

SOMEWHERE IN MY BUNKER IN AFRICA

Dear Rabbi,

Just when I was ready to enjoy my retirement, there came your nightmarish letter to the Friends of Israel of which I am one. After all I am the founding father of the State of Israel and watching Chaim Weizman on the attached sheet imitating me with his arm raised in front of the dropping flag, I thought this was the Nuremberg rally. Only difference it was the Magen David instead of the swastika. The more it changes, the more it remains the same...

Someone said that Christians pray on their knees and jews prey on their Christians. Oy Vey, Oy Gewalt, Rabbi! A nation's economy in shambles, its people without food, water, heat, the barest necessities of life... I do not know who you are talking about, but probably ISRAEL. It must be so since they are blaming the Jews! Who else can they blame? Not me, I hope! But just when I was losing faith, I read the words of Nahum Goldman: I HARDLY EXAGGERATE, JEWISH LIFE CONSISTS OF TWO ELEMENTS; EXTRACTING MONEY AND PROTESTING. These simple words restored my faith in the Jewish people! But, Rabbi, do not worry so much, Israel now has a NAZI party, so maybe they will call me to sort out the economy, which would not surprise me since we had such cozy relationship during the War and before. In fact Izhak Shamir, then head of that joyous bunch of cutthroats, the Stern gang, offered me a battalion of Jewish troops to fight the British. I declined as I had already 150 000 of them fighting for me and plenty more helping the war effort. And that idiot Eichman wanted to spill the beans in his memoirs, which was indeed a shame after all the good food and good wine your fellows gave him in the thirties. It was lucky you sorted him out and gave heart attacks to all those Germans and Jews, who knew about our close collaboration. It was difficult to find good personnel at the time, so this blabbermouth got what he deserved. Unfortunately, our Haavara Agreement is leaking out and I send you a copy in case you were not aware of it. And also a copy of your declaration of war of 1933.

...the holocaust, the slaughter of more than 6 million innocent people incinerated in monster oven that ran around the clock... I know, rabbi, that 6 000 000 is a mystical number which is unchangeable, but I would ask for a recount... It might have been only 5 999 999 or even less 997. I know we did not roast the Berlin Rabbi Martin Riesenberger who was regularly drinking schnapps with Alois Brunner. But now we have another problem. All your historians are denying the holocaust. Even Pressac who wrote 18 books on Auschwitz had to admit that it was a pack of lies. As mentioned before, I sympathise, as it is so difficult to find good staff these days. Of course all your Jewish historians are lying. There cannot be less than 6 even if Tel Aviv and Miami Beach are full of tattooed people. They say that tattoos are in the fashion today, so I was far ahead on the fashion scene.

But our problem was that damned cooking pot, that monster oven, which was running around the clock. We could never catch it. We tried to put the clock in a different position but the pot kept on running. In fact it did until well into the fifties when it began Rocking around the clock with Bill Hailey and the Comets. We intended to use it to make Matzos for Pesach, but we could not catch it. It would not stop for a moment. Some fiendish smartie, (probably Mengele) proposed to cook inmates to make corned meat for the troops, but as a cannibal friend of mine, who had a few for lunch, said, even their meat was no good. Too much gefilte fish which spoiled the taste. At the end of the war, we sent the clock to Brasil and that awful pot followed. Nobody has ever seen it again, except some deluded rabbi who smoked too much payote, but it must still be running, making crop circles in the jungle.

Well, I am glad that you do not accuse me of causing havoc with your institutions today. But you know what they say... good people only have friends and bad people have plenty of enemies. I would understand the Islamists looking at the way you treat their brothers in Palestine. They are great fighters, not afraid to die. I know, I had 300 000 fighting in my ranks and it is my Muslim Waffen SS division who sorted out those fools who wanted glory by firing on our back in the Warsaw Ghetto. They made Halaal mince meat of the Kosher glory boys. So is war! Now you are blaming the Communists as well! But the Communists are usually Jews, so how can you blame the Jews? And your media and intellectuals were full of praise for the party when your criminals were busy murdering 66 million Russians. And old Lazar Kaganovitch deserves a re-burial on Mount Zion for his liquidation of the Kulaks in 32. But then again, it wasn't the magic number 6, the number of doom, it was just 10 million Goyim, the human cattle. What is 10 million Ukrainians between kosher friends?

Yes indeed, it seems incidents (I cannot even call them anti-semitic, since you are even lying about that) are happening all over. But most people know that these are self-inflicted to attract sympathy or cash in on the insurance money. An article in a Canadian newspaper stated that the Jewish janitor started the fire in Paris. A few years ago it was three jews burning a synagogue in California. In my time, it was Kristallnacht, started by jewish émigrés in Paris who phoned various SA units while their officers were at Nuremberg. I stopped the breakage as soon as I heard of it. Nobody got killed, but you had your lies. As I have always told my subordinates, always ask: Cui bono? WHO BENEFITS? And you will find who organised the show.

I must say your letter made me realise how poor you are and I am prepared to send a few Zim Dollars to help transport those poor oppressed Jews to that paradise, that shitty little state in the Middle East as the French

Ambassador to London called it. Remember, I built that state and I want it to prosper, so that we can send the rest of you to live in tents in the Negev. At least we will know where you are. But there is something I cannot understand. Why are those poor oppressed people, leaving the land of milk and honey to return to Russia where they were oppressed before? Surely, we can all rejoice over each of those who have found freedom in their Jewish homeland, as you state, so why are they leaving? Have they no faith? Don't they believe in stealing Palestinian land? One thing I know they do not believe in, is HARD WORK. Parasitism is more their scene! And a parasite cannot live on another parasite.

So now you run the world, nations bow before you and politicians are in your pockets and yet you are not happy. You have reached the top of the proverbial mountain. You are nearing that Talmudic time when all the gold of the world will belong to you (minus a few gold teeth which my guard are supposed to have put in their back pockets). Your businessmen are rich beyond measure and flaunting their wealth in front of the stupid goyim. Instead of enjoying your wealth, you want Christian dummies to send more of you to that shitty little state, that walled in ghetto with its massive cement wall, that giant concentration camp, with its watchtowers FACING OUTSIDE, and plenty enemies INSIDE as well, trying to fend off the inevitable. When your brave killers shot little Mohammed, 9 months later, there was another little Mohammed. And there are plenty more little Mohammed born daily inside and outside. So it is just a question of time. For how long can you still get little Christian dummies to get blown in Kabul or Baghdad? The President of Iran has just debunked your holohoax story in front of 60 million Iranians and a billion more Muslims. How long can you still go on before even the dummies are tired of you? Your only hope is to REPENT, TO ADMIT YOUR LIES BEFORE IT IS TOO LATE. Maybe you will get forgiveness, maybe not. As a founder member of the state of Israel, I am upset by the mess you have created there, all by yourselves.

Like that governor of California, whose father was one of my subordinates, I can only say:

I WILL BE BACK

My book is already a best seller translated into most major languages. My economic policies are adopted by more and more countries. Even Russia offered to pay all its debts to your banksters. You are losing control, Rabbi... There will be no place to hide. Israel was your last chance and you blew it. The dream is over, what is left is a mafia controlled cesspool more corrupt by the day, with little milk and no honey left.

But do not worry, Rabbi, I will take care of you. I will rent you my bunker here in Africa. Plenty of space since below there are 10 floors with labs where little Hitlers were cloned. I will leave you the equipment and maybe you will be able to clone more New York Jews to TAKE OVER THE WORLD. And in other labs, your scientists will be able to continue researches started in Israel to create an Aids type virus which will target only Arabs. By killing real Semites, you will cease being the copy cats. And do not worry about the rent. We can negotiate the contract later.

Well, Rabbi, I am looking forward to meet you. I will even accompany you to the lift. Maybe down the shaft you will find more GOLD. Who knows? Miracles do happen.

Wishing all the best before that happy time, I am,

Yours faithfully

ADOLF HITLER

PS. I enclose quotes from the Talmud which you give to your Christian friends. I am sure they will appreciate the gesture

DID DR. MENGELE'S INFAMOUS EXPERIMENTS CONTRIBUTE IN ANY WAY TO MEDICAL SCIENCE? by C.M. Mathey

It seems so, since the British Government employed Mengele for several years after the war, and like so many other top Nazis recruited by the Allies immediately after the war, he was never put on trial for war crimes. So much for the Allies' sense of justice! Canada had the opportunity of arresting Dr. Mengele, but before doing so, they contacted British authorities, who promptly declined the offer, and with good reason. He would have been put on trial, and would have disclosed embarrassing details about British collaboration. Meanwhile the Allies were conducting their own human experiments. The U.S. Government experimented on 1 million of their citizens. Babies were injected with radioactive iodine; retarded children fed radioactive milk; pregnant women given radioactive pills, etc. The Japanese doctors who performed the most terrible experiments on prisoners at Harbin were exonerated in exchange for the results of those experiments, and became executives of pharmaceutical companies. Compared to them, Dr. Mengele was a choir boy. ORION!
