

Some of my friends are long term republican sympathisers. Get this into your thick heads. You will have no Irish state of any fashion if things continue as they are doing. Irish people are third class citizens on their own Island. Recently a young Irish man tried to set up his own newspaper. He was quickly visited by the police. If he had been an African he would have been given taxpayers money, if he had been a Jew the journalists would all have come to the opening. Territorial nationalism between peoples of European origin is obsolete and dangerous and that's why it's seen as harmless, politically correct and Kosher by the real enemies of our people. Perhaps someday we can find a historian who will write the history of far left entryism into Irish Republicanism for us. The leftist claptap might have passed when Ireland was all white and African immigration unimaginable but now the bluff is being called. Far away hills are green and far away blacks seem more human, up close they smell odd frankly. I could never have imagined as a child in a fanatically Catholic village that one day we would have Turks literally flying out of windows in the town. The Roman Catholic church has been replaced by the Jewish Catholic church sprung from Marxism. The queers have gone over en masse to the new cult. Senator Norris, a notorious revolting queer, even calls the Pope evil. Their roles as monks and nuns, sterile servants of an Oriental ideology is mirrored exactly in their role as internationalist pervertists. "The reconstruction of society on the basis of arrested development" but with Jerusalem as the center. Choose your capital Rome or Jerusalem. As for Christianity I support Western Christianity against all Marxist variations and Western Atheism against Jewish Atheism. Thomistic philosophy is interesting. Eric Thomson says "Christians pray on their knees and Jews pray on their Christians". The Arabs are burning churches in France and consider them symbols of Western civilisation. Christianity has been reformed in a Jewish direction in the last few centuries but it could be reformed in our direction as Nietzsche pointed out was the case with the Renaissance Catholic church. The early Christians would have howled for the destruction of Michaelangelo's masterpieces just as they destroyed the artistic miracles of the ancient world. Just as Lazar Kaganovich boasted over the destruction of a cathedral in Moscow so the early Christians no doubt gloated over their destruction of a superior culture. Aryans build Jews destroy. Early Christianity was an evil form of Bolshevism with Paul as its Trotsky. In Herbert's novel Dune the hero drinks poison and transforms it back into water. Such was largely the case with the West as it imbibed Christianity and altered its memes to create Western Christianity. Victor Hugo was no fan of the church and he had confused notions about civilisation. Here is part of his letter in favour of John Brown who was such a "champion of Christ" that he wanted to get all the white women of the South raped and murdered by creatures closer to monkey than Aryan. I don't think the real Christians who kept the Turk at bay for centuries and would agree with his analysis. If you take sides with the hideous, the ugly against the beautiful then you are a barbarian, since you are a barbarian and truth means nothing to you why not claim your barbarism is civilisation and vice versa? Why not stick in a bit of flattery while you're at it?

"When we reflect on what Brown, the liberator, the champion of Christ, has striven to effect, and when we remember that he is about to die, slaughtered by the American Republic, the crime assumes an importance co-extensive with that of the nation which commits it--and when we say to ourselves that this nation is one of the glories of the human race; that, like France, like England, like Germany, she is one of the great agents of civilization; that she sometimes even leaves Europe in the rear by the sublime audacity of some of her progressive movements; that she is the Queen of an entire world, and that her brow is irradiated with a glorious halo of freedom, we declare our conviction that John Brown will not die; for we recoil horror-struck from the idea of so great a crime committed by so great a people."

Hugo was a propagandist for the French Revolution. The French revolution we were told in our school books was a popular revolution but in fact the people rose up AGAINST the revolution. We need more writers. We need simple histories of the world taking revisionism into account. Do I have to do everything? By the way can anyone fill me in on one point or do a bit of research? I hear mentioned often in the literature about the French revolution about clothes made from human skin. But have any of these objects been preserved for us? Would anyone care to find out if any primitive tribes extant or extinct have practiced this?

"Les " guerres de Vendée "... L'éducation nationale républicaine n'enseigne pas ce génocide dont la république est responsable. Sinon, il faudrait qu'elle dise les cadavres qu'on fait fondre pour en extraire la graisse, les peaux humaines tannées, les massacres de centaines de personnes dans les églises, le pillage aussi car cet écrasement de la Vendée fut aussi une histoire de gros sous et de voleurs. Bref, il faudrait pour l'enseigner que la république française accepte de faire " repentance " pour ses crimes en Vendée en 1793.

Emile Gabory " La Révolution et la Vendée "

Un cavalier accourt dans les champs pour arrêter une jeune fille qui fuit ; il l'atteint, la viole, et la massacre ensuite. Des malheureuses, qui espèrent par le déshonneur subi avoir évité la mort, sont fusillées nues. Une femme est coupée en morceaux avec sa servante [...]. Des femmes sont souillées dans leurs cadavres. Des soldats ouvrent le corps des femmes enceintes, y mettent de l'avoine et y font manger leurs chevaux. On pourrait composer un livre de trois cents pages avec des scènes de ce genre. Le plus attristant est que tous ces crimes apparaissent aux soldats comme faisant partie du plan de vengeance nécessaires. " Pour le bien de la République, déclara un général, Les Echaubrognes ne sont plus; il n'y reste pas une seule maison. " Dufour célèbre ses exploits dans le style du Père Duchesne. C'est à qui trouvera des expressions piquantes et vraiment révolutionnaires. Turreau appelle le brûlement de la Vendée " la grande illumination ". Ses lieutenants reprennent l'heureuse expression du chef " L'illumination va plus que jamais ", écrit Cambray. " En ce moment, mande le chef de la colonne 5, quarante métairies illuminent la campagne. " Eclairage et chauffage réunis: " Je me suis chauffé très amplement, ce matin ", écrit le même. " Je commence les feux de joie ", mande le chef de la deuxième colonne. [...] Cordellier purge " par le fer et par le feu " les pays de son ressort ; il a fait passer " derrière la haie " environ six cents particuliers des deux sexes ; la haie qui sépare la vie de la mort ! Dufresne fait graver sur son sceau à cacheter une guillotine.

On a beaucoup parlé des pantalons de peau humaine et de la graisse extraite des femmes [...]. La comtesse de La Bouère affirme avoir interrogé, à La Flèche, en 1829, un ancien soldat républicain qui s'accusa devant elle d'avoir commis de semblables horreurs. Il se vanta d'avoir " écorché des brigands pour en faire tanner la peau ", d'avoir vendu douze de ces pantalons de peau humaine ; il aurait fait fondre cent cinquante femmes pour avoir leur graisse. Il expliquait ainsi le procédé : " Nous faisons des trous en terre pour placer des chaudières, afin de recevoir ce qui tombait. Nous avons mis des barres de fer dessous et puis les femmes dessus ; puis au-dessous encore, était le feu. " Cette opération aurait eu lieu à Clisson, vis-à-vis l'étang nommé, le Grenouiller la graisse servait pour les hôpitaux. L'opérateur en aurait dirigé dix barils sur Nantes, sans en marquer, vraisemblablement, la composition. [...] Si toutes les femmes prises ne sont pas brûlées, elles trouvent, en tout cas, un emploi : les plus vulgaires appartiennent aux soldats, les plus belles aux officiers. Moins raffiné, le général Commaire marque une préférence pour les vivandières. Une enquête médicale officielle, faite en " l'an V " révélera les ravages vénériens opérés dans une population naguère saine, à la suite du passage des soldats de Turreau. Que ce soient les troupes de Grignon ou celles de Cordellier, celles de Huché ou celles de tout autre chef, le viol est la récompense normale du soldat. Dans les métairies, les femmes sont prises devant leurs maris expirants. Le pourtant républicain Châtelain a raconté des scènes de sadisme inouï. Une citoyenne de Pouzauges est la conquête commune de l'état-major de l'armée. Une autre appartient à trente soldats.

And here is Hugo's version: The Bretons loved their priests and their fleas too much and were blind to the "clarity" of the French Revolution.

"Si l'on veut comprendre la Vendée, qu'on se figure cet antagonisme : d'un côté la révolution française, de l'autre le paysan breton. En face de ces événements incomparables, menace immense de tous les bienfaits à la fois, accès de colère de la civilisation, excès du progrès furieux, amélioration démesurée et inintelligible, qu'on place ce sauvage grave et singulier, cet homme à l'oeil clair et aux longs cheveux, vivant de lait et de châtaignes, borné à son toit de chaume, à sa haie et à son fossé,

distinguant chaque hameau du voisinage au son de la cloche, ne se servant de l'eau que pour boire, ayant sur le dos une veste de cuir avec des arabesques de soie, inculte et brodé, tatouant ses habits comme ses ancêtres les Celtes avaient tatoué leurs visages, respectant son maître dans son bourreau, parlant une langue morte, ce qui est faire habiter une tombe à sa pensée, piquant ses boeufs, aiguisant sa faux, sarclant son blé noir, pétrissant sa galette de sarrasin, vénérant sa charrue d'abord, sa grand'mère ensuite, croyant à la sainte Vierge et à la Dame blanche, dévot à l'autel et aussi à la haute pierre mystérieuse debout au milieu de la lande, laboureur dans la plaine, pêcheur sur la côte, braconnier dans le hallier, aimant ses rois, ses seigneurs, ses prêtres, ses poux ; pensif, immobile souvent des heures entières sur la grande grève déserte, sombre écouteur de la mer. Et qu'on se demande si cet aveugle pouvait accepter cette clarté."

So we have a symbol from the old world order that is against the new world order and is also a symbol of a regional european nationalism and which is explicitly christian.

This site needs more translators ,researchers, everything! I'm doing my best to learn to at least understand the major languages. We need more people to do that .

The Vendée, The gulags, Cromwell's massacres in Ireland, the destruction of Prussia. These "progressive" genocides receive hardly any attention ,indeed the Jews in Britain put up Cromwell amongst the candidates for "greatest Briton" for their slaves to vote for .Of course Cromwell didn't kill enough Aryans and the prize went to Churchill ,one of the most despicable pieces of filth who has ever disgraced the face of the earth.

One of the reasons I hate Sinn Fein is because they twist irish history for their revolting mafia/marxist ends. Sinn Fein are part of the New world order and have a Jew supplied ideology whereas the Irish always fought against the NWO, just like the people of the Vendée. As for protestantism it was a reformation of christianity in the wrong direction.

The NWO is a Jewish empire just as the Roman empire was Roman but relied on people collaborating .Tribute flows to Israel just as once it flowed to Rome. Your money goes to feed Jews . Your money goes to imprison and rape russian girls in Israel. Israel is the pole of evil in the world. It is a drugs, pornography and paedophilia center.

Also the Talmud is online but I don't see a complete easily downloadable version. There are countless little tasks like that that you can do .Start defending yourself .There are countless Jews whose only job is attacking our people and civilisation and their paid to do so by our idiots!

Many of our own have turned traitor and collaborate with those they know are out to destroy our kind. One female who I knew for years ,told me that the white race was finished. She had previously lived with a black for a year and aborted his child. She brought the black to visit her family to humiliate them. People like her according to her account do what they do because they see no hope. They see no hope because people like you who know enough do not give them an example of defiance and show them there is hope. There is hope! In case you have not noticed there are 500 million whites. Many of them tough and smart. Yes there are billions of muds but one hundred white soldiers can beat

many of them tough and smart . Yes there are millions of niggers but one hundred white soldiers can beat tens times that many savages any day. Now my female friend works as a masseuse in a hotel with all that that implies . Its up to men to protect women and you fail to protect your women. Europeans are easy going and we value free speech so we let the Jews wage psychological war on us over the airwaves.

Woe to traitors!

This is how Alexander the Great dealt with even the innocent descendants of traitors. He wiped an entire city off the face of the earth to make an example of them.

"Meanwhile, Alexander came to a little town of the Branchids. The inhabitants were relocated there by Xerxes from Miletum many years earlier. This was the reward he gave them for their work on his behalf in betraying Miletum and in pulling down the temple of Apollo Didymaeus. See note on 3526 AM. This town became the home of traitors. It was wholly plundered and then totally destroyed. All the inhabitants, men, women and children, were killed with the sword. Had this been executed on the traitors, it would have been an act of justice and not of cruelty. Now the children suffered for their forefather's fault. These never saw Miletum, much less betrayed it to Xerxes. (Curt. I. 7. c. 12. with Strabo I. 11. p. 117, 118.)"

From Archbishop Usher's book.

More and more of the old left are coming to see who represents social justice. Apparently many ex-communists are joining Le Pen's party in France after seeing the workers cars set on fire by the Jew's imported savages. Zionism is a threat to the entire human race . Leading communist Garundy wrote a book that has been read by alot of intelligent muslims. Lets work together to destroy it . Left and right. The human race has a choice . It can choose western civilisation or judaism . This is one reason for all the clash of civilisations talk. The Globalists hope to play off the victims against each other. We can talk in terms of human civilisation versus anti-human civilisation. You do what you can do wherever you are. The only reason you were ever allowed to hear the name of George Orwell is that ,for example, is that for all his intelligence, his view of the world was dangerously flawed. He got Trotsky confused with the oppsition to the system when he is the system.

I would like to open a bookshop in Ireland but I do not have the resources at this point.

They have a big benzene spill in China at the moment. Benzene is contained in petrol here so you breath it in every time you walk in the street. Cheers ,become a man or continue to wallow in poison. Become a serious activist. The future course of history depends on you. As Yockey points out our civilisation has always been carried by a tiny number of key individuals. As Rousseau said "Man is born free but everywhere he is in chains", what are you going to do about your chains?

Do your duty as a member of the greatest civilisation the world has ever known. Kaganovich said after he blew up the Russian cathedral "Mother Russia is cast down we have ripped away her skirts". You ,you get up from behind your keyboard and start fighting back. The day will come when we will rip away the skirts of the Zog just as Pompey ripped away the curtain hiding the holies of holies when the Romans conquered their temple. Help dynamite the holocaust myth or some other jewish "cathedral" . We have these mythological edifices build around our countries. The myth of human equality ,the banking system etc etc. They are all there to be destroyed and all it takes to destroy them is a few serious people. People of whatever race ,there are two contradictory ideas vying for mastery of the world. One or the other will win or else annihilate each other and everything else in their struggle. We know that western civilisation is compatable with other races and civilisations and furthermore that it is the root of civilisation on earth and the source of all science .Furthermore we know that the world can not only get on well without Judaism ,it would be a much better place without it. Its not much of a choice is it? Are you going to continue struggling for the scraps beneath your masters table or are you going to upset that table ?

The Aryan has evolved with symbiosis with the notion of truth. Truth and honesty and altruism helped him survive the long winters. As the Aryan breeds the notion of honesty grows in the material universe, the genes and the memes are in symbiosis. The Aryan is truth in the flesh. The Jew has evolved in symbiosis with the forces of darkness. These myth cathedrals are his temples to his god of evil. His mentality is totally opposite. Beyond the material universe is the platonic world of forms. The Aryan's destiny follows a certain course in the mysterious landscape of ideas. Spengler and Yockey had interesting thoughts on this topic.
