they seem to be getting dangerous.

Just a few miles from where I sit typing this in my home in the Yorkshire Dales there is a global spying station of warmongering terrorist George Bush on an expanse of English soil ceded to the U.S.A., namely Menwith Hill surveillance installation whose array of huge randomes (golf ball-like constructions) are visible for miles. It is credited with being able to tap into and listen to all communications throughout Europe, including all telephone calls. It is operated by the National Security Agency with headquarters at Fort Meade in Maryland, U.S.A. with a staff there of 20,000, its operations costing around \$8 billion a year, and exceeding in budget and work force the other American spying agency, the CIA, which deals with human intelligence agents distinct from electronic espionage (see 'The Puzzle Palace' by James Burnham). When Jew Jack Straw's Thought Police raided this Yorkshire home of mine four years ago and removed a police van full of my papers and other property, which I have still not had back from them, the seizure included my file on Menwith.

What is behind all this? The answer is world domination in the disguise of democracy, Bush style and thus Zionist steered. The London Daily Telegraph (21 September 2002) expressed it thus: 'President George W. Bush has outlined a new doctrine of a "distinctly American internationalism" that involves using US military might to impose its political will around the world.'

The U.K. Sunday Herald (15 September 2002) disclosed that two years earlier a think-tank called 'The Project for the New American Century' had produced a document calling on Bush and his administration to take military control of the Persian Gulf region, and to establish and maintain global U.S. predominance, ensuring American principles and interests. Other nations to be discouraged from challenging U.S. leadership or even aspiring to a larger regional or global role, and with the U.S. able to fight and decisively win multiple simultaneous major theatre wars as a core mission, and with possible development of U.S. biological weapons to add new methods of attack. Bush and his associates have obviously listened to and adopted this advice from a highly influential source. Iraq was but disciple Bush's first target, after Afghanistan with its economic attractions as an American dominated territory. He has already disclosed a list of further targets: Iran and Syria are two.

THE ZIONIST CONTROLLERS BEHIND PUPPET PRESIDENT BUSH. Here are some of the main people moving the hands of this hardly articulate, grimacing marionette, almost unbelievable as himself the head of government of millions of mankind which effectively he is not:-

- Paul Wolfowitz, Jewish deputy chief of the U.S. war ministry known as the Pentagon. Just before Bush obediently pressed the trigger, warmonger Wolfowitz was hard at it with scare stories to whip up the incredibly gullible American public to war fever, telling a meeting in the Metropolitan Club in Washington, the country's capital, in February 2003, that Saddam Hussein was poised to use chemical and biological weapons against them.
- Richard Perle, another Jew who has had a leading position in the Pentagon, becoming head of its Defence Policy Board when Bush became president. In the time immediately leading up to the attack on Iraq and during it he has been a close adviser to and guiding the hand of warmonger Donald Rumsfeld, the Defence Secretary (namely the war minister), a Gentile front man like Bush himself.
- Douglas J. Feith, a Jew who is Undersecretary at the war ministry.
- Elliott Abrams, a Jew who is a director of the National Security Council.
- Lewis Libby, a Jew who acts as chief of staff for Vice-President Cheney.
- Ari Fleischer, Bush's Jewish Press Secretary.
- Back up comes from an influential band of the same racial nature and allegiance, including William Kristol, editor of the Weekly Standard and a close associate of Vice-President Cheney, and Meyrav Wurmser of the Hudson Institute.
- These policy makers, manipulating Bush and thereby America, hide behind the euphemistic designation of 'New Conservatives', whereas they are not seeking to conserve anything Aryan and therefore truly American, but instead to conserve the country as a servant of its immensely powerful Jewish element and its offshore state of Israel. Front men and parties come and go in American politics with one constant factor, the truly enormous influence of its highly organised Jewish community.

These leading string pullers, along with the host of others ethnically and ideologically similar to them, are all ardent Zionists with an overriding allegiance to Israel as the focal point for World Jewry. Because Jewry dominates America, America finances Israel, its subsidy for 2002 being (with 'supplemental aid') \$3,500,000,000, and works for its interests and safeguards its survival always.

While Bush, the figurehead for American Zionism, rants and raves regarding his worldwide crusade against 'terrorism', this lying hypocrite totally ignores the fact that his domineering beneficiary, Israel, is a terrorist state in its origin in the terrorism of the gangsters of Menachem Begin's Irgun and the Stern Gang last century. It is a terrorist state in its current campaign of terror this century against so many Arab civilians, men, women and children in the Arab homeland they have usurped in Palestine; most Jews being of Khazar descent without connection to Palestine. It is a terrorist state in its creation and its accumulation of weapons of mass destruction in support of its plans for Middle East expansion and domination.

For a certainty, beyond speculation as with Iraq, Israel has today a fearsome arsenal of weapons of mass destruction, namely nuclear warheads and chemical and biological weapons. Proof? One piece among many is the recent news agency report from Jerusalem on 1 February, 2003, which quoted an Israeli professor of military history at the Hebrew University in Jerusalem, Martin van Creveld, as stating:- 'We possess several hundred atomic warheads and rockets and can launch them at targets in all directions.' To this declaration of capacity he added the declaration of intention that 'The Palestinians should all be deported'.

Israel's massive arsenal of weapons of mass destruction is there not merely to defend all her existing territorial theft from the Arabs, but also to help, either by threat or employment, her grand design from the start of Zionism for a Greater Israel straddling and dominating the whole of the Middle East. This ultimate objective, the driving force behind the policy and practice of the state of Israel, means the subjugation or elimination of the Arab states and peoples of the whole area. Mossad, accounted by Israel as simply its intelligence agency, is in fact also one of the most diabolical instruments of terrorism that has ever existed, taking on any foulness imaginable from rank deception to brutal murder in the cause of the Greater Israel of the self-appointed and anointed Chosen of Jehovah. Victor Ostrovsky, former Mossad operative who became disgusted and quit, has revealed in his book 'The Other Side of Deception' that since 1989 Mossad had been busy at building the image of Saddam Hussein as a hideous tyrant and an aggressive menace to the whole world who had to be got rid of. Using the power in general of the Jewish community of America and Britain, and in particular its entrenchment in the media, it prepared the way for the eventual onslaught on Iraq, and this precisely because Saddam Hussein was consistently anti-Zionist and upheld the cause of the Arab freedom fighters in Palestine.

Subservient to the Zionist plan, Blair has sent 45,000 troops to Iraq, as though there was some vital British interest there, as the latest instance of international meddling

by this blathering busybody. The cost of this service to Israel had reached £3 billion by March 2003, and is expected eventually to exceed £10 billion, and this when the Blair Gang are always declaring there is not the money for all the things needing to be done for Britons in Britain. Among and in the fore of bringing about this service to Israel has been our very Foreign Secretary Jack Straw with his Jewish ancestry, Peter Mandelson MP with Jewish ancestry also, and Blair's special envoy and tennis partner, the wandering Jew Lord Levy, playing other games with him in addition to tennis.

While both Blair and his senior partner Bush at playing Israel's game have been primarily motivated in making war on Iraq by the need and desire to satisfy their Zionist sponsors, Bush has had a second main consideration in mind, besides the advantages of distracting attention from the corporate corruption in the American economy, and posing as a successful war leader in front of the next presidential election, and that has been the lure of Iraqi oil. America has to import half of its oil consumption, and Iraq has the world's second-largest reserve of oil, exceeded only by Saudi Arabia. Indeed studies suggest that Iraq has a capacity for producing six to eight million barrels of oil a day, according to the London Independent newspaper of 29 August 2002.

Bush himself has a background in oil. He started off with Arbusto Energy, later named Bush Exploration, and afterwards joined the Harken Energy Corporation which acquired a concession for drilling and exploration off the coast of Bahrein in the Persian Gulf. His colleague, Vice-President Cheney, formerly headed the Halliburton Energy Corporation which this March secured a £600 million contract for the initial repairs to the oil fields of Iraq. Clerly, behind the recitation of high principles by warmongers Cheney and Bush, there is a hard matter of high profit.

One thing for certain which the incursion of Messrs Blair and Bush into first Afghanistan and then Iraq has shown is just how much indeed we do need 'regime change': regime change in Britain and America for the salvation of the Aryan people there. The regime of the Old Gang Parties here in Britain which makes us serve Israel and shackles us to Zionist Washington, and commits us to global meddling, must be changed for Britain's revival.

TAILPIECES TO THE BUSH/BLAIR TALES OF TERRORISM. The German UN arms inspector Peter Frank has told the German magazine Der Spiegel that the evidence of Saddam's weapons of mass destruction presented to the UN Security Council in February last by the U.S.A's Colin Powell was 'a big bluff'. The American former UN arms inspector Scott Ritter has all along said that Saddam has not had the weapons Bush and Blair have accused him of. (London Independent 11 June 2003). The same paper same date has reported the U.K. Intelligence and Security Committee as censuring Blair for using uncorroborated material to incriminate Iraq.

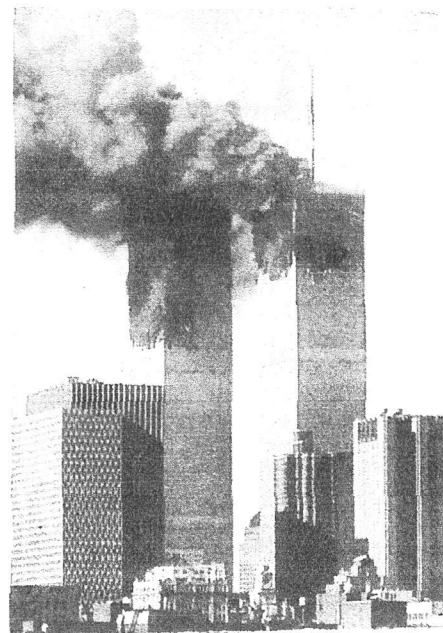

BUSH AND HIS MAN BLAIR have lied to us about WMD (Weapons of Mass Destruction) in Iraq to provide an excuse for going to war for other reasons. If they will lie like this, they will lie about anything. The attack on the WTC (World Trade Centre) has been immensely helpful to Bush and those behind him, providing these rogues with the excuse for their global 'anti-terrorist' campaign. Was it a CIA-Mossad operation? Many emerging facts along with inconsistencies and omissions in the official account encourage doubts. A documentary being filmed near the WTC at the time and distributed as the 'Fireman's Video' shows peculiarities about the crashing plane. Facts of the explosion, fire and collapse suggest assisted demolition.

THE ATTACK ON THE TWIN TOWERS OF THE WORLD TRADE CENTRE IN NEW YORK. Was it what Bush has made it out to be?

BRITAIN'S FOREIGN SECRETARY Jewish Jack Straw, a chief player in Blair's war upon Iraq for the sake of Israel,

Previously Home Secretary, he was then in charge of the Thought Police making raids on and prosecuting British patriots standing for Britain for the British.

**BNP COUNCILLORS ENDORSE 'HOLOCAUST' PROPAGANDA
CONFORMITY TO THE OLD ORDER IS THE MOTIVE AND THE EXCUSE**

As a measure of Jewish influence fifty years after the 1939-45 war, we are still daily reminded of the alleged Jewish holocaust in that war as exceeding and overshadowing all other atrocities throughout all times. This supposedly unequalled tale of Jewish woe has been conceived, devised and fashioned as the means of discrediting not only National Socialism but any and all racial patriotism, thereby deterring anyone, anywhere, any time from racial self-protection. It is thus for Jewry the great silencer.

This being its intention and capacity, it is absolutely vital that National Socialists and racial patriots of all sorts do not allow the Jews to get away with it, and do not, either explicitly or implicitly, go along with this propaganda which is lethal to their cause. However, the compromising softies of Griffin's new-look BNP are doing just that, accepting and echoing this Jewish propaganda. In particular, two of their acclaimed Burnley councillors, having identified themselves with a Burnley BNP press statement for 'Holocaust Remembrance Day' there this year which paired Hitler with Stalin in denunciation, called Robert Mugabe a 'modern-day Hitler' and spoke of 'the menace of Nazi Germany', then went off and laid a wreath at the Jewish 'Holocaust' memorial in Burnley.

That deplorable exhibition of toadying to the forces of the old order having happened, it was made that much worse when a respected nationalist periodical excused this shameful behaviour, arguing that because the two councillors 'were invited by the local Mayor to join the ceremony, they had absolutely no option but to accept - a refusal would have been highly publicised locally and possibly nationally, and would have done the BNP great political damage. The party has to address itself to the practical politics of our time, and must not allow its present objectives in this regard to be jeopardised by arguments over matters of history, however justifiable some may believe those arguments to be.'

Consider this statement in its full implications! It amounts to a general defence of conformity to current conventions and misconceptions by those who purport to reject the present political order as death dealing to our race and nation. It creates an abysmal contradiction. It presents a dismal advocacy of unprincipled cajoling and appeasing of the public, elevated to the status of the tail which wags the dog. It provides the justification for all of Griffin's demeaning compromises including the acceptance of a permanent Coloured population in Britain (and all the hideous consequences that portends), thereby the rejection of a White Britain, and the acceptance of Jewish ascendancy; in other words the negation of what is truly British nationalism. To hell with electoral progress at this price! Such councillors are not worth getting by sacrifice of principles for votes.

If local councillors the Griffinite BNP is devoted to securing and so loud in acclaiming are worth anything at all, they must be expected to take their stand on truth and principle, not to sell them off for votes and a seat on the pedestals of the old order ruining our race and country. Otherwise what good are they and what gain has it been getting them elected? In the Burnley situation in question the two worthies should have told the Mayor, loud and clear, that they are against all genuine atrocities and equally against the fabrication of false ones: that they oppose partisan displays of 'remembrance' such as this when the millions exterminated in the Red Holocaust of Joseph Stalin and the mass-slaughtered civilians of Dresden and Hamburg - including the children fried on the pavements in the firestorm - do not receive any holocaust remembrance at Burnley.

It is not for any genuine racial patriot to join in worship at a Jewish 'Holocaust' shrine, designed to inhibit and prohibit us from racial patriotism, but instead to expose the partisan nature of this and other anti-German propaganda, and its fabrications.

With the views and practices now prevailing in the Griffinite BNP the hard fact is that there is now no proper place in this officially anti-Hitler, multiracial, 'Holocaust' commemorating BNP for any real racist or genuine National Socialist. Since apparently you cannot change it, you can at least reject it by leaving it. Your honour requires this!

**FOR THIS WE FIGHT!
BNP POLICY NOW IS A
THREAT TO OUR RACIAL
FUTURE! OPPOSE IT!**

BLOODTHIRSTY TERRORISM PREVAILS IN MUGABE'S ZIMBABWE against white farmers, but crusaders Blair and Bush have no plans to invade and stop it and change the regime there. Reported in the London Independent (25 October 2002), a band of savages calling themselves 'war veterans' killed a white farmer and then drank his blood mixed with alcohol, while the wife of the country's army commander in threatening to kill a white man said she had not tasted white blood for a long time. (Presumably therefore she was thirsty for it.)

BEHIND BUSH AND HIS NEW WORLD ORDER STANDS THE ROCKEFELLER CONSORTIUM. American's President George W. Bush projects himself in the saintly raiments of a herald of a noble and benevolent 'New World Order'. What is the reality behind this sales talk? The reality is that this NWO is no more than a deception to disguise for its better working the global imperialism of American big business, substantially Jewish and hence Zionist.

The New York Times (13 September 1998) published a long research article revealing the connections between the Bush dynasty and the Rockefeller group, the petro-chemical industry and other national and international bodies. The Rockefeller consortium expanded its power from the petro-chemical to the pharmaceutical sector, as another most lucrative field, during the first half of the last century, and now controls more than 200 pharmaceutical companies, and owns multinational petro-chemical concerns like the Exxon consortium. It is behind some of the most influential financial institutions in the world and has massive media power, controlling Time Warner and CNN and a network of newspapers and radio and television stations. It sponsors the Trilateral Commission, comprising bankers and corporate executives, named 'trilateral' because of its three legs, representing its three power centres, namely the U.S., Europe and Japan. With Bush the Rockefeller consortium got into Washington's White House, the seat of government. Its counterpart in the U.K. is the Rothschild group which co-exists with Blair whose 'New Labour' sits happily with Jewish Big Business and is devoted to Israel.

These are the interests for which Bush and Blair sent their servicemen to war with Iraq. **WEAPONS OF MASS DESTRUCTION: BUSH AND BLAIR NOW EXPOSED AS LIARS.** Since the preceding article 'Iraq: Democracy's Dirty Business' on pages 3 - 6 inclusive was written and produced, an uproar in the media has come about confirming Bush and Blair as liars concerning weapons of mass destruction and substantiating what has been said in this article on this subject. The story put out by Blair that such weapons were definitely there in Iraq and 'could be activated within 45 minutes', a story he has stuck to even when in all the days of the war Saddam did not use them and so prove their existence, even when his defeat approached, has now been utterly discredited as a concoction to get the British public to support war. Other falsifications by the Blair Government in its dishonest warmongering have come to light and been focussed on as in a survey entitled 'Special Investigation - The Lies that Led us into War' in the London Independent (1 June 2003).

Even warmonger Donald Rumsfeld, the American Defence Secretary, formerly the loudest of loud exponents of the immediate menace to us all of the alleged terror weapons has had more sense than Blair in sensing an untenable position, and has laid down a line of retreat by now admitting that the weapons might not be found because they might not exist,

Best of the brazen relinquishments of the prime pretext for war - self-defence against imminent attack with the weapons - has come as a prime display of Jewish 'chutzpah' from none other than Paul Wolfowitz, the American Deputy Defence Secretary. In an interview in the magazine Vanity Fair quoted in the London Independent (30 May 2003) he has admitted that, to quote the newspaper's headline, 'WMD just a convenient excuse for war'. The paper commented that Wolfowitz has been long suspected of 'running a shadow administration out of his Pentagon office, ensuring that the right-wing views of himself and his followers find their way into the practice of American foreign policy.'

BEHIND THE BUSH FACADE AN ADDITIONAL AGENCY OF ZIONIST GOVERNMENT. The National Alliance Internet programme, American Dissident Voices, has revealed the recent creation of an extra instrument of Zionist control of the U.S. government. A group of top Jews have created 'The Office of Special Plans' headed by the Jew Abram Shulsky, designed to feed Rumsfeld and Bush via Wolfowitz and Feith 'intelligence' material made to measure to fit and further the Zionist world plan. A former chief of U.S. Middle East intelligence is quoted as saying the group has 'banded together to dominate the government's foreign policy, and they've pulled it off'. They are busy inciting another war, this time to bring about a 'regime change' in Iran to U.S. specifications. They have already arranged meetings between a pretender to the Iranian throne and Israel's Ariel Sharon. Within the group Michael Rubin is specialising on Iran while William Kristol's Weekly Standard is loudly banging the war drum against Iran.

KURDS IN IRAQ: DID SADDAM REALLY GAS THEM? Those urging war against Saddam Hussein have held that his intolerable wickedness was shown by his gassing of rebellious Kurds in Iraq. The same Internet programme quoted above has cited another Internet source for a statement by Stephen C. Pelletiere and Douglas V. Johnson that:- 'This one is extremely problematical since no gassing victims were ever produced. The only evidence that gas was used is the eye-witness testimony of the Kurds who fled to Turkey, collected by staffers of the U.S. Senate. We showed this testimony to experts in the military who told us it was worthless. The symptoms described by the Kurds do not conform to any known chemical or combination of chemicals.'

THE BURNING OF THE REICHSTAG

A favourite big lie of the falsifying denigrators of Hitler's Germany, much relied on and repeated by gullible and wishful believers, is that the 'nazis' set fire to the Reichstag, the parliament building in Berlin, on February 27, 1933, two months after coming to power, in order to blame it on the communists, and use it as an excuse for doing away with the democratic system, suppressing parties and press.

Yet forty years ago in the Sunday Telegraph of London (17 November, 1963) the prominent journalist Sefton Delmer, certainly no 'nazi', wrote a review of a just-published book which he said had made a certainty of his suspicion from the time of the fire that it was not the work of the 'nazis' but of the Dutch communist Marinus van der Lubbe who was arrested nearby at the time. Sefton Delmer got to the fire soon after it was reported. He saw Hitler drive up with Goebbels, and managed to join them in going into and round the building, interviewing Hitler as he did so. "What I saw and heard then convinced me that Hitler and Goebbels, far from expecting the fire, were surprised and shocked by it." Van der Lubbe admitted that he had fired the building, doing so as a signal for revolution.

The book was 'The Reichstag Fire' by Fritz Tobias, published by Secker & Warburg as a condensed translation into English of the German original.

Sefton Delmer referred in the above newspaper report to the inventor of the big lie that the 'nazis' did it. This falsifier was Willy Münzenberg. Sefton Delmer described him as 'the Red propaganda genius, who in his Paris left-bank headquarters faked up the "Nazis lit the fire" legend. Münzenberg published "Brown Books" marshalling the "evidence" invented by him and his team, he forged documents, and he stage-managed "Reichstag Counter-Trials" in Paris and London.' You can be sure he is much loved and admired by his little disciple Gerry Gable, fellow communist who avowedly writes his fiction and filth as 'news from the sewers' - a caption which is about the only bit of honesty he displays - in his Red lie and smear disseminator known as Searchlight.

John Toland, who is also certainly no 'nazi', in his book 'Adolf Hitler' (Book Club Associates, London, 1977, P. 323) says of the book by Tobias that his findings are corroborated by Hans Mommsen in an authoritative article published by the Institute für Zeitgeschichte.

The prominent historian A.J.P. Taylor in 'The Origins of the Second World War' (P. 281) refers to the legend that the 'nazis' set fire to the Reichstage and comments: 'This legend has now been shot to pieces by Fritz Tobias, in my opinion decisively.'

THE TRUTH ABOUT THE BIG LIE

TARRED WITH TERRORISM

(POSTSCRIPT TO THE ZÜNDEL CASE ON PAGES 1 & 2)

Already confined to a cell at the Niagara Detention Centre, Ernst Zündel was on May 1 there served with an arrest warrant accompanied by a certificate signed by the Solicitor-General and the Immigration Minister saying he is inadmissible to Canada on the grounds of national security under the Immigration & Refugee Protection Act. This enactment provides scope for the suppression of dissidents like Zündel on fabricated allegations of engaging in terrorism, acts of violence, espionage, and the subversion of the government, all of which as real offences are absurdly inapplicable to Zündel, a pacifist, who has been simply and solely a publicist. The Toronto Globe & Mail (May 7) reported this framing thus: 'Holocaust denier Ernst Zundel has been involved in terrorism and promotes politically motivated violence that endangers the lives of Canadians, according to documents released Wednesday summarising the case for deportation.' Behind this framing stands the Canadian Jewish Congress seeking revenge for Zündel's worldwide exposure of holocaust falsities.

The judge to whom the served certificate has been referred to decide if it is reasonable can hold secret hearings in Zündel's absence and receive into evidence anything he considers appropriate, even if inadmissible in a court of law, and base his decision on it, and that decision is final with no right of appeal or judicial review.

The exploitation of 'terrorism' as the title and pretext under cover of which our liberty can be taken away is at work in Britain as in Canada and the U.S.A. Here it is reflected in a forthcoming new law, the Civil Contingencies Act. In the event of a declared 'emergency' the police will gain sweeping powers in a veritable police state. Knowing as we now do the deceitfulness of the Blair regime respecting Iraq, they should have no difficulty in declaring an 'emergency' under which racial patriots can be put behind bars.

'NATIONAL SOCIALISM - VANGUARD OF THE FUTURE, the 136-page collection of past writings of Colin Jordan, published in English in Denmark in 1963, is still available, being stocked at £6.25 post free by the Historical Review Press, P.O. Box 62, Uckfield, East Sussex, TN22 1ZY, which has a very big range of books of great interest to all racial patriots, providing lists of them set out under headings of 'Revisionist', 'Political', 'Heritage' 'National Socialist & Third Reich'.

MRS FLORENTINE ROST VAN TONNINGEN celebrated her 88th birthday last November, not her 80th as our last issue wrongly stated, and for which error we apologise to her.

THANK YOU to those who at various times have sent donations, thus enabling activities in my work which the income of this bulletin, which only covers its costs, does not provide for, not even covering complimentary copies to other periodicals worldwide. Arrangements have been made so that assets vested in me continue to benefit the cause after my death.

READER IN GERMANY WANTS PENFRIEND IN BRITAIN. Any UK National-Socialist who would like to correspond with a German National-Socialist in Germany should send to Gothic Ripples an introductory letter, open for inspection, accompanied by the European rate postage of 38p stamp for not more than 20 grams. The letter will then be addressed and despatched to the person in Germany who will be free to decide if he wishes to respond and establish a friendship or not. Gothic Ripples will not be involved beyond initially forwarding.

SEQUEL TO 'MERRIE ENGLAND 2,000'. This book forecast a sequel, 'The Uprising'. Work on it had reached the stage of a rough draft when the Thought Police raided me in August 1998 and confiscated it. Several years later I managed to get it back and resume work on it at intervals. It is now hoped to have it printed and published abroad out of reach of the UK forces of suppression. But this takes money, a lot of it, for the initial outlay which has to be raised if it is to be produced. A fairy godmother or godfather, if such can be found, would thus truly be a life-bringer. Anyone out there able and willing to help?

MORE ON WOLFOWITZ & PERLE (Pages 5 & 7). As last-minute news coming in, the London Independent (6 June 2003) in one item revealed that 'information' on Iraq's alleged weapons of mass destruction was fed to Britain's Blair by US Defence Secretary Donald Rumsfeld and Paul Wolfowitz, his Jewish deputy. 'Mr Wolfowitz set up the Office of Special Plans to harden resolve against Iraq.' Another item, same newspaper same date, quoted a former US intelligence specialist as saying that intelligence used to sell the war 'was manipulated, forged or manufactured'. It spoke of the Office of Special Plans under Jewish Mr Feith as becoming a ginger group tied to Rumsfeld and Wolfowitz, agitating for war on Iraq, and being defended by Jewish Richard Perle 'a leading member of the neo-conservative group that has been driving Iraq policy under Mr Bush and who was until recently the chairman of the Defence Board.'

NEW BOOK ON NS MARTYR. Alfred Rosenberg was hanged at Nuremberg in the outcome of the infamous trial there at the end of World War II as an act of victors' vengeance. A new book on him which will be detailed in our next issue has been published by Jomsburg-Verlag.
