## PUBLIC INFORMATION BULLETIN OF NATIONAL ACTION

NA accept no liability for information provided/inferred. STORM is an information source only.

**Anti-Racist 'Friends':** ANA Field worker told of two disturbing encounters with co-workers. In first incident ANAista gave copy of 'Hate Crimes' by US-based National Alliance to a contact he had been cultivating for seven years. Thought he

knew how this fellow 'ticked' but almost got it very badly wrong. Fellow returned the article, simply a list of several dozen black-on-white race crimes, with the comment: "that is white-supreme-ists. You could report you for that - but I won't". In return for not 'ratting' insisted our boy read Herman Wouk's *Here is My God*, an insiders account of the 'glories' of Talmudic religion written by a son of a rabbi. Since then the contact has kept our boy under very close surveillance.

Undeterred our boy, not to be silenced, then provided Rightist material to a second co-worker. This worker seemed ripe for recruitment. A Pentecostal Christian and part-time evangelist who spent every day off door-knocking 'for Jesus', he had often criticised 'the way things are'. Our boy had been regularly discussing Biblical 'solutions' to secular problems over a period of eight years. Yet when he gave this trusted 'friend' a copy of *C-FAR Report's 'Chinese War Plan for Conquest &*

*Extermination of America'* the reaction was almost instant. Within an hour our very agitated, by now ex-friend, returned it saying breathlessly: "destroy that! Its racist! You could get charged for that! My son works with Chinese at the University!" Again, our boy is now 'watched' by this fool. .

**'Rub Out the White Marks':** ANA were contacted by LC [Clive Lancaster], former mining explorer in remote Kimberley Ranges of NW Western Australia. An old man now and dying he is reflecting on his life. "I spent 27 years drilling bore holes in the Kimberleys - Mt Tom Price, Parapardoo, everywhere - for oil, gas and diamonds, you name it". ANA: "Find anything?" CL: "Heaps! Then in 1983 Bob Hawke [then ALP Prime Minister] came along and said: 'forget about it, boys: cap the bore holes, rub out the white chalk marks, forget about them'. So we did. Nowadays they're crying out for the stuff". 'Dead men tell no tales' but dying one's talk lots.

**Traitors in High Places:** In 1989, after alleged 'Tian An Men Square Massacre', Hawke allowed 25,000 students from Red China to remain in Australia. Are still here. Before 1989 China had sent 125,000 students overseas to gain Western knowledge and return. After TAM none did. Instead all remain, as 'sleeper agents', in the West. Hawke left office in 1991 & walked straight into job as Chinese 'investment adviser'. Now has home there. In 2005 Liberal Prime Minister Howard headed a high-level delegation to Guangdong Province [Canton] to convince Chinese to purchase our NW Shelf gas fields, just off coast of Kimberleys. Media reported they bought it for \$25 billion dollars, a great 'victory' for Howard. Can we expect him, upon leaving office, to also move to China?

**Anti-Racist Violence:** During meeting in Brisbane to celebrate Queensland Independence Day at 6pm on 6.6.06, a local nationalist leader told of confrontation in Kedron with an anti-racist female. During a bus trip home from the city with other Rightists he had observed a 'queer'. All commented 'look at that queer'. When they got off bus were followed by this irate white female who physically assaulted them, throwing punched and kicks while swearing profusely. After having restrained her they asked the source of her ire. "I heard you's! I've got a lot of 'gay' friends! They've been 'gay bashed'!" "Not by us" they replied. They finally managed to calm her down, then released her. "We didn't hit back because - after all - it was female & you don't hit women". Leftists, whiggers & dykes are a problem. Blacks are too cowardly to attack Rightists but whiggers lack logic. Feel 'morally superior' when assaulting us.

**'Two Year's Out':** We were contacted by IN, an old Austrian female. Told us how she arrived in Australia. "Was 1956. Australia was advertising for people to come here. 'Come to the surf and the sun', you know. You work here for two years, they would refund your plane fare. A free trip. Our parents agreed. They said: 'its only two years. They'll be back'. My husband was talking at work, in the factory, and others said: 'get us application forms. We'll come too!' And they did. Well, when we got here we had jobs. That first week we went to visit the local Austrian Club. In the course of conversation we asked people 'how long have you been here?' Most said: 'Seven years'. We said: 'we're only staying the two years, then going home'. They all laughed. We wondered why. But they knew. So did the Australian government. What? When you came out [to Australia] for free, during those first two years you were spending all your money, not saving it. So you never put anything aside for your return fare home. Eventually it struck you: 'I'm trapped here!'. We were young marrieds. We spent lots of money. So 50 years later - we're still here". We asked: "did you ever go home?" IN: "Yes, but they had stayed the same and we had 'grown'. People in Austria never travel beyond their village, not for generations. Like in England. This leads to variations in local dialect every few miles". Gave ANA a clue as to how to get migrants from North Europe to move to Australia and STAY. Migrants who went to Rhodesia post-WW11 fled when war came in the 1960's. We'll need people who with 'stick-at-it-ness'.

**Did You Know...?** Ever wondered why TV soaps now run 3-5pm daily, during previous 'children's only' viewing time? Little kids now watch adulterers & fornicators have simulated sex, instead of cartoons or kids shows. Why? During lead up to 2004 Federal election allegedly 'pro-family values' Howard Liberal government was pressured by capitalist/media donors to abolish 'C' ratings - for 'children's only viewing'. 'C' had 'locked up' mornings & afternoons on TV as a 'safe zone' for kids to view 'educational' programmes. Is also most tightly regulated slot, with few ads allowed. Aims to protect young minds from commercial exploitation. But that is exactly the goal of Liberals 'free enterprise' masters. In 2004 Howard allowed a compromise: would retain 'C' but be more 'flexible' in when it appeared. 'C' is now no longer restricted to 6-9am and 3-5pm

Ever Wonder Why...? Network Ten shows such lascivious programmes as *Big Brother* and little else but a steady diet of Murdoch's anti-White, anti-Christian 'FOX' product such as *The Simpsons*? Ten is owned by CanWest (Canada West) network. CanWest is owned by son of Israel Asper, self-proclaimed 'best friend' of Rupert Murdoch [Ruben Moloch]. Like another of RM's former friends, Robert Maxwell [Ruben Migdal] the UK media titan, Asper ['Snake'] is a virulent anti-Christ. These media moguls undermine the 'Christian West' by eroding our core values from within. They also provide a hostile Islamic world with ammunition they need to accuse 'the West' of immorality and corruption. Muslims attack 'West' for tolerating the likes of RM, RM and IA. Then news outlets, like RM's FOX NEWS, demand 'the West' attack Islam for its allegedly anti-Semitism, entirely provoked by their outpourings.

reality

Taliban - Enemy No 1: Why did RM's FOX NEWS scream for Taliban-rule to be overthrown? Was no connection to 9-11 &, unlike Iraq, is no oil there. Was simply a government that had banned all TV & music, twin pillars of West's internal ENEMY to undermine all. You don't listen to lyrics of songs on the radio? Talibs did. Not for them the innuendoes, smut and sleaze. Their purity 'provoked to wrath' the evil beasts who rule West. Not 'useful idiots' in Parliament but our secret rulers. Could not allow Talib example to 'catch on'. Had to be smashed. Is reason 'the West' still have 17,000 Occupation troops there today. To make it 'safe' - not for 'Coca Cola Capitalism' as in Vietnam War, but for *The Simpsons*. Coke only rots your teeth. Homer & his band of dysfunctionals corrode souls.

Thesis + Antithesis = Synthesis: Hegelian dialectics was co-opted by Karl Marx who plagiarised much 'his' theory from others. Hegel says History progresses thus: propose an idea (thesis), which is attacked by opponents (anti-thesis) to produce a result (syn-thesis). T + A = S. This is why capitalists who rule the West usually provide 'bullets' to our enemies which we are then ordered to destroy purely for their response to our provocation. Of course, is not 'ours' any more than *Seinfeld*, *Drew Carey*, *Family Guy* or *American Father*, *My Name Is Earl* or any of a dozen anti-Christ, anti-family stereotypes are 'ours'. To end this 'clash of civilizations' between West and East, or prosperous 'North' & poor 'South' as Leftists phrase it, we must cleanse our own house beginning with TV, music & cinema. These three are also used by the ENEMY to control us. 'Cleansing' them will save us internally and end external enmity - a win-win situation. How to begin?

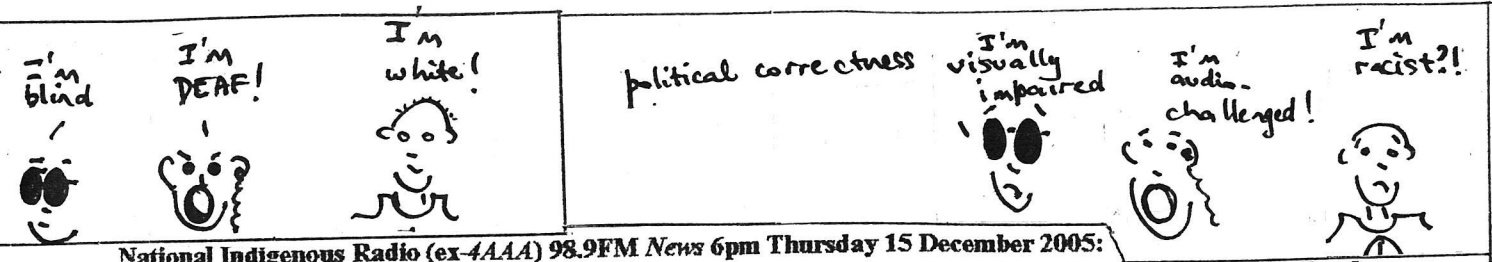

New Queensland: In NQ, our own Independent state where, as in Talib-ruled Afghanistan, we will set the rules unanswerable to our alien ENEMY. We can invite in whom we wish, not those the ENEMY deems desirable. Of course, like the Talibs, this will draw down ire of un-Godly upon us. Let us learn from the Talibs mistakes. We will not ban media. Instead we will create a flood of film, TV and music to rival Hollywood itself, denouncing the ENEMY. We will proclaim the West's great past and its bright future, once freed from ENEMY rule. How about a *Simpkins* where Homer espouses the *Protocols* to a sober Barney? A *Shezam Street* where only whites live and 'coon hunts' are an annual event? Our own media will be a tools to construct a rival social 'reality' to challenge and ultimately defeat the hollow, soulless bile Sollywood spews out.

Iranian Example: We already have an example of the possibilities in Iran. In 2004 they elected new President. Overnight he electrified ENEMY by making statements about their 'pivotal historical event' as one called it. Not birth of Messiah Jesus, but a series of fictional events in Eastern Poland during Second European Civil War, 1939-45. To question any 'fact' linked to these non-events is to oppose existence of the non-state in Mittel Ost, a crusader fortress and its hinterland, now equipped with its own 700 km Wall but not yet a moat or draw-bridge. Where did Iranian President get his explosive information?

Historical Revisionists: Is one question West's controlled media never ask as would lead directly to Historical Revisionists, a group of university-trained subversives who's work casts doubt on 'accepted facts', especially about non-events in Ost Europa, 1939-45. Several HR's travelled to Iran five years ago. Got a favourable hearing, too, with much coverage in Iranian media. Were allowed to speak at colleges and to mullah's conferences. Ideas of HR found fertile ground. Then the wise Iranians, always wary of the West, sat back and watched. They observed as the returned HR men were threatened & smeared in System media, even tried, fined, gaoled. Like Christ before them, they 'proved' the TRUTH they spoke by their readiness to suffer for it. Iranians were convinced. Saw HR's and themselves facing same ENEMY. HR's had for many years sought a 'crop' in Western lands where media mind-control is so strong. Their brief trip to the Arab/Islamic world has borne fruit one hundred fold. Iranian President is just one of their many 'fruit'.

Example to Rightists? Are we as prepared as HR's to suffer for our truth? Learn from both Talib & HR examples: is not enough to have 'truth' on your side. Must be able to deliver good quality material into the right hands. Are we 'preaching' to the deaf? Is there a more receptive market we may have overlooked? Is our material accessible to 'uninitiated' outsiders? Does it impress or just depress? Would you join us from reading our material or simply run away from the titanic struggle we're involved in? Chinese say: 'a journey of 10,000 miles begins with one step'. When writing material for outsiders we need to simply think of that first step, not the complete journey, in order to present an achievable goal. We see NQ as that goal, something concrete all can work towards. Just imagine: our own State, own borders, media, police, Army. Our own LAW. Now that's a goal worth working for.

S. 68 Who Are The Macons? Friend of ANA complained he had been compulsorily transferred in his job. Works for a large council in Far North Qld. Despite a good work standard and no adverse reports he was suddenly transferred one day to another, less savoury position. The union offered to get the decision reversed but then fell silent. Turned out one of his work-mates had been complaining about him and the work mate was a Macon. So? Workplace supervisor was also in this club. Whining work-mate had approached our friend about desirability of his joining Macons. When he refused, was transferred. Later inquiries by him revealed five other work-mates had been pressured to join this club. They also had been alerted by the potential recruiter to fact key supervisors were Macons and future promotion would be theirs if they complied. As further lure recruiter stated on several occasions that City Mayor was a 'close friend' as was permanent head of their department and key figures in Personnel Department. Was made clear to all they either join Macons and accept 'friendship' of these powerful 'Gentlemen' or would lose the good job or see their work mate now consigned to 'Siberia'.

National Indigenous Radio (ex-4AAA) 98.9FM News 6pm Thursday 15 December 2005:

Australian Defence Minister Senator Robert Hill announced plans to reform Australian Army into nine 'battle groups' to meet country's "changing defence needs". 10-year programme will cost AUD\$1.5 billion and increase Army strength by 2,500. Senator Hill said 'many laws' will need to be changed. "These involve threats from the air and threats from the sea".

SBSTV World News Australia 9.30pm Thursday 15 December 2005:

Planned changes to Australian Army include establishing second mechanised brigade and purchase of heavy lift aircraft to transport tanks [show C-5 Galaxy & M1A1 Abrams, but M1 can't be transported by air. Is why US waited months for ships to move US Army to Gulf in 1990: M1 is too big for any aircraft. More media misinformation? RE].

Commenting on Sunday's Cronulla Beach riots Campsie Police Commander said, tearfully: "I want to be able to take MY grand-kids here [Cronulla Beach]. My grandmother is Lebanese and my wife is Maltese. My son-in-law is Italian". [Police are anti-white. Continual refusal to act against offensive aliens provoked whites to wrath. RE].

ABC Radio National 792AM News 6.30pm Friday 16 December 2005:

Oscar-winning actress Cate Blanchett's condemned race riots, deploring racism "anywhere against anyone". [CB starred in *Lord of the Rings*. But in latest film *Little Fishes* she plays heroin addict with Vietnamese drug dealer boyfriend. It won five AFI awards but AFI banned box office hit *Wolf Creek* from competition, much to chagrin of its star John Jarratt who called AFI selection panel "wussies". Public shunned *Fishes*. Cost \$7million & brought in only \$5 million. *Creek* was No 1 at Australian box office in first week of release but is about Redneck xenophobe in Outback Australia who kidnaps, rapes and kills three foreign 'back-packers'. Message is clear: public tire of multicultural but 'elite' do not. Those who flocked to see *Creek* are rioting in Cronulla. Race-mixer Blanchett thinks *Fishes*-style 'love story', between white addict and Asian dope dealer, is 'true face of modern Australia'. Kultur war continues and is taking to the streets. One group can deliver us. Other will deliver us to HELL. RE].

ABC Radio National 792AM News 4.20pm Saturday 17 December 2005:

Raymond Bacon, Brookings Institute author of *Capitalism's Achilles Heel: Dirty money and how to renew the free market system*. "The amount of dirty money in the world economy is estimated at US\$1 trillion per year. Some of this is aid money skimmed by Third World dictators straight into Swiss bank accounts. But the majority is from 'transfer pricing' by multinational corporations. Is done by all multinationals to avoid taxes. They vary prices of goods they sell between countries. Is illegal, and called 'mail fraud' in US, Australia and other places, but these laws are not enforced. Practice is so widespread major accounting firms have 'transfer pricing' departments to assist large multinationals [in breaking laws]. Dirty money is biggest threat to global capitalism. Capitalism does not reduce inequities between rich and poor, it increases them".

p. 1 Sydney Morning Herald Saturday 17 December 2005:

'One week before Christmas the [NSW] government orders closure of 200 km of beaches'.

SBSTV World News Australia 6.30pm Saturday 17 December 2005:

1,500 NSW police will patrol beaches in Sydney's South and SW, 'locking them down'. NSW Opposition Leader Peter Debnam: "millions of people have been 'locked out' because a few hundred weren't 'locked up' ". Federal Multicultural Minister John Cobb is in Sydney to announce a new programme "introducing ethnic people's to 'beach culture' ".

SBSTV World News Australia 6.30pm Sunday 18 December 2005:

"Five Anglo men were detained in a car with a 25 litre can of petrol. All were dressed in camouflage fatigues. Police on beaches across the nation went on heightened alert".

Reporter Linda Burley, Gold Coast: "Were five arrests and unruly patrons of one Surfers Paradise bar were ordered to stop waving the national flag". [These complained on camera]: "we did this two weeks ago and no one said anything. This is disgusting".

SBSTV World News Australia 6.30pm Sunday 18 December 2005:

Reporter Kathryn Robinson, Sydney: "thousands today marched to show their opposition to racism". [Carried banners marked 'Communist Party of Australia', one with 'Howard = Bigot'. Another: 'No White Australia', carried by old white woman].

[Personal notes re. Reporting of Cronulla. 11.12.05:

Channel Nine News 11.30am Tuesday 27 December 2005:

Australia's richest man, Kerry Packer, died over-night aged 68.

[A late Christmas present for white Australia! Packer owns Nine Network, Australia's top rating TV channel. Is our leading anti-racist. Like second richest man and fellow-media baron Rupert Murdoch 'the Big Fella' was committed to an 'Asian' Australia. Both moved their companies 'offshore' to avoid tax, Packer in 2003 to Cayman Islands and Murdoch in 2004 to Delaware. Packer hoped India would annexe us, but Murdoch wanted China so choose a new Chinese wife to replace his obsolete white wife of 34 years.

Both media rulers believed they have a dynasty in place but Packer was forced out of early retirement in 2003 by collapse of *One Tel* in which son and chosen heir, James, invested AUD\$500 million. Lost the lot. Major shareholders in Packer's Publishing Broadcasting Ltd (PBL) refused to advance further loans while Junior was at helm. Demanded 'Big Fella' return to work. Is what killed Kerry. But James has now inherited PBL, so may disintegrate. Likewise Murdoch's heir-apparent Lachlan. Made surprise return to Sydney from New York HQ of News Ltd in mid-2005.

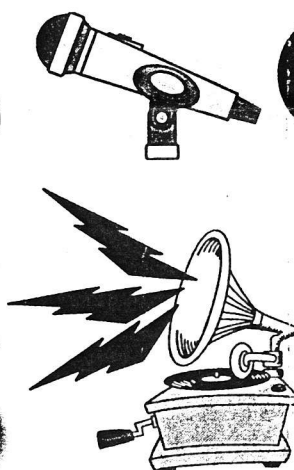

New York is where US-citizen Rupert has lived since 1983. Why did Lachlan quit family company? *Australian Financial Review*, one of few media not yet owned by News or PBL, revealed 'Lochy' had lost out in dynastic succession to Wendy Deng's two daughters, both still infants but darlings of old Rupert's black heart. Wendy's greedy ambition will kill company she hopes her daughters will one day inherit. Greed is common Chinese trait, if thousands executed there for 'corruption' are an indication. As if that were not enough Australia's No. # richest man, Richard Pratt, the 'cardboard king', is up on charges before Competition Commission for price-fixing. Not a media owner but one of The Chosen, Pratt's VISY Corporation has monopoly on all paper products bought or sold in our continent. These three aged billionaires will all soon pass on, but are only front-men for alien rulers. To be free we must eliminate those they 'front' for.

'Big Fella Bows Out: Richest man chose dignity' by Anna Patty page 1 *Courier-Mail* [Murdoch's daily] 28.12.2005: Australia's richest man, Kerry Packer, died surrounded by his wife, daughter Gretel and son James, who flew back from Maldives. His cardiologist of eight years, Dr Ian Bailey from Royal Prince Alfred Hospital: "with both heart and kidney failure and faced with continued dialysis and drug intervention, he chose dignity". ['Chose dignity'? 'Dignified death' - code for euthanasia. "Da Family 'ad 'im bumped off!" These capitalist hyena have no filial loyalty. Did they simply put a pillow over his face?! So die all traitors to White Australia. RE].

Sol TRUJILLO and 'the Three Amigos' depressed the share-price so that the company was valued \$9 billion less after the first 10 weeks of their management. The general public aren't keen on buying into T3 so the Federal Government has

institutions early next year before a public offering to small investors in Australia"- AFR, 13/10/05 - page 1.

If most of the remainder of Telstra is sold to international investors then the fraud just for T3 is about \$4 1/2 billion!
